

# Russia Deports Hungary Rebels

VIENNA, Nov. 14 (AP)—Russia's puppet government in Budapest admitted today the Soviet army is deporting Hungarians to the east in sealed railway cars in a desperate effort finally to crush the revolution.

This surprising disclosure came from Radio Budapest, which also said Hungarian workers, aroused by news of the deportations, "are leaving their jobs in increasing numbers."

# Eisenhower Raps Reds On Hungary

WASHINGTON, Nov. 14 (AP)—President Eisenhower today described Russia's methods in stamping out the Hungarian revolt as "the negation of all justice and right in the world."

Eisenhower, discussing U.S. policy in the light of recent developments in Hungary, said "we simply insist upon the right of all people to be free to live under governments of their own choosing."

It would be a "most terrible mistake," the President told his news conference, for the free world "ever to accept the enslavement of the Eastern European tier of nations as part of the future world."

The State Department's information was that they were disappearing inside the Soviet Union.

Eisenhower said nothing has so disturbed the American people as the events in Hungary.

"Our hearts go out to them and we have done everything it is possible to, in the way of alleviating suffering."

But he told his news conference that the United States never has advocated "open rebellion by an undefended populace against force over which they could not possibly prevail."

# Costs Increasing For Road Bill

WASHINGTON, Nov. 14 (AP)—The multibillion dollar federal aid highway program may prove far more costly than was anticipated, if the cost of construction work and materials continue to rise.

Government officials expressed concern over this prospect today as the Bureau of Public Roads reported the price level for highway construction in the third quarter of 1956 rose to a new high.

The bureau said the increase of 3.8 per cent came on top of a 2.3 per cent hike in the second quarter over the first three months of the year. It was the fifth straight quarter in which highway building costs have moved upward.

The figures are based on contract prices for federal-aid construction awarded by state highway departments.

The increases, coupled with a boost in late summer of \$8.50 per ton for steel and talk by some companies of another possible round of price hikes, pose a threat to the extent of contract awards in coming months.

# U.S. Won't Begin Standby Oil Plan Until UN Acts

WASHINGTON, Nov. 14 (AP)—The United States has decided not to trigger its standby plans for supplying oil to Europe until the UN police force has established order in the Suez area, informed officials said today.

Although this leaves Western Europe facing a critical oil shortage and rationing, it was disclosed that the United States is determined to do nothing which might endanger UN efforts to achieve a peaceful settlement of the Middle Eastern crisis.

The government was described as particularly anxious not to give the appearance of aiding the British and French in their conflict with the Arab nations by replacing the crude oil shipments cut off by the blocking of the Suez Canal and the closing down of some Mediterranean pipeline facilities.

This policy inevitably heightens the pressure on Britain and France to cooperate with UN Secretary General Dag Hammarskjold by withdrawing their troops from Egypt and clearing the way for a UN-supervised restoration of the vital crude oil flow.

# Slain Man Blamed In Acid Blinding

NEW YORK, Nov. 14 (AP)—A confessed conspirator in the acid blinding of columnist Victor Riesel today pinned the act on slain Abe Telvi. He said Telvi himself was so burned by the acid that his face was "dripping blood."

The witness, Joseph Peter Carlino, testified that the acid attack was Telvi's own idea, the original plan having been merely to give Riesel a beating.

The government contends Telvi, sent out of town for a while because his acid scars might attract attention, was later shot to death when he returned and sought higher pay for the job.

Carlino, who has pleaded guilty to helping plot the attack, is a witness in the trial of three others, Domenico Bando, Leo Telvi, and Gondolfo Miranti.

# Hammarskjold Commits Police, Flies to Egypt

UNITED NATIONS, N.Y., Nov. 14 (AP)—Dag Hammarskjold flew tonight on a dramatic mission to "establish peace and order" in the Middle East after flashing urgent instructions for the new UN peace patrol to go to Egypt.

He thrust aside all diplomatic obstacles in decisive gestures and took off from Idlewild Airport, New York en route to Italy and thence to Cairo. He told newsmen he was going to Cairo "to do what I can to assist in setting up and getting going a United Nations emergency force in Egypt."

**Hopes for Peace**  
"It is the first experience of its kind," he said. "It is the first truly international force. Let us hope that it will succeed. Let us hope that we will succeed in establishing peace and order."

The UN secretary general acted as fresh and ominous war clouds gathered over the critical zone where Egypt, Britain, France and Israel observed an uneasy ceasefire.

**Russian Aid Sought**  
Dispatches from Moscow received here reported that Egypt had asked the Soviet Union to permit thousands of "volunteers" to go to Egypt. Some worried delegates, who would not be identified, said such a move almost certainly would mean war. They expressed the hope Hammarskjold's soldiers would be in Egypt in time to forestall any new complications.

As these developments occurred, Hammarskjold met with an advisory committee created by the emergency Assembly last week and went over arrangements for the operation. He had obtained the final word from Britain, France, Egypt and Israel and had tied up many loose diplomatic ends.

fire before the patrolman informed him of it.

The patrolman said he left the area to make a required call at 12:30. Upon returning, he escorted the woman to her dormitory.

Maj. Gen. E. L. M. Burns inspected his force of Norwegians, Danes, Canadians and Colombians and then got word from UN Secretary General Dag Hammarskjold to send them on without further delay.

Burns is to confer in Rome tomorrow with Hammarskjold, who is en route from New York to Cairo.

Burns said he would set up a combined headquarters "within the consultation area itself—to the west of the canal zone."

Reporters asked: "Does that mean in Ismailia, or Port Said?" Burns shrugged: "That is all I can say about this at the moment."

# UN Police Leave Italy For Egypt

CAPODICHINO STAGING AREA, Italy, Thursday, Nov. 15 (AP)—The first units of the UN police army for the Middle East took off here before dawn today for the Suez Canal zone.

The two chartered Swissair planes carrying them to the silent battlefield are expected to land behind Egyptian lines near Ismailia.

The flight from this takeoff point near Naples at the foot of Mt. Vesuvius is about 1300 miles.

The peace force had been idling here since last weekend under a series of alerts for flights that never got off the ground for one reason or another.

Maj. Gen. E. L. M. Burns inspected his force of Norwegians, Danes, Canadians and Colombians and then got word from UN Secretary General Dag Hammarskjold to send them on without further delay.

Burns is to confer in Rome tomorrow with Hammarskjold, who is en route from New York to Cairo.

Burns said he would set up a combined headquarters "within the consultation area itself—to the west of the canal zone."

Reporters asked: "Does that mean in Ismailia, or Port Said?" Burns shrugged: "That is all I can say about this at the moment."
