

Banners Ask Longer Yule

BANNERS ASKING for a longer Christmas recess were waved at the pep rally last night along with typical banners supporting the football team. Two of the banners read "All Students Say More Vacation" and "Extend Xmas Time." (Story on page 1).

Military Band Draws 5000 At 2 Concerts

The Marine Band performed before approximately 5000 persons at two concerts in Recreation Hall Thursday.

The band, conducted by Capt. Albert Schoepfer, presented classical, modern, novelty, and martial selections.

Arthur Lehman, a 1940 graduate of the College of Engineering and Architecture, returned to his alma mater as soloist with the famed band.

Praised by Critics
Lehman, described by critics as "the best euphonium player since Simone Mantia," gave a rendition of "La Mandolinate," on the euphonium.

The matinee, designed mainly for a young audience, lasted for about an hour and a half.

The more formal evening concert was presented to an estimated crowd of 3500 people.

Olympic Fund Aided
The concerts were sponsored by Sigma Chi fraternity. The proceeds will be used to help support the U.S. Olympic team at Melbourne, Australia. Proceed results are not available yet.

Members of the "Presidents' Own" Marine Band were feted at a party after the evening concert by the members of Sigma Chi fraternity.

Leonides to Meet Monday

The Leonides Council will meet at 6:30 p.m. Monday to discuss revisions to be made in the Leonides Constitution.

151 Panel Exhibitions On Display in M Eng

An exhibition of 151 panels depicting "German Architecture Today" is on display in the corridors of the Main Engineering Building.

The exhibition, sponsored by the department of architecture, will continue until Nov. 29. It is open daily, except Sunday, until 11 p.m.

Contest to Be Staged By Color Slide Club

The State College Color Slide Club will hold a slide contest at its meeting at 7:30 p.m. Monday in the Mineral Science Auditorium.

Each member of the club and any interested student is invited to submit two slides for judging in the monthly contest.

Military men--

This is just a reminder that Monday, Tuesday and Wednesday are the days to enter your girl's picture at the HUB desk. Give her a chance to be MIL BALL QUEEN.

PROBLEM: To evaluate the all-round career advantages offered by the widely diversified activities at Divisions of North American Aviation, Inc.

FIRST STEP: GET THE FACTS in man-to-man interviews, on campus See Your Placement Service

As a graduate in Engineering, Physics, Applied Math. or allied subjects you need complete, factual information to help you make a sound decision in choosing your career.

AUTONETICS

Get the facts in a man-to-man interview with our representative. Let him tell you about our unique placement and training devised to help your potential develop rapidly in a company where continued expansion has doubled the number of employees in 5 years. Your possibilities are wide and varied, as you will see from these brief notes on the 4 Divisions:

AUTONETICS creates automatic controls and electro-mechanical systems of a highly interesting nature. Work includes research, design, development, manufacture and testing; you will become a part of the latest advances in

ROCKETDYNE

inertial navigation and guidance, fire and flight controls, analog and digital computers.

ROCKETDYNE is building power for outer space—large, liquid propellant rocket engines. The Field Test Laboratory in the Santa Susana Mountains is the most complete rocket engine workshop in the free world. Here a man meets more aspects

of his specialty in one week than in a year of "conventional" practice.

ATOMICS INTERNATIONAL is pioneering in the creative use of the atom. If you are able to meet the high requirements for this work, you can help introduce a new industrial era. Atomics International is designing and building varied types of nuclear reactors, for both power and research, with the practical experience gained by 10 years in the field.

MISSILE DEVELOPMENT ENGINEERING

Long range missiles, including the intercontinental SM-64 Navaho, present problems of the

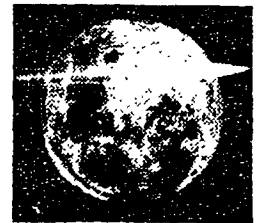

ATOMICS INTERNATIONAL

most fascinating nature. Speeds, materials and functions now being dealt with were only theoretical a few years ago. The work is vital; the opportunities for you, as a creative engineer, are correspondingly great.
