

# Israeli Troops To Withdraw

JERUSALEM, March 4 (AP)—Prime Minister David Ben-Gurion ended debate today and ordered Israeli troops to get out of Gaza and Aqaba coastal strips.

The grizzled Prime Minister's action, before he had informed Parliament, set off a clash between police and demonstrators — mostly students — who angrily shouted, "Stop the withdrawal."

# Government Halts Beck Labor Trip

WASHINGTON, March 4 (AP)—The government tonight cancelled plans for Dave Beck, president of the Teamsters Union under Senate investigation, to serve as a delegate to a world labor conference in Europe next week.

Secretary of Labor Mitchell said Beck was using the planned assignment as a reason for delayed return to this country for testimony before the Senate committee investigating alleged labor-industry racketeering.

"Therefore, I have decided not to nominate Mr. Beck as a member of the U.S. delegation to the Hamburg conference," Mitchell's statement said. He said he will ask AFL-CIO President George Meany to designate someone else as a worker delegate.

Beck had been designated by Meany in early January, before current Senate racket investigations began, to be a labor delegate.

The meeting, opening Monday in Hamburg, Germany, is of the transportation committee of the International Labor Organization.

Mitchell said in a statement that Beck, invited to testify before the Senate committee probing alleged racketeering in labor and industry, had so far failed to show up.

The matter of Beck serving as a designated government delegate for American labor abroad was reported to have been discussed earlier in the day by Mitchell in a Capitol Hill conference with Chairman McClellan (D.-Ark.) of a special Senate Rackets Investigating Committee.

# Weather Posts Get Odd Waves

TOKYO, March 4 (AP) — Two Japanese weather posts today picked up abnormal air pressure waves "strong enough to indicate a nuclear explosion," the Central Meteorological Board reported.

A spokesman said he could not tell the cause or location of the origin of the waves.

Britain has declared a wide danger area around Christmas Island in the South Pacific for nuclear tests between March 1 and August 1 but there has been no indication the British tests have started.

Seventeen other weather posts had no abnormal readings.

# Rebel Movement Retains Control Over Indonesia

JAKARTA, Indonesia, March 4 (AP)—Rebel leaders today still ruled in East Indonesia and much of Sumatra, but President Achmed Sukarno ignored them publicly.

Sukarno was busy pushing for his plan for a "guided democracy" to replace the Western-style parliamentary system, he blames for most of Indonesia's political and economic ills. He wants a new Cabinet with all parties including the Communists represented, plus the creation of an "advisory council" headed by himself with final authority over both Cabinet and Parliament.

The East Indonesia rebels Saturday proclaimed their control over the Celebes, the Moluccas, the Lesser Sundas, and others of the Spice Islands. Lt. Col. Ventje Sumual, leader of the revolt, today ordered all government departments in the islands, where he claims control, to sever their ties with the central government in Jakarta.

Sumual clamped an 8 p.m. to 5 a.m. curfew on the islands, threatening that anyone caught breaking it might be shot. He also announced he was freezing money to avert an economic crisis during the "transitional period" and said he was regulating exports of rice, coffee, and oil.

# Judiciary Committee OK's Brennan As Court Judge

WASHINGTON, March 4 (AP)—William J. Brennan, New Jersey Democrat chosen by President Eisenhower for the Supreme Court, won unanimous approval from the Senate Judiciary Committee today.

Chairman Eastland (D-Miss.) said the nomination was approved 11-0 with the following senators present:

Eastland, Kefauver (D-Tenn.), McClellan (D-Ark.), O'Mahoney (D-Wyo.), Ervin (D-N.C.), Wiley (R-Wis.), Jenner (R-Ind.), Watkins (R-Utah), Dirksen (R-Ill.), Butler (R-Md.) and Hruska (R-Neb.).

### Appointed in Fall

Eisenhower appointed Brennan to the court last Sept. 29, succeeding Justice Sherman Minton, retired, and he was sworn in Oct. 16. Congress was not in session then, and he is now going through the Senate confirmation process.

Eastland also announced that the committee will hold public hearings March 18 on Eisenhower's newest nominee to the court, Charles Evans Whittaker, Republican, of Kansas City. The President appointed Whittaker Saturday to take the seat left by the retirement of Justice Stanley Reed.

### Gray Approved

The Senate Banking Committee today approved the nomination of Gordon Gray, North Carolina educator and publisher, to be director of the Office of Defense Mobilization.

Gray, a Democrat, has filled a number of positions under both the Truman and Eisenhower administrations, most recently that of assistant secretary of defense for international security matters.

### MIT Students Riot

CAMBRIDGE, Mass., March 4 (AP)—Thirty Massachusetts Institute of Technology students and one student from Yale today faced court action in connection with a riot on the MIT campus early yesterday.

In addition, 26 of the 30 students face expulsion from the highly rated technological school.

### Dayan, Burns Confer

Under Ben-Gurion's orders, Maj. Gen. Moshe Dayan, Israeli army chief of staff, flew to Lydda Airport in central Israel and held a 70-minute conference with Maj. Gen. E. L. M. Burns, commander of the UN Emergency Force.

Burns announced agreement on plans for the Israelis to pull out of the territories and for UN forces to move in, but gave no details.

The evacuation may start this week.

### Pressure From U.S.

Under pressure from the United States and the United Nations, Ben-Gurion issued his order at mid-day on the 126th day after Israel's armored columns and parachutists started their blitz attack into Egypt's Sinai Peninsula.

From all outward appearances he decided to impose his will on some balking Cabinet ministers and present the Knesset with an accomplished fact when it meets tomorrow.

### Rounds of Conferences

His decision was reached in the midst of an exhausting round of conferences with party and government leaders and frequent telephone calls to the United States.

Ben-Gurion ordered the withdrawal to proceed even before he reported to the Knesset or held a "final" meeting with his Cabinet.

An official spokesman said the reason for the go-ahead was that "latest clarifications" of the American position had been received from the United States, and that Ben-Gurion had been in talks with most Cabinet members.

Ben-Gurion will report to the Knesset tomorrow instead of tonight as previously scheduled. Ben-Gurion was said to be near exhaustion.

# Stassen Lacks Support For Governor Candidacy

DOWNINGTOWN, Pa. (AP) — The possible candidacy of Harold E. Stassen for governor of Pennsylvania has found little sympathy among the state's Republican congressional delegation.

Rep. Paul Dague (R-Pa) said a petition against Stassen as a candidate for governor had been signed by most of the GOP congressmen from the Keystone State.
