

IBM Decreases Time For Rushing Workers

Work which once required 20 hours of manual labor in the Panhellenic post office is now completed in 20 minutes by the IBM machine which is being used this year for the first time in sorority rushing.

"There's just no comparison between the machine and

State Hires 2 Ed Profs As Advisers

Two education professors were included in a list of educational consultants hired for short-term duty at high pay by the State Department of Public Instruction.

They are Dr. Charles M. Long, head of the Department of Education, and Dr. Franklin Miller, chairman of the committee on public school administration.

Pay is \$50-a-Day

The list, taken from the Auditor General's payroll vouchers, named the two University professors as \$50-a-day consultants to the department last year.

The two were included in a pool of 50 educators, many from out of state, revealed by legislators preliminary to possible investigation of such hiring practices at the state Capitol.

Nothing Illegal Involved

The Associated Press reported yesterday that there was "no indication" the consultants were engaged in anything illegal or unethical—the disclosure was simply a part of the Legislature's budget investigations in Harrisburg.

The 50 educators were hired at rates ranging from \$30 to \$100 a day, the Auditor General's vouchers showed. Most rates were \$50 a day.

McKinley Gets Advisory Post

David H. McKinley, assistant dean of the College of Business Administration, has been elected to serve a 3-year term on the Educational Advisory Council of the National Association of Manufacturers.

The 31-man council, chaired by Dean Virgil Rogers of the School of Education at Syracuse University, is composed of representatives of all areas and levels of public and private education in the United States.

McKinley represents teaching at the higher education level.

The council reviews and passes on all published materials sent out by the National Association of Manufacturers to the public school systems of the nation. It also reviews the educational objectives of the National Association of Manufacturers and explores the ways by which teachers and administrators in education can further assist in the development of the Association's program.

Leonides to Give Tea

A housemothers tea, sponsored by Leonides, will be given in honor of all the campus hostesses at 7 tonight in Simmons lounge. Refreshments will be served and entertainment will be presented.

our old way of handling invitations during rushing," Mrs. R. Mae Shultz, assistant to the dean of women, said.

Formerly, all sorting of invitations, acceptances and regrets was done by sorority alumnae living in town. The women began early in the morning and frequently worked 12 hours at a time, Mrs. Shultz said. At the beginning of the rushing period each rushee and each sorority was given a large envelope. Before each event the workers had to sort invitations for all women and acceptances for every sorority.

Machine Located in Old Main

Now the only job of the post office worker is to take invitations as they are brought in by the sororities and feed them into the machine. The machine, which is housed in the basement of Old Main, then alphabetizes and sorts the cards for each rushee.

After the rushees have returned the invitations marked either "accept" or "decline," the machine reverses the process and sorts the cards for each sorority. Seven thousand cards can be processed in this way in 20 minutes.

One Mistake in 35,000

Cards have been handled thus far for three rushing functions—two rounds of chatter dates and last night's parties. Of the 35,000 cards sorted, only one has been mis-handled.

The big test for the machine will come on Thursday afternoon when final lists of ribbonees for sororities will be made.

"We've never used the machine before, so we aren't too sure how it can do on matching preferential lists," Mrs. Shultz said.

Preferential Lists to be Filled

Before the final list can be compiled, both sororities and rushees must fill out a preferential list. Rushees will give their first and their second choices. Sororities will list in order of preference the women they would like to pledge.

According to Mrs. Shultz, the machine can definitely perform the preliminary steps to matching the lists. How much more it can do is still unknown. What the machine can't do will be finished by the staff of the dean of women's office.

Time and Energy Saved

"At any rate, we're certainly saving time and energy," Mrs. Shultz said. "We're also avoiding mistakes which are humanly impossible to catch. And we know that an error on our part isn't making a rushee unhappy."

WDFM to Present Mook Interview

A taped interview with Dr. Maurice Mook, professor of anthropology, will be presented at 8 tonight on the program "Face to Face" over WDFM.

Helen Slotta, moderator of the program, and Dr. Mook will discuss the difference between the music of the Broadway play on Amish life, "Plain and Fancy," and true Amish music. Dr. Mook will also comment on Amish customs, home life and social life.

Employment Interviews

The following firms will conduct interviews for June and August graduates in the Placement Service Office in 112 Old Main:

March 4:
Colgate Palmolive: BS: IE.
Federal Telecommunication Labs: BS, MS: EE.
Federal Telephone & Radio: BS: ME, EE, Phys.

Hamilton Watch: BS: ME, EE, Phys, IE, Acctg, Met.
H. J. Heinz: BS: ME, IE, ChE, EE, Chem, Phys: PHD: A&B Chem: JRS: Eng fields above for summer employment.

Northwestern Mutual Life Ins. Co: BS: Bus, LA, AgrEc, BusPsych, for selling.
Pittsburgh-De Moines Steel Co: BS, MS: CE, ME, EE, ArchE.

Pittsburgh Plate Glass Co: BS: MS: ChE, CE, EE, IE, ME, Chem, Phys, Cer, Acctg: JRS: Above fields for summer employment.

March 5:
Joseph Horne Co: BS: LA, Bus Adm, H.Ec.

Glenn L. Martin Co: BS, MS: AeroE, ArchE, ChE, CE, EE, EngSci, ME, Met: Also JRS in above fields for summer employment.

RCA Corp: BS, MS: EE, ME, Phys, EngSci: JRS: above fields for summer employment.

RCA Labs: BS, MS: EE, ME, Phys: BS, MS: in above fields for summer employment.

Square D Co: BS: ME, IE, EE: MS: EF: Union Bag-Camp Paer Corp: BS, MS: ChE, ME, IE, MetE, EE, For.

American Cyanamid: BS, MS: Chem, ChE: JRS: in above fields for summer employment.

Budd Co: BS: CE: MS, MS: Acctg, AeroE, ChE, Chem, EE, EngSci, IE, ME, Met, Phys: JRS: Aero, CE, EE, ME, EngSci, Phys, Chem for summer employment.

March 6:
Union Bag-Camp Paer Corp: BS, MS: ChE, ME, IE, MetE, EE, For.

American Cyanamid: BS, MS: Chem, ChE: JRS: in above fields for summer employment.

Budd Co: BS: CE: MS, MS: Acctg, AeroE, ChE, Chem, EE, EngSci, IE, ME, Met, Phys: JRS: Aero, CE, EE, ME, EngSci, Phys, Chem for summer employment.

Camps, Resorts Offer Students Summer Jobs

Summer work is available in 94 camps and 32 resorts at the summer camp and resort employment bureau of the Student Placement Service.

Students interested in summer work should visit the Student Employment Office, 112 Old Main.

Eleven camps and one resort will have representatives on campus during the next two months to conduct interviews. Students wishing to schedule interviews should register in advance.

Camp jobs are available in Connecticut, Florida, Iowa, Ohio, West Virginia, Indiana, Maine, Maryland, Massachusetts, Rhode Island, Colorado, Wisconsin, Michigan, New Jersey, New York, Pennsylvania and Virginia.

Resort work is available in Pennsylvania, New York, New Jersey, Maine, Connecticut, Wyoming, Kentucky and Wisconsin.

In the service office, material is available concerning various camps and resorts along with the names of students previously employed at these places. These students may be contacted for information such as working or social conditions of the camps or resorts.

• Approximately 450 University alumni are employed by E. I. DuPont.

Roudiez Analyzes Rousseau's Work

Dr. Leon S. Roudiez, associate professor of Romance languages, said Sunday night that Rousseau, while an important figure in our heritage of freedom, must not be examined too closely in reference to the American system of government.

In a speech in the Hillel auditorium, he analyzed

Rousseau's "The Social Contract" in the second program in a series, "The Structure of Freedom."

Dr. Roudiez said that Rousseau's concept of the "general will" can have no practical meaning in a two-party system or even a multi-party system of government.

Men Must Choose

For to have the "general will," men, all men, must make their choices free of all influences and pressure groups. Parties are, of course, pressure groups, so Dr. Roudiez explained, and they could not be condoned in Rousseau's "pure" democracy or society.

Dr. Roudiez said that Rousseau is often misinterpreted. Many seem to think that he had an idealistic faith in the goodness of man, and in the morality of man.

Two Misinterpretations

But Dr. Roudiez held that this

is in error, for Rousseau believed that man was neither good nor bad, moral nor immoral. Dr. Roudiez described it as a sort of "amorality."

Another common misinterpretation, Dr. Roudiez said, is that Rousseau would have rejected society. But he points out that Rousseau would not reject society as a whole, only at a given time, that is, if it had not set itself up according to the "general will."

Not a Revolutionary

Dr. Roudiez emphasized that Rousseau did not intend his philosophy to be restricted to democracy, for it applies to all forms of government. For it is more a treatise on society than on politics or government, meant only as an introduction to his "Of Po-
