#### HELP WANTED

STUDENT PINBOYS—Steady part-time job if you can schedule the right two or three evenings. It's \$1.95 singles or \$3.99 doubles for a full two-hour tournament. Inquire Dux Club, 128 S. Pugh St.

Soon you will decide on the kind of company in which you want to invest the knowledge you have acquired through engineering education.

You will probably have more companies to consider than those who graduated before you... many more than the men who collected their sheepskins before 1950. While the number of engineering graduates once exceeded the number of openings, today there are more good opportunities than there are capable young men to pick up the pay checks. In short, the shoe is on the other foot—your foot!

Although we recognize that fact, we cannot relax our standards. We still want only those who have the creative spark, the imagination, the talent to make important contributions in our organiza-tion. No doubt you will understand why ... when you read our booklet. It tells about the exciting progress of helicopters and indicates something of the part Sikorsky has played and will play in their development.

This informative booklet is yours for the writing, no strings attached. Should you be considering Sikorsky as a company where you might like to get started, then tell us, too, a little about yourself. Address your letter to Mr. Richard Auten at our Bridgeport Personnel Department.
