

Progress Compared In Science, Culture

Dr. Albert Christ-Janer, director of the School of the Arts, said Thursday night that the recent progress in art, religion and the humanities is a mole-like progress compared to the great steps of science in the last 15 years.

Dr. Christ-Janer gave the final lecture in the Last Lecture Series sponsored by Mortar Board, senior women's hat society.

He said, "What record of achievement can we point to in these fields while science has progressed so?" Unfortunately, he said, even from the late Renaissance to today, it doesn't equal science.

The Renaissance authors, Dr. Christ-Janer said, looked to the Greeks for pure reason and good taste. But no revival is possible; only a renewal to fit new lines and new places is fitting, he said. Only a few, he said, knew how dead it was.

"Every creative mind accepts the inheritance of its forebearers," Dr. Christ-Janer said; man appreciates this inheritance, but must advance in history. The essence of creativity, he said, is new formation.

IS YOUR typewriter giving you trouble? If so call AD 7-2492 or bring machine to 633 W College Ave

IT'S HASSINGER for racket stringing the No-Awi Way Latest factory equipment, prompt service, guaranteed work. Longer life to string and racket. R. T. Hassinger, White Hall or 514 Beaver Ave. after 6 p.m.

Newman Club--

(Continued from page five)
 tomorrow. A selected reading of William Inge's "Come Back, Little Sheba" will precede a discussion. The Westminster Fellowship will continue its series on the Church with Dr. Neal Riemer, associate professor of political science, speaking on the "Church and World Affairs" at 6:30 p.m. tomorrow at the foundation.

"The Magic Month" will be discussed by the Wesley Foundation Evening Fireside Forum at 6:15 p.m. tomorrow in 104 Chapel. Evening Worship Service for the Calvary Baptist Church will be held at 7:45 p.m. tomorrow at Woodman Hall.

The third in the University Christian Association's series of meetings on "Destination—Europe" will be held at 8 tonight in the Memorial Lounge of the chapel. Dr. Elton Atwater, associate professor of political science, will speak on "Dynamics of American Politics" and "American Foreign Policy."

Projects on Tap--

(Continued from page one)
 Centre County Home, Phi Sigma Delta, Sigma Delta Tau and Pi Kappa Phi; Midget League ball field, Triangle, Beaver House, Zeta Tau Alpha, Sigma Sigma Sigma and Theta Xi; Nittany Village, Zeta Beta Tau and Alpha Omicron Pi.

Panorama Village, Theta Chi, Phi Epsilon Pi, Phi Sigma Sigma, Phi Kappa Tau and Theta Chi; Lemont School, Tau Phi Delta, and Beta Sigma Omicron; State College tennis courts, Phi Kappa Psi and Delta Gamma.

College Heights Playground, Delta Chi and Kappa Delta; East Fairmount Playground, Phi Kappa Sigma, Kappa Alpha Theta and Alpha Chi Sigma; University Christian Association cabin, Alpha Gamma Rho, Phi Gamma Delta, Pi Beta Phi and Sigma Phi Alpha.

Friends' Meeting House, Omega Psi Phi and Alpha Kappa Alpha; Westview Playground, Alpha Rho Chi, Alpha Gamma Delta and Phi Kappa; Boalsburg Playground, Beta Sigma Rho and Chi Omega.

Greek Week--

(Continued from page one)
 sent at the banquet are the Sigma Chi trophy for the fraternity chapter showing the greatest scholastic improvement during the fall semester; the scholarship trophy for the social fraternity that had the highest average for the fall semester; and the scholarship trophy for the social-professional fraternity that had the highest average for the fall semester.

Scholastic awards for sororities will also be made at the banquet. The IFC-Panhel Ball which will begin at 9 p.m. Friday in Recreation Hall will bring Greek Week activities for this year to a close. Sammy Kaye and his band will provide music for dancing.

Several weeks ago, IFC voted that flowers should be omitted from this year's dance.

Lion Party Committee

The Lion Party Steering Committee will meet at 2 p.m. tomorrow in 317 Willard.

It is different to honor and respect the past and to elaborate on it; this is not imitation, he said. Van Gogh studied technique in the Louvre, but, he said, every creative artist has his own style as did Van Gogh. Anyone who trusts imitators, Dr. Christ-Janer said, will lose more than the farmer who gives \$25 to two city slickers to have them rotate a skyscraper on a turntable.

ENGINEERS
and
SCIENTISTS

*we'll be on
 the campus*

*to discuss
 your future at
 Boeing*

... where you can rise to the top

Right now you're in the process of making one of the most important decisions of your life.

Your decision is important to us, too, because we are interested in engineers and scientists who want to get ahead. We're coming to the campus to give you the facts you need to judge whether Boeing can help you reach the goal you have in mind.

The fact that Boeing is an "engineers' company" is important to your success. At Boeing, you'd work with, and for, engineers—men who talk your language, understand and appreciate your work.

Boeing encourages graduate study, reimbursing full tuition and fees, plus an additional amount for incidentals. Every six months, each Boeing engineer is given a merit review—a personal opportunity for recognition and ad-

vancement. The company's steady, rapid growth assures plenty of opportunities to move ahead. At Boeing, engineers hold positions right to the top.

Another advantage: Boeing assignments are interesting. You'll work on such famous projects as the 707, America's first jet transport; the intercontinental B-52, the nation's principal long-range jet bomber; the supersonic BOMARC guided missile, and top-secret programs that probe beyond the frontiers of the known. At Boeing, you'll be in a young, expanding industry, one with its major growth still ahead.

So whether you plan a career in civil, mechanical, electrical, aeronautical or industrial engineering, physics or mathematics (or related fields), drop in for a person-to-person discussion about your future at Boeing.

April 2 and 3
