Decoration Rules Set By Housing

The Department of Housing has released a list of regulations covering Christmas decoration to be followed by all students living in University residence halls.

The regulations are as follows: Only water-soluble paint may be used to decorate window panes or mirrors; student residents are responsible for removing paint and other decorations before leaving for Christmas recess.

No Use of Screens

Decorations may not be attached to the inside or outside of the window screens, nor may the screens be removed; individual student decorations or signs may not be attached to the outside of the buildings.

Group, unit, or hall decorations that are planned for the outside of buildings or surrounding lawns must be approved in advance by the Director of Physical Plant through the Housing Department office, 108 Old Main.

Fireproofing Required

University regulations require that all Christmas trees and similar combustible decorations used in campus buildings must be made fire-resistant by approved chemical treatment.

Trees must be sprayed free of charge by taking them to Beaver Field under the west stands from 1 to 2:30 p.m. on Tuesdays and Fridays until Dec. 14.

Eng Prof to Attend Research Seminar

Dr. William E. Ranz, professor of engineering research, will attend the Research Planning Seminar of the Community Air Pollution Program of the Public Health Service Dec. 18 to 20 at Cincinnati.

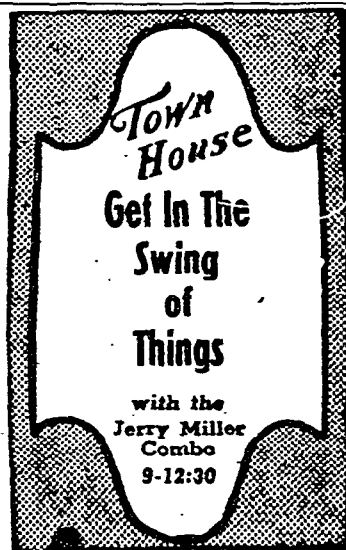

On Dec. 17 and 28, he will attend the Christmas Symposium of the Industrial and Engineering Chemistry Division of the American Chemical Society at Purdue University.

Dr. Ranz is general chairman of the American Chemical Society Symposium which concerns the role of fluid mechanics in chemical engineering.

Parking Survey--

(Continued from page one) ing bounded by Atherton street, College avenue, Locust lane, and Highland avenue. The heaviest demand for parking is within this area, which includes all but two blocks where parking demand exceeds the supply of spaces, the borough report said.

The borough report recommended acquisition of additional off-street parking facilities, preferably privately owned and operated.

Award Created In Agronomy

An Agronomy Achievement Award has been established to recognize outstanding students in agronomy.

The award, established by the National Plant Food Institute, Washington, D.C., includes a \$200 scholarship and an engraved key for the recipient, and a plaque be presented to the department of agronomy on which the names of the annual winners will be engraved.

The award will be presented each year to a junior in agronomy and selection will be based on scholarship, character, and leadership.

The student will be selected by the agronomy faculty and the agronomy clubs with the approval of the committee on academic standards of the College of Agriculture.

Graduate Student Group To Hold Semi-Formal

The Graduate Student Association will sponsor a semi-formal dance from 9 to 12 p.m. Friday in the Hetzel Union ballroom.

Only graduate students will be admitted, and no admission will be charged. The music will be provided by the Melody Men.

8 Named to Greek Week Committees

Eight fraternity men have been appointed to chairman Greek Week committees.

The appointments, announced at Monday's Interfraternity Council meeting, were: Thomas Hollander, IFC-Panhellenic sing; Robert Steele, work projects; Patrick Reilly, Greek Sunday; Harry Dangerfield, banquet; Bruce Huffman, exchange dinner; William Kling, booklet editor; Joseph Boehret, publicity; and Albert Rubens, poster contest.

Booklets Distributed

Copies of the 1956 IFC Workshop booklets were distributed at the meeting. The booklet contains reports of the proceedings of the nine workshops, which met Oct. 23-25.

Also distributed was the IFC rushing list, containing the names of freshmen and new students who filled out registration cards during the IFC fall rushing program.

Kinney Appointed

Patrick Kinney was appointed junior secretary in the Fraternity Affairs Office. Also appointed to the office were Harry Dangerfield, David Morrow, George Maier and William Kerns.

The fraternity representatives were asked to indicate whether or not their houses would be willing to provide 1) room, or 2) room and board for a Hungarian student, should students be brought to the campus under a scholarship plan.

Fish Killing--

(Continued from page one)

nanced by appropriations from the state's general fund, while the Fish Commission is financed from revenue obtained through license fees.

Gov. George M. Leader said there was a possibility that some sort of settlement could be sought from the U.S. Navy.

Leader Sees Agreement

"I have complete confidence that the problem can be worked out without carrying it to the Legislature," the governor told his news conference.

Leader responded to a question as to whether he would ask the General Assembly to pass a special appropriation to reimburse the fish fund for the loss of fish life.

Leader said William Voight Jr., executive director of the Fish Commission, will meet with University officials soon to work out what he termed "some sort of settlement."

Science Fiction Society To Hear Naval Officer

The Science Fiction Society will meet at 7 tonight in 214 Hetzel Union.

Lt. Cmdr. L. J. Kiernan of the Naval Reserve Officers Training Corp Department will discuss "The Future of the Submarine." A discussion of the spring semester activities of the society will also be held. The meeting is open to the public.

sides, maybe help is coming from other sources.
2. We gave you a bum steer about the good photography in the Penn State Engineer. We meant to say these excellent photos were going to be in next month's issue. We certainly were not referring to this month's photography in terms such as, "best we've seen around here in a long time." No, not this month.

Primrose to Appear In Schwab Tonight

William Primrose, viola virtuoso, will present a program ranging from contemporary music to 18th century sonatas at 8:30 tonight in Schwab Auditorium.

The concert is the third of the 1956-57 State College Concert Series.

Primrose will open his program with "Sonata in B-Flat"

by Vivaldi. The sonata, originally written in the 18th century, was recently edited by the contemporary Italian composer Luigi Dallapiccola.

Brahms Sonata Included

Primrose's second number will be "Brahms' Sonata in F Minor, Opus 120, No. 1." The sonata consists of four movements: allegro, andante, allegretto and vivace. The allegro is written in melancholy canonic form. The two middle movements are short and characteristically Viennese. The finale, in Rondo form, consists of whimsical, comedy themes.

To Play Sonata

Following intermission, Primrose will play "Sonata" by Milhaud, a contemporary French composer. The four parts of the sonata—entree, francaise, air, and final—embody the graces and piquancy of several ancient airs.

"Nocturne and Scherzo" by Borodin, and "Bachianas Brasileiras No. 5" by Villa-Lobos will follow. Both pieces were arranged by Primrose. The "Bachianas Brasileiras" is an application by a modern composer of Bach's contrapuntal techniques to Brazilian folklore.

Comments on Rivier

The program will be concluded with Rivier's "Concertino." Mr. Primrose contends that no more typically French work exists in music than this charming Concertino.

Primrose will be accompanied by David Stimer, pianist.

Spanish Club to Hear Discussion on Politics

El Circulo Espanol, the Spanish Club, will meet at 7:30 tonight in Simmons study lounge.

Nicholas Brentin, assistant professor of Romance languages, and Eduardo Fernandez, graduate student from Madrid, will discuss politics in Spain.

Ceramics Firm Offers 2 Grants

The Vesuvius Crucible Co., of Swissvale, has established two \$500 scholarships in ceramics to begin the fall semester next year.

Known as the Vesuvius Crucible Company Scholarships in Ceramic Technology, the awards are designed to encourage men of ability to enter the field of ceramics.

They will be awarded to entering freshmen and will be renewed for each of their four years if the students continue to do satisfactory work.

Worthy students from the immediate vicinity of the Vesuvius Crucible Company plant will have preference in the selection of recipients for the awards.

Students will be selected on the basis of record, character, and need, by the College of Mineral Industries Scholarship Committee upon the recommendation of the Department of Ceramic Technology.

The first Student-Faculty Directory of the University, now an official University publication, was published in 1908.
