Phone Wiring Completed Panhel Will Finch Explains War In McKee, Hamilton Halls Hold Voting Using Freud's 'Id' Installation of wiring for the new West Halls dial tele-Dr. Henry A. Finch, professor of philosophy, said last

phone system has been completed in McKee and Hamilton Halls and will be completed in Thompson Hall over the Council officers will begin at id and ego theory is the explanation, in part, of the cause Easter vacation.

The running of conduits will be begun in the other West tinue until 7 p.m. in three wo-Halls in about two weeks and wiring will be started there men's dormitories.

when all conduits have been in- im-The new dial telephone system i

is scheduled for completion in West Halls before the fall semester.

Distribution Method Set

The system will provide for one telephone for every four rooms, with a separate ringer and signal for each room. The phones will be placed in the hallways, convenient to all four rooms.

Each room will have its own bell, which will ring only when that particular room number is called

Diehl emphasized that the new telephone numbers will have no connection with room numbers, and it will be necessary to find the correct telephone number with the aid of a new directory that will be published.

New Directories Planned

The new directory, which will list only room numbers and cor-responding phone numbers, will be placed at each telephone.

These dial telephones will be used for making on-campus calls and for receiving incoming calls from outside.

In addition to these phones, 31 telephone booths will be placed throughout West Halls for making outside telephone calls. One of these booths has already been in-stalled and the others will be put in when the equipment is received.

Voting for four Panhellenic night that among the conceptions made possible by Freud's

Officers to be elected are vice

president, corresponding secre-tary, recording secretary and and treasurer. There will be no elections for the presidential office since this position is automaticaldent.
