

Graduates Must Pay For Thesis Bindings

Graduate students expecting to receive an advance degree in June must pay for the binding and microfilming of their theses by noon March 2 at the bursar's office.

Students applying for graduation after the deadline will be asked to reapply for the next graduation.

Graduate students expecting to receive a doctorate are

required to pay a fee of \$42.50 which covers the cost of micro-filming, printing abstracts and binding three copies of the thesis. Master degree candidates are required to pay \$7.50 which covers the costs of binding the three official thesis copies.

Previously these fees were payable at the library during the month before graduation.

Students who pay thesis fees but are unable to complete their work in time for graduation will be asked to fill out another diploma card, but may retain their old fee receipt for use during the following semester or session.

Students who abandon plans for graduation may have their thesis fee refunded upon recom-

previously ineligible to rush because of their averages. It also gave students on campus who rushed previously and who had not joined a fraternity a chance to look at other houses.

Two open houses were sponsored during the fall semester. The third open house in the spring semester was an innovation.

• The Nittany Lion has been used as an emblem of the University teams since 1907. It was sculptured to resemble the cougar that formerly roamed this area.

ONE SINGLE room \$5 per week; one large single room \$6 per week. Available immediately. Call AD 8-9195.

ONE LARGE single comfortable quiet room. Immediate occupation at 340 E. Prospect. Call AD 7-7452.

LOST

EYE GLASSES Wednesday. Leather case, cloth inside, name Dr. Alexander. Phone Walt ext 295. Reward.

SHEAFFER SNORKEL—black, 212 Sparks. Reward. Call ext. 962. Lost Monday.

KDR FRATERNITY Pin between HUB and Schwab. Initials D.L.S. on back. Call Dick Muller AD 7-2337.

HAND KNIT red scarf with white stripes at Skating Rink lounge on Monday Feb. 11. Reward. Call Jim AD 7-2228.

WANTED

WANTED: GUITAR teacher for young boy. Call Mrs. Howell AD 8-6462.

CAMP COUNSELORS—Men. Long established Penna. camp. Experienced golf, tennis, basketball, dramatic. Excellent opportunities. W. Kaplan, 1909 Spruce St., Phila. 3, Pa.

CAMP COUNSELORS—Women. Outstanding Penna. co-ed camp. Experience only. Sports, pioneering, dramatics. Excellent facilities. Good salaries. Camp Saginaw, 1909 Spruce St., Phila. 3, Pa.

FOR HIRE

"THE PAUL SERRINS Quartet" Fox-Trot Latins. Special afternoon rates. Still available March 2 and 9. After 5 p.m. call AD 8-8370.

"THE PAUL SERRINS QUARTET" Fox-Trot Latins. Special afternoon rates. Still available March 8 & 16 after 5 p.m. Call AD 8-8370.

MISCELLANEOUS

CAMP RONDACK interviewing for women counsellors Sat. Feb. 23. Interested students apply Student Employment Service, Room 112 Old Main. Positions available in all fields.

FOR PROMPT and expert radio and phonograph service stop at State College TV 232 South Allen Street.

IS YOUR typewriter giving you trouble? If so call AD 7-2492 or bring machine to 633 W. College Ave.

Town House License Lifted

The State Liquor Control Board has placed a 10-day license suspension on the Town House for making sales to minors.

The date for the suspension has not yet been announced.

The action followed a case in which Patrick W. Dowling, freshman in electrical engineering from Kingston, a minor, was fined for purchasing beer there.

The employee of the Town House who sold him the beer was also fined. He is Hale O. Lichtenwalner, senior in business administration from Tatamy.

Justice of the Peace Guy G. Mills said State College police called in the State Liquor Control Board after they had arrested Dowling.

Dowling was arrested on the street by police after he had purchased the beer.

Group to Examine Closed Circuit TV

A group of seven Air Force officers and civilians will make a three-day visit to the campus to study the University's closed-circuit television system.

The group will obtain information on experience in the use of such equipment for training purposes.

Colonel Daniel F. Riva, professor of air science, is project officer for the visit.

Thaden Will Address AUSA on 'New Look'

The bi-monthly meeting of the First Student Company, Association of the United States Army, will be held at 7:30 p.m. Tuesday in 1 and 2 Carnegie.

Dr. Edward C. Thaden, assistant professor of history, will speak on the effect of the "new look" in Russia's military program.

Oliver Says---

nese Conference in 1951.

Dr. Oliver has written four books on Korea, two of them having been on the New York Times list of best non-fiction books. These two books were "Why War Came in Korea," written in 1950, and "Syngman Rhee," a biography written in 1954.

Another of his books, "Speech for Democratic Living," is being translated into Korean and will be used for the teaching of speech in South Korean schools.

Several of his books have been translated into Indian, Pakistanese, Chinese, Korean and Japanese.

Dr. Oliver has recently been asked by the State Department to go to Australia to help organize speech instruction programs in that country.

What's doing... at Pratt & Whitney Aircraft

New "high-road" to JET ENGINE FRONTIER in Florida

Heralding important things to come, work was begun in late summer, 1956, on a wide access road in a remote section of Palm Beach County, Florida. At the end of that road, situated northwest of West Palm Beach, a 500,000-square-foot plant destined to be the newest addition to Pratt & Whitney Aircraft engineering facilities is already well under construction.

Here, engineers and scientists will soon be hard at work dealing with new and increasingly complex problems relating to advanced jet aircraft engines. Working in close coordination with men at other P & W A establishments — particularly the company's multi-million-dollar Andrew Willgoos Turbine Laboratory in Connecticut —

this newest section of the Pratt & Whitney Aircraft team will face a challenging assignment. They, too, will be concerned with design, testing and development of highly advanced, extremely powerful jet engines which will join a family already including J-57 and J-75 turbojets, currently playing important roles in the growing military and commercial air power of the United States.

The engineering graduate who begins his career at this Florida facility will have the rare opportunity of keeping pace with its anticipated growth. In an organization renowned for development engineering superiority, he will gain invaluable experience working on vital, long-range projects that are a challenge to the imagination.

World's foremost designer and builder of aircraft engines
