WASHINGTON, March 28 (AP)—The United States counseled American ships today to steer clear of the Suez Canal.

This advice, given by the State Department to a ship-owners committee, had the appearance of attempted pressure on Egypt's President Gamal Abdel Nasser.

It came as the United States and other Western users of the canal girded for long-range negotiations with Nasser on its future operation.

United Nations Secretary General Dag Hammarskjold is returning from indecisive talks with Nasser at Cairo on this question. And the United States, studying Egyptian proposals made to Hammarskjold, has reached no decision on whether they are good, bad or indifferent.

The American attitude was that Nasser's proposals should be treated gingerly but as a start, at least, toward a settlement.

The chief legal problem is what to do about tolls. Nasser's plan calls for his Suez Canal Authority to collect them in advance. He would set aside 25 per cent for future development and five per cent to pay off people who owned the canal before Egypt seized it last July 26.

# Britain Orders End of Exile For Makarios

LONDON, March 28 (AP)—Britain today ordered the release from exile of Archbishop Makarios in the hope of breaking the deadlock in the dispute over Cyprus.

Makarios, leader of the Greek Cypriot "union with Greece" movement, will not be permitted to return immediately to the strife-torn island, however.

Initial reaction among Greek Cypriots on the island was joyful.

In Athens, Greek Premier Constantine Karamanlis summoned an emergency meeting of his Cabinet to discuss the situation.

The British also made a sweeping amnesty offer to members of the EOKA underground organization, which has been carrying on a campaign of violence on Cyprus.

Britain's move may open the door to negotiations over the political future of the island, in which Greece and Turkey are vitally interested.

## Leader Calls Conference

HARRISBURG, March 28 (AP)—Gov. George M. Leader today called a conference with Republican legislative leaders for Sunday night in an attempt to hammer out a compromise on amendments to the 3 per cent sales tax.

# Russian Troops Border Norway

OSLO, Norway, March 28 (AP)—Soviet Russia's new war of nerves against Scandinavia is backed by strong forces close to Norway's arctic border, Norwegian sources said today.

The informants said Russia's Far North buildup is strongly backed by heavy industrial development, railroads reaching almost to the frontier, modern air forces and naval forces.

In the peace settlement with Finland, Soviet Russia acquired a rugged 120-mile frontier facing Norway. That border is now a northern flank of the North Atlantic Treaty organization.

ure out whether these percentages are of the gross take, which might be acceptable, or on revenues after expenses are deducted, which would be practically nothing.

# Senate's Racket Probers To Broaden Investigation

WASHINGTON, March 28 (AP)—The Senate's racket probers, getting tips on alleged misconduct from all over the country, announced today a broader-than-ever search for cases of labor-management corruption.

Getting down to specific localities, they said:

1. A preliminary investigation has been launched into alleged tieups between racketeers and some Teamsters Union officials in Oklahoma City.

2. Staff investigations have now been completed into alleged corruption, collusion or other improper activities involving officials of various unions and others in Los Angeles, Scranton, Pa., and New York City.

It will be decided later when hearings will be held on what has been developed from these cities.

Without giving details, Robert

F. Kennedy, committee counsel, said the staff is checking on reports that some unions and some employers have been engaging in collusion. That is the legal term for secret cooperation to carry out a questionable purpose.

Kennedy also said committee investigators at Seattle are checking into what he called "another very serious business transaction" by President Dave Beck of the Teamsters Union.
