

# Cabinet Grants \$1515 in 'Pay' For Next Year

All-University Cabinet last night approved compensations—or scholarships—totaling \$1515 for student leaders next year.

Two changes were made in the list as presented, increasing the All-University president's compensation from \$350

# Prof Given UN Position In Europe

Dr. Jerome K. Pasto, associate professor of farm management, will leave March 31 for Rome to accept an assignment with the Food and Agriculture Organization of the United Nations.

He has been granted a leave of absence by the University which extends to June 30, 1958.

### To Visit Far East

After spending several weeks at the Food and Agriculture headquarters in Rome, Dr. Pasto will visit rice-producing countries in the Far East to observe their problems and gather information for setting up a farm management research program.

Dr. Pasto will be concerned primarily with the economics of rice production, especially with labor processes and other phases of farm management.

Dr. Pasto plans to return to Rome next June or July via this country and will be joined on the return trip by Mrs. Pasto and their two children.

### Cornell Graduate

Dr. Pasto is a graduate of Cornell University where he received his B.S. degree in agronomy and his M.S. and Ph.D. degrees in agriculture economics.

Prior to his appointment to the University faculty in 1951, he was a soil technologist with the U.S. Department of Agriculture and later an extension specialist in farm labor with Cornell.

# Firm Establishes Ceramics Grant

To encourage men of ability to enter the field of ceramics, the Precision Grinding Wheel Co. of Philadelphia, has established a \$250 scholarship at the University.

The scholarship will be awarded in the fall to a freshman enrolling in the ceramics curriculum. Selection will be made on the basis of his scholastic record, character and need, with preference given to students from the Philadelphia area.

If the scholarship is continued after the 1957-58 academic year by the company, it will be awarded to the same student provided he maintains a satisfactory record and conducts himself in accordance with the standards of the University.

# Hat Council to Improve Flash Cards

By ANNE RUTHRAUFF  
Hat Society Council is working on plans to improve the flash card system for the 1957 football season.

Improvements will include new flash cards, a different and better location in Beaver Field and work in coordination with cheers.

Sally Jervis, representative of Cwens, sophomore women's hat society, has been appointed chairman of the system.

Miss Jervis will select 5 members of this year's freshman class to serve as her committee. She will bring their names to the next meeting of the council for approval.

### Council to Recruit

The council hopes to recruit more than 509 students to participate in next year's program, and the activity will probably be open to all classes.

to \$400 and creating a \$15 compensation for the Spring Week publicity chairman.

The list was presented by Barbara Nichols as part of a report of the Cabinet Committee on Compensations.

### Asked By Richards

Cabinet amended the list to raise the All-University president's compensation to \$400—the present level—at the suggestion of All-University secretary-treasurer Leonard Richards.

Richards said he believed the president's compensation should not be cut because of the time, effort and sacrifices which are involved in the conduct of the office.

The Spring Week publicity chairman's compensation was added by Joseph Eberly, a member of the committee, by securing the approval of the other committee members.

### 18 Compensations Lowered

Of the compensations for the 37 positions which were listed for both this year and next year, 18 were reduced in amount and four were increased.

The committee added one new position to the compensations list—Campus Chest business manager—and dropped ten others—the nine college council presidents and the coffee hour chairman.

The committee's report said the council presidents were not included in the list because its jurisdiction is limited to positions delegated by Cabinet. But it urged each council to compensate its president with its own funds.

The compensations for 1957-8 and for 1956-7 are:

Office	\$57.8	\$57.8
All-U Pres.	\$400	\$400
All-U V. P.	75	100
All-U Sec.-Treas.	250	200

### 2 Sergeants Promoted

Two Military Science instructors have been promoted.

Sgt. James Freeman has been promoted to sergeant first class and Sgt. 1st Class Albert Youndt has been made master sergeant.

The University inaugurated the first formal college training in industrial engineering in 1908.

# 4 Nominated For Athletic Presidency

Four varsity athletes have been nominated for the presidency of the Athletic Association.

Elections will be held in conjunction with the election of the All-University officers and junior and senior class officers on March 19, 20 and 21.

Nominees are Joseph Sabol, junior in physical education from Shamokin and captain of the 1957 football team; Per Torgeson, junior in electrical engineering from Altoona and member of the soccer team.

### Further Nominees

John Johnston, junior in industrial arts from Clearfield and member of the wrestling team are Harry Brown, junior in business administration from Pittsburgh and member of the lacrosse team.

Dion Weissend, president of the association, said that the nominee for president who receives the second highest number of votes will serve as vice president.

### Secretarial Aspirants

Nominees for secretary include Earl Poust, wrestler and junior in agriculture education from Muncy, and Adie Stevens, junior in physical education from Pittsburgh and member of the gymnastic team.

Newly elected officers will take office immediately following the election.

# Work Continues On Local Pike

Three crews are now working on the surveying of Benner Pike between here and Bellefonte in the preliminary stages of widening the roadway to four lanes.

One crew is surveying the center line at present, while the other two crews are to map the topography and built-up areas along the way.

About three miles of the 9-mile project are already surveyed and the party is about to start its work near Rockview Penitentiary.

Later studies by the state will determine whether the proposed enlargement would follow the right-of-way of Rt. 545.

# Dismissals--

(Continued from page one) meet the graduation requirements.

● Avoid embarrassing situations where warning or probation did not precede drop action.

The possible effects of the proposed system were analyzed and compared to the number of actual drop actions of June 1956. Among second semester students, 265 were dropped and 403 would have been dropped under the new system; third and fourth semester students, 220 were dropped and 139 would have been dropped; fifth and sixth semester students, 98 were dropped and 102 would have been dropped; and seventh and eighth semester students, 37 were dropped and 82 would have been dropped.

# Local Airport Authority Completes Initial Survey

By DAVE FINEMAN

The State College Airport Authority has completed the first part of its survey, that of interviewing borough residents on a proposed county airport, and is well underway on polling borough businessmen.

Herbert R. Imbt, chairman of the five-man authority, said the final results of the poll will be made known at the next meeting of the authority on March 19.

The authority has also completed its investigation of seven likely sites for the airport, Imbt said, but the findings will not be made known until the national Civil Aeronautics Administration finishes its inquiries.

### Interest Expressed

The CAA has expressed interest in an airport for the county, and upon its recommendation, the federal government will foot half the bill under the provisions of the National Airport Plan.

The other half would be taken up by the state and the county together, or by the county alone. Imbt said the state has not shown much interest in the project, so the burden may rest on the county and the federal government.

The seven sites under consideration are the Black Moshannon Airport, the present State College Air Depot, a location at Pine Hall, one at Scotia, two near Boogersburg and one near Houserville.

### Sites Recommended

Black Moshannon Airport was recommended as a site by the Philipsburg Chamber of Commerce, while the other six were favored by the State College Area Chamber of Commerce.

Imbt said Black Moshannon is favored by some, for the reason that construction would not have to "start from scratch." But, he added, enlargement to 5000 feet, the longest extension possible on the present runway, is not enough for the large planes of today's airlines.

### Size a Factor

He said a practical airfield must run well over 5000 feet, so that locating at Black Moshannon would require just as much expense as any other place.

The airport authority was formed by Borough Council on Oct. 16 and since then has been working for the location of a county airport.

# Wrestling Tickets Remain On Sale

Tickets for all sessions of the Eastern Intercollegiate Wrestling Tournament, to be held March 15 and 16 in Recreation Hall, are still available.

According to Edward Czeka, ticket manager, reserved seat tickets as well as general admission tickets may be purchased.

Tickets are now on sale daily from 8 a.m. to noon and 1 to 4:30 p.m. at the ticket office, 249 Rec. Hall.

# New Faculty Members Appointed

Three new appointments have been made to the faculty.

Robert M. Knoebel, who resigned in 1955 to accept a position at the Pittsburg (Kan.) State Teachers College, will rejoin the faculty as associate professor of industrial education on April 15.

Two weeks after that, he will depart for Formosa where the department has been conducting a vocational training education program under a contract with the International Cooperation Administration. He had served there from 1953 to 1954.

### Received Degrees

Knoebel received both his bachelor of science and master of science degrees at the University. Upon graduation he taught in the Sunbury high school and joined the University faculty in 1949.

The two other appointments are those of Dr. Roy P. Matelski as professor of soil technology, effective April 1, and Herman M. Southworth as professor of agricultural economics, effective July 1.

### Now at Nebraska

Dr. Matelski is presently associate professor of agronomy at the University of Nebraska, where he has been since 1952. He received his bachelor's and master's degrees at the University of Wisconsin and his doctor's degree at Michigan State University.

Southworth, consultant for the program in agriculture and business at Harvard Graduate School of Business Administration since 1955, is a graduate of Iowa State College. He has held various positions with the U.S. Department of Agriculture and was also engaged in research for Consumers Research, Inc., before going to Harvard in 1955.

# 'One's a Crowd' Tickets

Tickets for the Players' production "One's a Crowd" by Eugene O'Neill are available at the Hetzel Union desk. Price is \$1.

The play will be presented at 8 tonight and tomorrow night at Center Stage.
