

IBM System Voted By Panhel Council

Panhellenic Council Tuesday night voted unanimously to adopt an IBM system for sorting and sending bids and invitations during the formal rush program.

The system was originated at Purdue University several years ago and since then has spread to many other large universities.

The IBM machines will cut work to a minimum for the alumni sorority women who formerly spent many hours sorting invitations. Last spring 110 women were employed in the project.

A second advantage is that mistakes will be eliminated in sending and sorting the invitations and bids.

Invitations will now be sent to rushes on IBM cards. These cards will include the theme of the party on them and a space will be left for the sororities to

write in what should be worn.

The council passed a motion that called for two costume parties instead of three as had been the custom in past formal rush programs. Less than half of the sororities held three costume parties last spring.

Lee Leaphart, Chi Omega, was appointed chairman of the Panhel Greek Week committee. Other committee members will be notified of their appointments by Panhel.

Pre-rush registration for women interested in formal rushing this spring will be held from 8 to 12 a.m. and 1 to 5 p.m. on Dec. 14 and from 9 to 12 a.m. Dec. 15 in the back lounge of Woman's Building.

Ed Council Discusses Elections

Education Student Council at its meeting Tuesday night discussed the possibility of holding its election of officers in January rather than in March as it has in the past.

Judith Hance, president, explained that all three officers would be leaving at the end of the semester and that the three new officers would serve through next semester and next year.

Miss Hance and her sister Ginger, secretary-treasurer, will be going student teaching the first eight weeks of the second semester, and Katherine Dickson, vice president, has made tentative plans to leave the University at the end of the semester.

Miss Hance said that she would go before the Intercollegiate Council Board today to ask permission to hold an election at a time different than that of the other councils.

The question of the need for a constitutional revision to provide for the change in procedure was raised as was the idea of adding an amendment or acceptance to provide for the legality of this year's early election. Miss Hance said she did not feel any change in the constitution would be necessary.

Joyce Fullerton, junior from Wayne, reported briefly on the financial and sightseeing aspects of a trip she took to the United Nations as council's representative.

Shaw—

(Continued from page five)

Shaw considered himself the lone champion of realism against romance and said that his plays were not romantic but instead "genuinely scientific natural history." He called himself a professor of natural psychology and was proud that his plays transformed audiences into the true villains of his dramas.

Shaw's one-hundredth birthday anniversary might have gone unofficially unobserved throughout the world had it not been for a woman in Chicago, who while reading one of Shaw's many biographies, found a reference to his date of birth. The Adult Education Council of Greater Chicago then designated July 26, 1956, as George Bernard Shaw Day in Chicago.

Included in the celebration, which was the world's only officially proclaimed observation of the Shaw centennial, was a symposium in which experts discussed "The Many Sides of GBS—Playboy, Prophet, Playwright, Philosopher, and Publicist;" a vegetarian luncheon; and the formation of the Chicago chapter of the Shaw Association of America.

The famous author with the long white beard—it was originally red—also became the subject of many books, magazines, and journals. Included among these was a poem, "Lines for a One Hundredth Birthday" by the noted poet, John Masfield.

Employment Interviews

The following firms will conduct interviews for February graduates and advanced degree candidates who expect to receive degrees during the current school year in the Placement Service office in 112 Old Main:

- Dec. 12: IBM: BS: EE, ME, Math, Phys, Chem, Met, IE, AeroE, ArchE, SanE; MS, PhD: IE, EE, MechEng, Math, AeroE, Phys, Chem, Cer.
- Libby, Owens, Ford Glass Co: BS: EE, CerE, ME, IE, Phys, ArchE, CE, Met, Inorgan Chem, MS: EE, CE, CerE, ME, Phys, Met; PhD: Organ Chem, Inorgan Chem, Cer, PhysChem.
- Los Angeles County Civil Service: BS, MS: CE, ME, EE (Interested in CE careers).
- Revere Copper and Brass: BS: IE, MetE, ChE, Met, ME, CE, ArchE, LA&BusAd (with semi-technical background) interested in sales.
- Dec. 13: Long Island Lighting Co: BS: ME, EE, CE.
- Modjeski & Masters: BS: CE.
- Stanford Oil and Gas: All degrees: Geophys.
- Union Oil Co. of California: All degrees: ChE, Pnge.

Stop everything—start laughing!

Sticklers!

IF YOU'VE GOT a Lucky, you've got it made. That's 'cause you just can't beat a Lucky for taste. Luckies are made of fine tobacco—light, naturally good-tasting tobacco that's TOASTED to taste even better. In fact, you'll say Luckies are the best-tasting cigarette you ever smoked. What more could you want? Oh, the answer to the Stickler! If you're in a light plight, what you need is a Match, Natch!

"IT'S TOASTED" to taste better!

DON'T JUST STAND THERE... STICKLE! MAKE \$25

Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) They're so easy, you can think of dozens in seconds. We'll shell out \$25 for every stickler we use—and for hundreds more that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

Luckies Taste Better

CLEANER, FRESHER, SMOOTHER!
