

Center Expansion Viewed As Investment in Future

President Eric A. Walker said Saturday that the expansion of the Altoona Center is an investment in the future of that city.

Dr. Walker spoke at the groundbreaking ceremony for a \$555,000 building on the Ivyside campus. Citizens of the Altoona area raised \$405,000 of the amount while the University provided \$150,000.

Farce Set For Stage In Old Main

"John, Tyb, and Sir John" by John Heywood will be presented at 7:30 p.m. Thursday in the Little Theatre in Old Main.

Written in 1525, the pre-Shakespearean one-act farce was originally titled "A Merry Right Tale of Johan-Johan the husband, Tyb the wife, and Sir Johan the priest."

First performed by the choir boys of St. Paul's Cathedral in London, the play was written for the popular "rather down to earth" audiences of the 16th century, rather than for literary values.

Play is Term Project

The play is being presented as a term project for English Literature 480 by George Cavey, graduate student in theatre arts from Springfield, director; Richard Higgins, graduate student in theatre arts from Pebble Beach, Calif., set designer; and Delmar Hendricks, graduate student in theatre arts from Reasnor, Iowa, costume designer.

Cast members are Theodore Pauloski, freshman in horticulture from Sharon, as John-John; Joyce Andruzak, senior in arts and letters from Sinking Springs, as Tyb; and William Warthling, junior in arts and letters from Honesdale, as Sir John.

The original verse form, except those words unfamiliar to today's audiences, has been retained and the costumes and sets have been designed in the spirit of the 16th century.

The play is open to the public.

Faculty to Hear UNIVAC Talk

Dr. John Mauchley, head of UNIVAC Applications Research Division, Sperry Rand Corp., will speak on "Weather and Election Forecasting" at 7 tonight in 316 Sparks.

The lecture is one of a series planned to help acquaint faculty and staff members at the University with possible uses of the new computer, Pennstac.

Dr. Mauchley, working with an associate, helped to design and build ENIAC (Electronic Numeric Integrator and Calculator), which was the forerunner of UNIVAC. Dr. Mauchley was responsible for preparing the routines for the election forecasting done by UNIVAC during the past two national presidential campaigns.

Council May Help Hungarian Students

The Chemistry and Physics Student Council will discuss appropriation of money for the Hungarian students coming to the University at 7 tonight in 209 Hetzel Union.

The money would be used to help defray the living expenses of the students.

Committee chairmen for the forthcoming Chemistry and Physics open house will also be appointed.

Class Gift--

(Continued from page one) hospital. This was picked over four other suggestions which included: additions to the Fred Lewis Pattee Library book collection, a recreation cabin for the Beaver Dam project, a woman's recreation area for east campus, furnishings for the Helen Eakin Eisenhower Memorial Chapel and additions to the University Art collection.

By 1970, Dr. Walker said, twice as many young men and women will be seeking admission to our colleges as were admitted this past year. This will mean large expansions in physical plants, increased facilities and increased salaries for faculty members, he explained.

Colleges to Bear Duty
This growing demand for admission to our colleges will provide the American system of higher education with perhaps the greatest challenge it has ever faced, Dr. Walker said.

"Much of the responsibility for meeting this challenge will have to be borne by the community colleges," Dr. Walker continued, explaining that long-range plans of the privately endowed colleges and universities show they do not plan to increase their enrollments significantly.

The University president emphasized that land-grant and state-supported universities cannot meet these demands solely through on-campus, resident instruction.

Opportunity to Be Welcomed
"We shall have to have increasingly more help from the community colleges," he continued, and said that within the next few years community schools may have to accept almost full responsibility for the first two years of college training, permitting the central campuses to concentrate upon the upper-division and graduate work that requires more elaborate and expensive laboratories and equipment.

"Forward-looking communities will welcome this challenge as an opportunity because the economic, social, and cultural health of the community is going to depend increasingly upon the local supply of highly educated, professional people," Dr. Walker said.

Brainpower in Demand
Pointing out that today the critical need of business and industry is not transportation or raw materials, but brainpower, Dr. Walker believes that business and industry are going to be drawn more and more to those cities and communities that have the best chance of providing a continuing supply of brainpower. "This development, therefore, is a significant investment—an investment that will pay tremendous dividends in the future of Altoona youth, of the Altoona economy, of every facet of the life in the Altoona area," he said.

DuPont Offers Assistantships To University

The University will receive grants in the fields of chemistry and mechanical engineering next year from the Du Pont Company.

These grants are part of an increased program totalling \$1 million that have been made by the company to 122 universities and colleges.

Grants to be received the next academic year represent an increase of more than \$100,000 over those for the current year.

Grants to the University include: An assistantship in chemistry, providing \$2400 for an unmarried assistant or \$3000 for a married assistant, plus an award of \$500 to the University and payment of tuition and fees.

A summer research grant of \$1500 will be given to provide a younger staff member of the Department of Chemistry an opportunity to advance his own scientific development of engaging in research work or other appropriate activity. The staff member selected will receive an amount equal to two months of his regular salary and the balance will support his program.

A post-graduate fellowship in mechanical engineering, providing \$1500 for the student, except for first-year students, who receive \$1200. An additional allowance of \$600 is made for married students. In addition, tuition and educational fees are paid and a contribution of \$1200 is made to the University.

Students to Play Six Final Scenes

Final scenes from several Broadway plays and television programs will be presented by students from Theatre Arts I classes at 3:15 p.m. tomorrow on the stage of Schwab Auditorium.

The scenes, which will be presented in arena style, are taken from "Box and Cox," "Streetcar Named Desire," "Our Hearts Were Young and Gay," "Outward Bound," "The Mother" and "The Rainmaker."

The public may attend.

Panhel Council to Probe Change in Voting Setup

Proposed revisions of the Panhellenic Council election system will be discussed at 6:30 tonight by the council.

Because of scheduling difficulties, the meeting will be held in the initiation room of Simmons Hall rather than in the Hetzel Union Building.

Buildings Unearthed

JERUSALEM, Israeli Sector, Jan. 7 (AP)—A Hebrew University expedition has unearthed buildings dating from the bronze or stone age on Tiran Island in the Gulf of Aqaba at the north end of the Red Sea.

Rink Offers Lessons By Figure Skater

The services of Mrs. Marilyn Tammen, outstanding figure skater, have been obtained for instructions at the University ice skating rink.

Mrs. Tammer came to the University recently when her husband, James, was appointed professor of plant pathology.

Mrs. Tammen is a former national junior pair champion and in 1947 was named Northern California and later California pair champion. She was choreographer for several ice skating shows in Sacramento, Calif., and served as instructor for members of her club.

Performed at Pop Concerts

Mrs. Tammen also performed with a skating group at pop concerts with the San Francisco Symphony Orchestra where skaters performed the same routines that ballet dancers were doing on an adjoining stage. They presented Swan Lake, Oklahoma, Nut Cracker Suite and other numbers.

Lessons may be taken in groups or privately. Regular hours will be from 3:30 to 5 p.m. on Monday, Wednesday and Friday; and from 9 to 11:30 a.m. and 1 to 5 p.m. on Saturday. Lessons from 7 to 10 p.m. may be arranged upon request.

Rink to Be Roped Off

A portion of the rink will be roped off for the instructions. University fees for the lessons

are \$1.50 for a half hour in groups and \$3.50 for half-hour private lessons.

Arrangements for the instructions may be made by calling Mrs. Tammen, mornings or evenings, at ADams 7-4802.

500 Attend Dance Held by Leonides

Approximately 500 students attended the Leonides sponsored Porky Chedwick old-fashioned record hop on Sunday afternoon in the Hetzel Union ballroom.

Chedwick, Pittsburgh disc jockey from radio station WAMO, acted as master of ceremonies for the dance, played records, and introduced the entertainers.

Chedwick brought two entertainment groups with him. They were the Premiers from Pittsburgh, and the Five Veils from McKeesport.

The Continentals, a campus group sang.

HEATED CAR Space Rentals. Opposite campus. \$10.00 per month. Call AD 8-5553 between 8 a.m. and 5 p.m.

ONE-HALF DOUBLE Room. Student. 401 Keller St. Call AD 8-5526.

SINGLE ROOM close to campus. Available for spring semester. Call AD 7-4050.

ROOMS FOR Rent for male students in private home, 512 W. College. Call AD 8-5464.

FOR RENT

RESERVE YOUR room for spring semester now. Near campus 1 1/2 blocks—clean, comfortable. \$6.00. 519 West College.

LOST

PERSON WHO took topcoat on Edward's bus in Pittsburgh, Dec. 21 please contact Jerry AD 8-6427. I have yours.

K&E SLIDE RULE—near Rec Hall bowling alleys. Reward. Please return to John Stohler, 215 McKee ext. 965.

FOUND

TWO GIRL'S Sweaters and a man's tie and belt set. Pay for ad and call Lee. AD 8-8939.

HELP WANTED

GRADUATE COUPLE to manage boarding and rooming club in exchange for room and board. Write P.O. Box 142, State College, Pa.

STUDENTS TO work in boarding club in exchange for meals. Call at 317 E. Beaver Ave. and ask for Mrs. Elleard.

MISCELLANEOUS

FOR YOUR Parties: birthday cakes and coffee cakes, party cookies, canapés, and other sandwiches, fruit-punches. Frida Stern, 122 E. Irvin Ave. Phone AD 7-4818.

GRADUATING SENIORS, before you leave campus, remember to join the Penn State Alumni Association. Special senior membership fee, only \$2.00. Come to Alumni Office, 104 Old Main.

FOR PROMPT and expert radio and phonograph service stop at State College T.V. 222 South Allen Street.

IS YOUR typewriter giving you trouble? If so, call AD 7-2492 or bring machine to 623 W. College Ave.

It's your electric service. Low-price electricity is as near as the switch or outlet on your wall. And it's ever-ready and plentiful. There's more than enough for every use in every home: cooking, washing, cleaning, entertaining. What's more, electricity is the one item in your budget that's an even bigger bargain today than it used to be. If yours is the average home, you're getting about twice as much electricity for your dollar as you could 15 or 20 years ago. Can you say that about anything else you buy?
