

Lion Booters to Battle Leading Teams in East

The Nittany Lion soccer team's final four games of the 1956 season could well be described by the Darwin theory, "survival of the fittest."

Starting with the Navy game tomorrow afternoon in Annapolis, the Lion booters will play four of the East's leading soccer teams in a short span of eight days.

Whether the Nittany soccer men can emerge from this grinding quarter of their schedule in victorious fashion remains to be seen. But if they do, there will be almost no doubt in any one's mind over the placing of the Lions in the ranks of the top ten collegiate soccer powers in the nation.

After tomorrow's game with the once-beaten Middies, the Lions slip over to Washington, D.C., for a Saturday afternoon encounter with Catholic University.

Coach Ken Hosterman's eleven don their traveling clothes again Tuesday to meet Temple University in Philadelphia. They close the season next Saturday in Pittsburgh against the Pitt Panthers.

The Lions will probably meet their roughest opponent tomorrow at Annapolis. The Middies, who are almost always listed among the leading teams in any collegiate sport, have only one loss this year—a 1-0 decision to Yale.

They have eight victories to their credit, including four shutouts, and have accumulated 33 goals while limiting their opponents to seven.

Pennsylvania was the only team able to chalk up more than a goal against the blue wave. The Quakers, who handed the Lions their lone defeat of the season, 3-2, lost a heart-breaking 4-3 overtime decision to the Middies.

In other games Navy defeated Brooklyn College, 6-0; Princeton, 2-0; Virginia, 3-1; Pittsburgh, 5-1; Slippery Rock State Teachers College, 6-0; Haverford, 5-0; and Swarthmore, 2-1.

DU, ATO Cop Bowling Wins

Two shutouts were registered in Tuesday night's intramural bowling action. Delta Upsilon, led by Jim Lockerman, whitewashed Phi Delta Theta, 4-0, and Alpha Tau Omega, spearheaded by Dave Dickinson's 235 single and 528 series, trounced Alpha Zeta, 4-0.

In other fraternity action Theta Xi defeated Phi Gamma Delta 3-1, and Kappa Delta Rho topped Sigma Alpha Mu 3-1, despite Allan Rose's 203 single and 518 series for the losers.

Theta Delta Chi knocked off Tau Phi Delta, 3-1, and Phi Sigma Delta and Tau Kappa Epsilon split at 2-2.

Penn State defeated Illinois and Ohio State in its last two starts against Big Ten football teams.

ENGINEERS

Let's Talk Turkey

At Hoover Electronics you have the opportunity to exploit and develop your talents.

We are engaged in long range growth . . . insured by a substantial back-log of contracts and a staff of electronics engineers with national prestige. This combination of work and skill provides an atmosphere conducive to your maximum development. This development will carry with it optimum advancement with commensurate monetary reward.

Our present facilities comprise 28,000 square feet of floor space. To meet our expansion program a modern plant is under construction at Timonium, Maryland, one of Baltimore's most pleasant suburbs.

HOOVER ELECTRONICS CO.
3640 WOODLAND AVE. • BALTIMORE 15, MD.
Subsidiary The Hoover Company

Hoover offers you a unique opportunity to work in a wholesome environment and give your creative talents the opportunity to progress in the following fields:

- TELEMETRY
- ELECTRONIC RANGING EQUIPMENT
- RADIO NAVIGATIONAL AIDS
- COMPUTING EQUIPMENT
- MISSILE GUIDANCE
- SYSTEMS ANALYSIS
- INSTRUMENTATION
- INDUSTRIAL ELECTRONICS
- SPECIALIZED TEST EQUIPMENT

Mantle Unanimous Choice as MVP

NEW YORK, Nov. 14 (AP)—Mickey Mantle, the New York Yankee slugger who won the American League's triple batting crown, today was unanimously named the most valuable player of the League in the balloting of the Baseball Writers Assn.

Only once before in the history of the voting had a player won without a dissenting vote. That was in 1953 when Cleveland's Al Rosen won.

ASSIGNMENT WITH A FUTURE

Engineering history is being made at Chrysler Missile Operations. We are meeting and conquering the challenge of two of today's most important missiles—the Redstone and Jupiter Ballistic Missiles.

As a graduate engineer we offer you an opportunity to share in this adventure in engineering for we need young men with the necessary vision and creativeness to work in today's newest and most rapidly expanding field. In no other area of engineering are the opportunities as great or the future as bright for a young engineer as in this dramatic industry.

You will find at Chrysler Missile Operations a work atmosphere which is geared to new ideas and where ample opportunity is given each individual to achieve leadership and full command of all phases of missile development. You will work shoulder to shoulder with many of today's greatest missile scientists and pioneers whose names are synonymous with pilotless flight.

If you wish to become part of a wide open—full of the future—engineering field, one which will literally lift you out of the ordinary and into a whole new world of engineering opportunities, then graduate to Chrysler—Guide Post to Opportunity!

We invite you to discuss your opportunities at Chrysler Missile with
