However, she said, applications for the positions will be reviewed by the committee on Saturday.

The candidates will be required to attend a meeting at 7:45 p.m. Tuesday in 209 Hetzel Union to have the campaigns explained.

FASTER, FASTER!

Pick up your paper every morning and what do you read? "CRISIS IN HIGHER EDUCATION." That's what you read. "ENROLLMENT SPIRALLING UPWARD - DESPERATE NEED FOR MORE CLASSROOMS, MORE TEACHERS." But classrooms, alas, do not spring up like mushrooms, nor teachers like mayflies. So what must we do while we build more classrooms, train more teachers? We must get better use out of the classrooms and teachers we now have. That's what we must do.

This column, normally a vehicle of good-humored foolery, of joy that wrinkled care derides, of laughter holding both his sides, will today forsake levity to examine the crisis in higher education. My sponsors, the makers of Philip Morris Cigarettes, as bonnie a bunch of tycoons as you will see in a month of Sundays, have given cheerful consent to this departure. Oh, splendid chaps they are, the makers of Philip Morris! Oh, darlin' types they are, fond of home, mother, porridge, the Constitution, and country fiddling! Twinkly and engaging they are, jaunty and sociable, roguish and winsome, as full of joy, as packed with pleasure, as brimming with natural goodness, as loaded with felicity as the cigarettes they bring you in two convenient sizes - regular in the handy snap-open pack, and new long-size in a crushproof flip-top box - both available at moderate cost from your favorite tobacconist. Light one now. Light either end. No filter cigarette can make that statement.

Let us then, with the gracious connivance of the makers of Philip Morris - Oh, splendid chaps! Oh, gracious connivers! - take up the terribly vexing question of how we can turn out more graduates with campus facilities as they now exist.

The answer can be given in one word: *speedup!* Speed up the educational process. Streamline courses. Eliminate frills. Sharpen. Shorten. Quicken.

Following is a list of courses with suggested methods to speed up each one.

PHYSICS - Eliminate slow neutrons.

PSYCH LAB - Tilt the mazes downhill. The white mice will run much faster.

ENGINEERING - Make slide rules half as long.

MUSIC - Change all tempo to allegro. (A collateral benefit to be gained from this suggestion is that once you speed up waltz time, campus proms will all be over by 10 p.m. With students going home so early, romance will languish and marriage counselors can be transferred to the buildings and grounds department. Also, housing now used for married students can be returned to the school of animal husbandry.)

ALGEBRA - If "x" always equals 24, much time-consuming computation can be eliminated.

LANGUAGES - Teach all language courses in English.

DENTISTRY - Skip baby teeth. They fall out anyhow.

POETRY - Amalgamate the classics. Like this:

Hail to thee, blithe spirit
Shoot if you must this old gray head
You ain't nothin' but a hound dog
Smiling the boy fell dead.

You see how simple it is? Perhaps you have some speedup ideas of your own. If so, I'll thank you to keep them to yourselves.

The makers of Philip Morris have no interest in any speedup. We age our fine tobacco slow and easy. And that's the way it smokes - slow and easy - a natural smoke.
