Cabinet OKs Constitution For ICCB

All-University Cabinet Thursday night approved a constitution for the Intercollegiate Council Board, giving it the power to distribute Cabinet-budgeted funds to the college student councils.

The board, which is composed of the presidents of the nine college student councils, changed membership Thursday when Cabinet installed the newly-elected council heads.

Needed Because of Funds
Joseph Eberly, former president of the Chemistry and Physics Student Council, who presented the report, said ICCB needed a constitution to distribute the funds, a power it did not have before this spring.

ICCB will distribute \$100 to each council and will also compensate the Council presidents in the amount of \$20 each.

The rest of the funds, which amount to \$1800 under next year's budget, will be distributed as ICCB sees fit.

To Elect Chairman
The constitution provides for the election of a chairman and a secretary, who will be named in about two weeks.

In final votes, Cabinet also approved an \$11,660 budget for the 1957-8 academic year and a constitutional amendment requiring its members to have a minimum 2.4 All-University average.

The constitutional amendment was introduced April 7 by Lash Howes, Association of Independent Men president, to create a "higher academic atmosphere." It will go into effect with the 1958-59 Cabinet.

Community Projects On Tap for Greeks

Fraternity and sorority members will don old work clothes today and bring out the rags, garden tools, and paint and paint brushes for the sixth annual Greek Week work projects day.

Forty-three fraternities and 23 sororities, including about 570 members, will participate in the 20 projects in and around the State College area from 1 to 5 p.m.

One of the primary purposes of the work projects day is to foster and maintain good relations between sorority and fraternity members and townspeople, according to Iris Olbum and Robert Steele, projects co-chairmen.

In the past years work projects day has proven to be one of the highlights of Greek Week.

Arranging the projects with the two projects chairmen and acting as the liaison between the townspeople was Eugene M. Fulmer, executive secretary of the State College Chamber of Commerce.

Greek Week was originally innovated in 1944 at the University of Minnesota as a Help Week to replace the traditional Hell Week. This is the sixth year that it has been held at the University.

Other events included in Greek Week, in addition to the projects day, are the IFC-Panhel Sing, Greek Sunday, a poster contest, the Outstanding Pledge Banquet,

the IFC-Panhel Banquet and IFC-Panhel Ball.

The complete list of assignments for projects day is as follows:

Sunset View Park, Alpha Phi Delta, Phi Mu, Delta Tau Delta, Acacia, Sigma Alpha Mu and Alpha Xi Delta; Holmes-Foster Park, Delta Sigma Phi, Chi Phi, Kappa Delta Rho, Kappa Kappa Gamma and Phi Mu Delta; Ferguson Township Lion's Club Park, Sigma Pi, Alpha Tau Omega, Gamma Phi Beta and Pi Kappa Alpha.

AFL-CIO Suspends Beck From Posts

WASHINGTON, March 29 (AP)—Teamsters boss Dave Beck, a Fifth Amendment witness before the Senate

rackets probers, was suspended from his high AFL-CIO posts today pending outcome of charges to be filed by his fellow labor leaders.

The AFL-CIO Executive Council unanimously suspended the chubby, 62-year-old self-proclaimed financial tycoon as an AFL-CIO vice president and an Executive Council member.

Investigation Ordered

The council-top command of the 15-million-member federation also ordered a broad investigation of alleged corruption in the Teamsters Union organization, a probe

that could spur the ousting of Beck from the Teamsters presidency.

Beck's office here said, after speaking with him in Seattle, "You can quote Mr. Beck as saying 'no comment.'"

Used 5th Amendment

Beck invoked the Fifth Amendment in refusing to tell senators in hearings Tuesday and Wednesday about his admitted use of \$300,000 to \$400,000 of Teamster's funds. He has claimed to reporters he has repaid the money, but refused to say so under oath.

Beck was absent from today's meeting, staying at his home in Seattle and complaining that he'd received only two days' notice of the session.

George Meany, AFL-CIO president, said the council has summoned Beck to a hearing here

May 20 to answer "for his actions in bringing the labor movement into disrepute and his failing to explain many charges against him with regard to misuse of union funds."

Depends on Hearing

Beck's suspension from his AFL-CIO offices is effective pending outcome of the May 20 hearings.

Incidentally, if Beck shows up at that hearing, he likely will have the "judicial atmosphere"—including right of cross-examination and presentation of charges—which he said was absent at his Senate committee appearances.

Such has been the precedent for similar ousting proceedings against labor leaders, although none as high as Beck has ever before been so accused. Unlike court sessions, however, witnesses are not placed under oath.

Lion Forecasts Cloudy Skies

The Nittany Lion today predicted partly cloudy skies and cool temperatures.

After taking over the Meteorology Department two days ago, the Lion has worked diligently to make the campus aware of his "extraordinary perception of atmospheric and meteorological phenomena," as his latest report has it.

This morning's forecast was floated in by one of the Lion's woodland friends swinging beneath a large red balloon. The side of the balloon bore a picture of the Lion, with the words "Lion weather is better than ever" printed below.

The forecast calls for partly cloudy skies, with the high temperature between 40 and 45.
