

Cabinet to Air NSA Question Vote Expected

All-University Cabinet is expected to vote tonight on whether to retain its membership in the controversial National Student Association.

Cabinet will meet at 7 p.m. in 203 Hetzel Union and will hear a final report on the association presented by NSA Coordinator Lawrence McCabe.

Report Asks \$1240 'Pay' Next Year

All-University Cabinet will be asked tonight to appropriate \$1240 in compensations for student leaders for next year.

This amount—about \$500 less than was allotted last year—will be requested in a report of the Cabinet Committee on Compensations.

The report, which will be presented by Barbara Nichols, the committee chairman, said the group apportioned compensations on an 80-point scale.

Point System Used

It said they considered the time involved in the student's activity (20 points), the length of service (10), the financial responsibility involved (18), the responsibility of decision (20) and personal expenses incurred (12).

The report also recommended that each college student council compensate its president and that groups not now compensating their officers study the possibilities of doing so.

According to the report, the University Senate has approved a report asking a thorough analysis of compensation practices. Compensations will remain in effect at least until March 1, 1958, by which time the Senate study is expected to have been completed.

To Hear Progress Report

Cabinet tonight will also hear a progress report on 42 of the 90 recommendations from last fall's Student Encampment.

The progress report covers some recommendations on student government; academic policies; social, cultural and recreational activities; counseling; communications and the University Health Service and the University's future.

Bypass Planned On Route 322

The U.S. Bureau of Public Roads authorized the State Highways Department to go ahead with plans for a 5 million dollar bypass on Rt. 322 near Lewistown, according to the Associated Press.

A spokesman for the department said the state would present detailed construction plans to the bureau now that final approval has been received.

The six mile project starts in Derry Twp. just south of Lewistown and runs parallel to the present location of Rt. 322 into Lewistown. The road will be a limited access highway.

The department has not set a date yet for sending out bids.

Frosh to Conduct Bookstore Survey

The Freshman Class Advisory Board will conduct a survey to assist bookstores in ordering the proper number of textbooks to fill student needs.

The board feels the problem is that the bookstores do not receive adequate information on the numbers or names of books to be ordered.

Each of the nine colleges will be contacted by a member of the board to determine how the lists are compiled, where they are distributed and how the necessary quantity is determined.

The vote will climax weeks of debate both inside and outside of Cabinet on the perennial issue of membership in the organization.

Cabinet last year voted to re-join NSA after a year of non-membership.

Although the final report does not include a recommendation, All-University President Robert Bahrenburg yesterday said he will entertain any affirmative motion on the subject.

At least one member of Cabinet has said he will present such a motion if no one else does so.

The final report, scheduled for presentation last week, was delayed until the arrival of complete reports of the national organization's work during the past year and of the national student congress.

Martini to Be Named

In other business tonight, Harry Martini, junior class president, will be appointed chairman of next fall's Student Encampment.

John Sopko, president of the sophomore class, will ask Cabinet to assume responsibility for distributing closed section lists during registration periods.

The recommendation, sponsored by the class advisory board, suggests that the lists be distributed through a special committee or a service organization.

A 5-member committee of the board distributed the lists during the registration for this semester. They were distributed three times to central residence hall locations, to all fraternities and at the Hetzel Union Building.

They had previously been given only to faculty members, who were to pass the information on to their advisees. The board suggested that the plan be announced earlier and more often than was done this semester.

Leadership Report

A final report will be given on last fall's Leadership Training Course. Of the 308 students who signed up for the course, 196 completed it. Ninety per cent of these were freshmen, according to the report.

The report asks continuation of the present policies for the course; possible examination "to eliminate knitters, letterwriters, etc.," earlier preparation of certificates of completion and stronger support of the course by residence and freshman counselors.

Philosophy Club to Meet

The Philosophy Club will meet at 7:30 tonight in 212 Hetzel Union.

Dr. Ernest G. Freund, professor of philosophy and head of the department, will speak on "Is Religion a Luxury in Modern Society?"

Women Will Be Surveyed On Proposed Honor Code

All coeds will soon be asked to participate in a survey to determine their attitude toward the feasibility of establishing an honor system for University women.

Other purposes of the questionnaire are to find coeds' opinion of social life at the University and their opinion of revising the present system of women's student government.

Marilyn Seltzer, chairman of the WSGA committee, last night presented a progress

report on the proposed honor system to the WSGA Senate.

She emphasized in her report that the drinking problem at the University would not be the sole concern of an honor code.

The code would cover all WSGA regulations, and would put women students on their honor to obey them.

Miss Seltzer said if an honor system is put into effect without sufficient preparation, the code might fail. Therefore, she said, coeds' opinions must be analyzed before the system can be set up.

The questionnaire is being prepared with the help of a member of the Counselor Education Department of the College of Education.

If the questionnaire shows that students favor an honor system, a report explaining the proposed system will be presented for approval to WSGA and the Senate Committee on Student Affairs.

Honor House Considered

The establishment of an honor house at the University is now under consideration. The residents of this house would be chosen from highly-recommended senior women.

Arrangements have been made for three members of the implementation committee to live for a weekend this semester at Biddle Honor House at Dickinson College in order to acquire practical experience with dormitory life under an honor system.

In her report, Miss Seltzer listed and explained several accomplishments of the WSGA committee.

Letter on Code

A letter concerning the proposed honor code has been composed. This will be mailed to women applicants for admission to the University, in the event that the honor code report is approved.

The committee has drawn up a pledge of responsibility to the honor code. If the code is passed, the pledge will be signed by all coeds.

Plans have been completed for a new system of government for women. This new system would be necessary under an honor code.

Penalties for dishonorable actions and infractions of rules have been revised for enforcement under the suggested code.

The feasibility of a revised student handbook for women is (Continued on page eight)

Physical Ed Group OK's Officer List

The Physical Education Student Council Tuesday night approved an election slate of officers for next year's council and set March 14 and 15 as election dates.

The nominees for president are David Watkins, Coopersburg; Charles Ruslavage, Coaldale; Carolyn Briggs, Catonsville, Md., and Patricia Barnitz, Venetia. All are juniors.

Robert Hoover, Philadelphia; Calvin Emery, Centre Hall; Carol Mason, Lemoyne, and Diane Kemp, Hanover, are the nominees for vice president. All are sophomores.

Secretary Nominations

Secretary nominations are William Odenkirk, Harrisburg; Robert Taft, State College; Anne Colclessor, Erie, and Marianna Moldovan, Farrell. All are sophomores.

Jack Michel, Ridgway; Bennie Adams, State College; Audrey Sassano, Pittsburgh and Joanne Bedenk, State College, are nominees for treasurer. All are juniors.

Any other student may enter his name on the ballot by presenting a petition signed by 15 students in the College of Physical Education and Recreation to Robert Hoover, 257 Hamilton Hall, by March 12.

2.3 Average Needed

However, to be eligible for president or treasurer a student must be a junior with a 2.3 All-University average and for vice president and secretary, a sophomore with a 2.3 All-University average.

The council also began making plans for a tennis clinic to be held sometime in May and discussed a possible scholarship in connection with a sporting goods company.

World War II Movie

"Attack in the Pacific," one of a series of World War II films, will be shown at 1 p.m. today in Schwab Auditorium.

The movie deals with the naval war in the Pacific.

Israeli Troops, Administrators Head Home From Gaza Strip

JERUSALEM, March 6 (AP)—Israeli troops and administrators headed home from the Gaza Strip tonight in a withdrawal operation due to be completed by 7 p.m. Thursday.

Others based on the Gulf of Aqaba coast loaded their equipment aboard ship at Sharm el Sheikh for a similar pullout.

The exodus came as Prime Minister David Ben-Gurion received overwhelming endorsement of his policy from Parliament. There was violence in Gaza.

Move Into Gaza Strip

UN Emergency Force troops moved into the Gaza Strip,

home to about 230,000 Arab refugees of the Palestine war of 1948 largely supported by the UN Works and Relief Agency.

The Israeli army announced "the administration of the Sharm el Sheikh area will be transferred to the UNEF by the Israeli defense forces on Friday, March 8," implying Israel would retain possession of that base on the gulf about 48 hours.

Withdraw Progresses Rapidly But UN sources in Cairo said the Israeli withdrawal from Sharm el Sheikh is progressing rapidly. Train stations in Cairo were crowded with Palestine Arabs seeking to return to Gaza.

The historic changeover in Gaza was started under cover

of darkness, with the Arab population forced to remain indoors under a rigid curfew after a flurry of disorders which left an Arab civilian and an Israeli soldier dead and two Israelis wounded.

UN Troops Stand Guard

The UN troops moved up from Sinai Peninsula positions through the frontier town of Rafa to take up vacated guard posts.

Abroad, the withdrawal led to hope for a speedup in the clearance of the Suez Canal, on which the Egyptians have evinced no hurry lately, and the promise of a start on repair of sabotaged pipeline pumping stations of the Iraq Petroleum Co., in Syria. This will be a help to oil-rationed Western Europe.

Town to Get New Report On Parking

A group of borough officials plan to travel to Pittsburgh sometime next week for a look into the State College parking situation.

In Pittsburgh they will consult with officials of the Don McNeil Engineering Company, which conducted a comprehensive survey of the borough's traffic and parking problems last Oct. 11.

No Results Made Public

Plans for the Pittsburgh meeting were revealed yesterday by Borough Manager Robert Y. Edwards. He said the conference was originally scheduled for yesterday, but had to be postponed for about a week.

No results of the survey have been made public, but Edwards said the borough is now studying maps sent to it from the engineering firm.

A list of persons who may make the trip to Pittsburgh includes Edwards; Marlin C. Mateer, chairman of the borough's parking authority, and Charles F. Lee-Decker, Borough Council president.

To Make Final Report

Edwards said the engineering firm will present a final report to the borough sometime after next week's meeting. McNeil, a former traffic manager of the City of Pittsburgh, has made similar surveys and developed parking solutions in towns and small cities throughout the state.

The survey last October was conducted with the aid of 165 high school senior volunteers. Every motor vehicle moving in and out of the downtown area was stopped to determine its destination and the length of time it would remain there.

Rain Forecast; Lion Replaced

Today's weather forecast calls for rain, which is expected to continue off and on throughout the day.

This weather report comes from the University weather station.

This report has not been influenced by the Nittany Lion.

The Lion seemingly has lost his knack for making weather forecasts with any degree of accuracy. The only excuse he has offered about the large margin of error is that it is caused by his state of mental confusion brought on by "the way certain questionable details from my private life have been so unmercifully publicized."

The temperature in Centre County should keep the precipitation to rain. High today is expected at between 35 and 40 degrees.

Scholarship Applications

Application forms for a \$150 Panhellenic scholarship to be awarded to a sorority woman may be obtained at the office of the Dean of Women in 105 Old Main.
