

Four Teamsters Indicted On Contempt of Congress

WASHINGTON, March 18 (AP) — A federal grand jury today indicted two Teamsters Union vice presidents and two lesser Teamsters officials on charges of contempt of Congress.

The vice presidents indicted were Einar O. Mohn of Washington, top administrator of the 1½-million member

union under President Dave Beck, and Frank W. Brewster, Seattle, who is also chairman of the 11-state Western Conference of Teamsters.

The indictments came during a recess in hearings of the Senate committee investigating alleged racketeering in labor and industry. Brewster is to resume the witness stand when the hearings get under way again tomorrow.

Orders Records Opened

President Dwight D. Eisenhower meanwhile ordered federal income tax records opened for the rackets committee for the years 1945 to 1957.

Robert Kennedy, the committee's chief counsel, promptly said he would request access to the returns of Beck and Brewster. Beck so far has not met two committee requests to turn over his personal financial records.

Today's indictments stem from mid-January proceedings of the Senate Investigations subcommittee. Sen. John L. McClellan (D-Ark) heads both the subcommittee and the special rackets committee. Results of the subcommittee work led McClellan to set up the broader rackets committee.

McClellan Comments

McClellan's only comment on the indictments for alleged contempt of Congress was "I very much appreciate the cooperation and prompt action by the Justice Department."

Indicted for contempt along with Brewster and Mohn were Nugent La Poma, secretary-treasurer of Teamsters Local No. 174, Seattle, and Harry Reiss, welfare fund administrator of the union's Local No. 227, New York. All four were charged with refusing to answer questions put by McClellan's Investigations subcommittee in an inquiry preliminary to the present full-scale rackets probe.

Soviet Disarmament Plan Submitted to UN Group

LONDON, March 18 (AP)—Russia today laid before the UN disarmament subcommittee a 3000-word plan for full-scale conventional and nuclear disarmament to be completed by the end of 1959.

Western observers said the plan appeared to be a summation of previous Soviet proposals.

Senate Group OK's Whittaker For Court Seat

WASHINGTON, March 16 (AP)—Charles E. Whittaker of Kansas City won unanimous approval of the Senate Judiciary Committee today for appointment to the U.S. Supreme Court.

The nomination of Whittaker, a 56-year-old Republican chosen for the post by President Dwight D. Eisenhower, now goes to the Senate for final action.

Also awaiting Senate action is the nomination of William J. Brennan Jr. of New Jersey, who is serving as a Supreme Court justice under a recess appointment. Brennan won unanimous committee approval, but the Senate last week delayed action on his confirmation.

The Judiciary Committee also acted favorably on the appointment of W. Wilson White of Philadelphia to be an assistant attorney general.

While the committee was working in public hearing and then at a brief closed-door session, three other nominations were sent in by the President. Gerald A. Drew of San Francisco, now ambassador to Bolivia, was named to a similar post in Haiti. Philip W. Bonsal, Washington, D.C., now ambassador to Colombia, was chosen to take over Drew's former post.

Damaged Ship Sinks in Gulf

ST. PETERSBURG, Fla., March 18 (AP)—The SS Perama, damaged by fire and two explosions, sank today in the Gulf of Mexico.

Saudi Arabia Bears Aqaba Gulf Hassle

CAIRO, March 18 (AP)—President Gamal Abdel Nasser has pulled a diplomatic reverse play on the United States by letting Saudi Arabia carry the ball for the Arabs on the Aqaba Gulf issue.

Although the islands dominating the entrance to the gulf are Saudi Arabian territory, it was Egypt which fortified those islands and prevented Israeli ships from entering.

The Egyptians were driven off last fall by the Israelis, who later withdrew with a U.S. promise of support for freedom of shipping there.

As the United States prepared to press Egypt for guarantees of free shipping, Saudi Arabia moved into the breach with a denial of any Israeli rights in those waters.

Since Saudi Arabia has become a cornerstone of the Eisenhower doctrine in the Arab world, this makes it much more difficult for the United States to give Israel the support she demands for her shipping.

Those who know King Saud say American pressure on the issue might change him from an influential friend of the United States to a bitter enemy.

Crown Prince Faisal, brother of King Saud, arrived today for talks with Nasser on action to keep the Israelis from using the Aqaba Gulf as a channel for high seas commerce.

At the moment there are no troops—either Egyptian or Saudi

Macmillan Ready To Patch Relations

LEICESTER, England, March 16 (AP)—Prime Minister Harold Macmillan said tonight he and President Dwight D. Eisenhower at their Bermuda meeting will try "to restore Anglo-American relations as the cornerstone of world peace."

He flies to Bermuda tomorrow and the meetings open Thursday.

Speaking at a Conservative party rally here, the wartime friend of President Eisenhower said the two also would discuss "Soviet intrigue" in the Middle East.

Macmillan said ideas for maintaining "the great bastion of NATO" would be discussed.

Macmillan referred also to economic cooperation in Europe—a plan for a European common market. Britain also is promoting a broader 17-nation free trade area for Europe.

Arabian—on the Tiran Islands. Nor have the Egyptians reoccupied Sinai shore positions near the Tiran Strait.

Israel Support Not Promised, Dulles Quoted

WASHINGTON, March 18 (AP)—Secretary of State John Foster Dulles was reported to have told senators today the United States has made no secret promises to support Israel's position in the Middle East.

Senators who came out of a closed meeting of the Foreign Relations Committee before which Dulles testified also said the secretary gave them an optimistic report of conditions in the Middle East.

Fresh from a conference with Mrs. Golda Meir, Israel's foreign minister, Dulles was said to have been pressed as to whether this country had promised Israel to back up her claim of free passage of ships through the Gulf of Aqaba.

Dulles was quoted as replying there were no commitments beyond the expression of "hopes and expectations" that Israel's withdrawal of military forces from the Gaza Strip would lead to that country's having free passage through the Gulf of Aqaba and other gains.

UNEF Strengthens Frontier Troops

GAZA, March 18 (AP)—The UN Emergency Force clung to its Gaza headquarters today but moved increasing numbers of troops to 24-hour guard duty on the Israeli frontier.

Egypt moved more firmly into control of the Gaza Strip.

Cairo radio said the Egyptian governor of Gaza announced UNEF had agreed to move out of its headquarters building in Gaza and leave all towns in the Strip within 48 hours. The radio indicated the movement of UNEF forces to the Israeli frontier would be completed Wednesday.

Tunisians Welcome Nixon

TUNIS, March 18 (AP)—About 250,000 joyous Tunisians gave Vice President Richard M. Nixon the most enthusiastic welcome of his African trip today.

IT'S FOR REAL! by Chester Field

VICE VERSA*

Out after a deer? Of course you know You must get a license Before you go!

Oh! After a deer. Then it's reversed. Never mind the license— Catch the deer first!

MORAL: Big game hunters, attention—take your pleasure BIG! Smoke a regal Chesterfield King and get more of what you're smoking for. Majestic length—plus the smoothest natural tobacco filter. Chesterfield—the smoothest tasting smoke today because it's packed more smoothly by ACCU-RAY!

Like your pleasure BIG? Chesterfield King has Everything!

PROBLEM: To evaluate the all-round career advantages offered by the widely diversified activities at Divisions of North American Aviation, Inc.

FIRST STEP: GET THE FACTS in man-to-man interviews, on campus March 18 and 19

As a graduate in Engineering, Physics, Applied Math. or allied subjects you need complete, factual information to help you make a sound decision in choosing your career. Get the facts in a

AUTONETICS

man-to-man interview with our representative. Let him tell you about our unique placement and training devised to help your potential develop rapidly in a company where continued expansion has doubled the number of employees in 5 years. Your possibilities are wide and varied, as you will see from these brief notes on the 4 Divisions:

AUTONETICS creates automatic controls and electro-mechanical systems of a highly interesting nature. Work includes research, design, development, manufacture and testing; you will become a part of the latest advances in

ROCKETDYNE

inertial navigation and guidance, fire and flight controls, analog and digital computers.

ROCKETDYNE is building power for outer space—large, liquid propellant rocket engines. The Field Test Laboratory in the Santa Susana Mountains is the most complete rocket engine workshop in the free world. Here a man meets more aspects

of his specialty in one week than in a year of "conventional" practice.

ATOMICS INTERNATIONAL is pioneering in the creative use of the atom. If you are able to meet the high requirements for this work, you can help introduce a new industrial era. Atomics International is designing and building varied types of nuclear reactors, for both power and research, with the practical experience gained by 10 years in the field.

MISSILE DEVELOPMENT ENGINEERING

Long range missiles, including the intercontinental SM-64 Navaho, present problems of the

ATOMICS INTERNATIONAL

most fascinating nature. Speeds, materials and functions now being dealt with were only theoretical a few years ago. The work is vital; the opportunities for you, as a creative

engineer, are correspondingly great.
