

# Kappa Sig Scores Three Victories In IM Wrestling

By MIKE MAXWELL

Kappa Sigma scored three victories, two falls and a decision, while losing their fourth match to head Intramural wrestling last night at Recreation Hall.

The two falls were accomplished by Dick Berkley in the 135-pound class over Theta Delta Chi's Ken Gibble at 2:35 and 155-pounder Ron Goodling over Bob Peck, Theta Xi, in one minute of the second period.

Rowland Wilkinson scored Kappa Sig's only decision when he went the limit against Alpha Zeta's Martin Lieb, winning 9-2 in the 145-pound class. Wilkinson won on two predicaments, two reversals, a takedown, and riding time.

### Norman Only Loser

Allen Norman, 165 pounds, was Kappa Sigma's only loser. He lost on a 3-0 decision to Louis Tronzo, Phi Gamma Delta. Norman was the victim of a takedown and a time advantage.

New IFC President James Hart, Acacia, came through again for the second time this week and took a 4-0 decision over George Layman, Alpha Chi Sigma, in the 135-pound division.

The fastest fall of the night was recorded by Jim Holmes, Sigma Chi, when he pinned Phi Gamma Delta's Bill Detterer in 45 seconds of the first period in a heavy-weight match.

### DU Wins Two

Delta Upsilon came through in two of their three entries last night. Bill Griffin, wrestling in the 155-pound class, pinned Bob Mullen in 1:28 of the third period.

The other DU victory came by virtue of a forfeit. Homer Hilner won over Bill Kirsch, Phi Kappa, in the 165-pound division.

After scoring an early takedown in the 121-pound division, Lambda Chi Alpha's Chuck Zendt pinned Delta Theta Sigma's Ron Roberts in 1:11 of the first period.

By virtue of a referee's decision, Jim Riley, Sigma Phi Epsilon, won over Delta Upsilon's Al Barth at 135-pounds. Riley scored a takedown and an escape for three points while Barth worked in a reverse and a time advantage for the same number of points.

### Webb Wins 2nd

Tom Webb, Chi Phi, scored a 3-1 decision and his second of the tourney over Ed Rhoads, Theta Delta Chi, at 147 pounds.

After leading 7-3 in the second period, Alpha Sigma Phi's Bill Wehmer scored a fall over John Tullar, Delta Sigma Phi, in 1:30 of the second period in a heavy-weight clash.

# LEARN WHILE ASLEEP!

At last science has found a way for you to learn languages, vocabulary, facts, figures, memorize lessons—all while you sleep. For the real

facts about this revolutionary university-tested method, send \$2.00 for 54 page fact-filled, illustrated instruction booklet: "Sleep-Learning—Its Theory, Application & Technique". Tells how to make device from radios, phonos, recorders etc. Where to buy assembled units and pre-recorded lessons and self-help psychological courses...plus hundreds of time-saving hints. Satisfaction is guaranteed. SLEEP-LEARNING RESEARCH ASSOCIATION. P. O. Box 610-CP OMAHA, NEBRASKA.

"What's it like to be in

## BUSINESS ADMINISTRATION AT IBM?"

Two years ago, Robert Everett asked himself this question. Today, as Administrative Assistant to the Divisional Controller, Bob reviews his experience at IBM and gives some pointers that may be helpful to you in taking the first, most important step in your business career.

Filtering out the "hot" projects

Promoted the same year

By December of the same year, Bob was promoted to his present job—Administrative Assistant to the Controller of the Data Processing Division. "The first function of an Administrative Assistant," says Bob, "is to filter out the 'hot' projects from those that can be handled later. You follow through on projects assigned by the controller and keep

### Why Bob picked IBM

Bob made a careful study of existing opportunities before selecting IBM for his career. He had a dozen campus interviews; took nine company tours. IBM's M.B.A. program interested him—because, as he says, "It gave me a chance to review the entire company before starting an actual line assignment." He was intrigued by the increasing use of data processing equipment in finance and he knew that IBM was a leader in this field. Salary-wise, he found IBM better than many, but it was company growth potential that motivated his choice. "Opportunity certainly exists

"Opportunity certainly exists at IBM"

at IBM," he says. "Growth factors alone will account for many new executive positions. A second factor is the trend toward decentralization, which also creates new jobs. These factors, plus IBM's 'promote-from-within' policy, add up to real opportunity."

"What's it like to work for a big, expanding company like IBM? What would I be asked to do? Would I get ahead fast?" These were some of the questions that filled Bob Everett's mind as he faced up to the big problem, "How can I put my M.B.A. training to the best possible use?"

Bob came directly to IBM from Cornell in July, 1955, with an M.B.A. in finance. He was immediately assigned, with twenty-nine other M.B.A.'s, to a Business Administration training program. This six months' program comprised general orientation in the entire IBM organization, a six weeks' field trip to the

Developing a new system

Syracuse branch office and several months at the Poughkeepsie manufacturing facilities. There he gained a functional knowledge of IBM machines, particularly the 700 series of giant electronic computers.

His training completed by January, 1956, Bob was assigned to the Methods Department as a Methods Analyst at IBM World Headquarters in New York City. Here, with the cooperation of operating department personnel, he worked on the development of systems and procedures for the various Division areas. In addition to normal methods techniques used in developing systems and procedures, he studied these projects in terms of possible machine application for either IBM high-speed giant computers or conventional accounting equipment. One project was the study of the Machine Ordering procedure with the objective of simplifying and mechanizing it and at the same time improving the source information to provide for a more complete analysis of sales and production backlog.

Keeping the boss posted

him posted on their progress." Bob's new position affords a pleasant diversification of work: charting divisional responsibilities of the controller's function... plans for decentralization... costs of regionalization... summarizing key financial and statistical information for presentation to top management.

Bob points out that there are many areas in Business Administration at IBM for men with an M.B.A. or a B.S. in accounting: corporate, general, and factory accounting; internal audit; methods; payroll and taxes. Administrative and management positions constantly open up at World Headquarters, IBM's 188 branch offices, many plants and laboratories.
