

U.S. Blasts Hungarian Red Regime For Practicing 'Stalinist Terrorism'

WASHINGTON, April 3 (AP)—The United States blasted at Hungary's Red regime today for practicing "Stalinist terror" and it snubbed invitations to a Hungarian "Liberation Day" celebration.

The State Department issued a harsh statement, which summed up what it called recent efforts by Hungary's Kadar regime to suppress "all human rights and liberties."

At the same time, department officials disclosed a calculated snub aimed at the Hungarian legation here. Invitations to the legation's "Liberation Day" party tomorrow were unceremoniously tossed away—without even a note being sent to apologize for being absent.

The ceremonies tomorrow will mark the 12th anniversary of the Soviet army's entry into Hungary as the forces of Nazi Germany withdrew at the end of World War II.

Reversion to Terror
The State Department statement said recent events in Hungary "mark a reversion to some of the worst practices of the Stalinist terror in that country." It said they "stand in ironic contrast to the celebration by Communists on April 4 of the 'liberation' of Hungary by Soviet armed forces in 1945."

These developments "will be of concern" to the United Nations special committee named last Jan. 10 to investigate the Hungarian revolution, the statement added.

Committee Holds Hearings
The special committee is composed of representatives of Australia, Ceylon, Denmark, Tunisia and Uruguay. It has held hearings in New York, Geneva, Rome and Vienna—but the Communists in Hungary refused to permit it to meet there. Similarly, the Hungarian regime of Janos Kadar had barred a trip there by U.N. Secretary General Dag Hammarskjöld.

The Moscow-controlled Kadar regime contends the Hungarian revolution is an internal matter not within the competence of the United Nations.

Iranians Kill Murderer Of U.S. Woman

TEHRAN, Iran, April 3 (AP)—Loyal tribesmen have shot dead a bandit officially identified as the slayer of Mrs. Anita Carroll, one of three Americans killed by an outlaw gang in southeast Iran March 24.

Police announced the bandit, Ghaderdad, and two of the loyal tribesmen died in a two-hour gunfight yesterday after a part of the gang—hard-pressed by troops and armed citizenry—approached the village of Benet hunting food and water. His companions escaped.

Iranian officials described Ghaderdad as a brother-in-law and aide of the fugitive bandit chief Dadshah.

He was the third of the outlaws to be killed since the gang ambushed and massacred a jeep party made up of Mrs. Carroll, from Issaquah, Wash.; her husband, Kevin Carroll, U.S. Point Four aid official; Brewster Wilson, Near East Foundation specialist; and their two Iranian drivers.

Two bandits were slain and another captured early in the hunt. More than 1000 men—security troops and loyal Baluch tribesmen especially armed by the government—were reported trying to track the remainder of the gang in a desolate mountain region where rocks and soil leave little trace of passage.

Mobs Fight Soldiers, Police In Chilean 'Living Cost' Riots

SANTIAGO, Chile, April 3 (AP)—Street mobs fought soldiers and police in the heart of Chile's capital today in renewed rioting against the runaway cost of living. Official figures placed the number of dead at 11 and the injured at about 350.

Reliable nonofficial sources estimated at least 40 were dead and hundreds injured in a week-long wave of disorder.

Property damage was estimated in excess of two million dollars. Col. Benjamin Videla, interior minister, asked leaders of all the political parties for their support in getting extraordinary powers for the government in the crisis.

It was the most serious outbreak President Carlos Ibanez, now 79, has faced since rioters turned him out of office in his first term 26 years ago.

Defying emergency military law clamped on the entire nation, truckloads of rioters from the outlying poorer sections joined in today's demonstrations to complain of a new spurt in the inflation spiral which has gone steadily upward in Chile since World War II.

About 1000 Chileans attacked police and army troops.

Army machine gunners, tanks and armored cars fired repeatedly on thousands of rioters when the outburst here reached a peak of violence last night.

President Ibanez then proclaimed a state of siege—a form of martial law—and warned the nation's six million people he stands for "energetic use of arms, whatever the consequences," to put down the violence. The government decree blamed the rioting on international communism and lawless groups seeking to damage the economy.

AEC Plans New Nuclear Explosions

WASHINGTON, April 3 (AP)—The Atomic Energy Commission said today its new series of test explosions in Nevada will begin about May 15 and continue intermittently throughout the summer.

The commission had announced in January that the nuclear tests would begin this spring, but it gave no date.

It said in January, and repeated today, that they will be of relatively low explosive force.

The commission said also that it will conduct on April 10 an experiment "related to the safety of nuclear weapons handling and storage," similar to tests run in November 1955 and January 1956.

"Since there will be no nuclear detonation," the AEC statement said, "there are not expected to be any effects outside the immediate test area."

New Violent Tornadoes Havoc South

By THE ASSOCIATED PRESS

April's violent moods spawned more tornadoes Wednesday in the Southern Plains while a spring blizzard lost its punch in the Rocky Mountain states.

The tornadoes, which struck Tuesday and Wednesday night, and the blizzard were blamed for 21 deaths, 10 of them in Dallas.

The damage mounted into the millions. That at Dallas alone was placed at more than four million dollars.

New Tornadoes Menace
New tornadoes menaced twister-jittery north Texas and Arkansas Wednesday, but most of the damage was minor.

There were many unconfirmed reports of funnels being sighted near Little Rock and Searcy, both in Arkansas and numerous funnels were reported in Texas.

Blizzard Ends
Intermittent sunshine signalled an end of a paralyzing April blizzard in Colorado and the mountain states. Pegged as the worst April storm in 41 years it caused five deaths.

Damage to utility lines, trees and other property was extensive.

But the snow brought cheer to the high plains areas east of the Rockies, hard hit by drought for the past few years.

While the snow was relatively light in Western Kansas, the remainder of that state received substantial rains.

Teamsters Invited To Refute Charges

WASHINGTON, April 3 (AP)—The Teamsters Union was invited today to defend itself against corruption charges at an AFL-CIO hearing May 6.

Al Hayes, chairman of the AFL-CIO Ethical Practices Committee, said the Teamsters were entitled to a hearing and would be given one if it were the wish of the union's officers.

Last Friday the AFL-CIO Executive Council ordered a broad investigation of the union on the basis of derogatory information turned up by Senate rackets probes.

●Walnuts, hickory nuts and pecans crack better after they are soaked in water, says a Purdue University horticulturist. Peanuts and popcorn don't need the water treatment.

Israel Issues Threat To Fence Off Gaza

JERUSALEM, April 3 (AP)—Israel threatened today to erect her own barbed wire fence along the Gaza Strip border to keep out Arab infiltrators and suicidal fedayeen raiders.

Declaring Israel's dissatisfaction with arrangements UN Secretary Dag Hammarskjöld made with Egypt to suppress across-the-border raids from Gaza, a Foreign Ministry official said his government wants a physical barrier for the 26 by 6-mile area.

He said Israel is discussing with representatives of the UN Emergency Force the erection of two rows of barbed wire 30 feet apart, with the area be-

tween mined and floodlighted. If the discussions do not result in implementing such an idea, he added, Israel is considering erecting a barrier of her own along the border, now marked over most of its length only by a plowed ditch.

The official made the statement in connection with an assertion that Palestine units of the Egyptian army have returned to the Gaza Strip, and that this was a further step in the "re-Egyptianization" of the controversial area.

Prime Minister David Ben-Gurion ordered withdrawal of his troops from the area after Foreign Minister Golda Meir told the UN General Assembly it was Israel's assumption the UNEF would control the area and that Egyptian rule would not be restored.

Decision Likely 'Soon' Affecting State Shortway

WASHINGTON, April 3 (AP)—The head of the nation's giant inter-state roadbuilding program today promised a decision on including a proposed Stroudsburg-Sharon, Pa., cross-state highway "soon" after additional requested data is submitted by Pennsylvania.

"When we receive the report we will immediately go to work and make a decision," said Bertram D. Tallamy, federal highway administrator, after a two-hour conference with Pennsylvania road officials.

Promised Report
At a closed meeting, Joseph J. Lawler, state highway secretary, said he promised to have the report available within about two weeks. It is being compiled by an engineering firm.

Lawler said the meeting with Tallamy and Public Roads Bureau officials was requested by Pennsylvania's Gov. George M. Leader to explore further the federal request for additional cost data on the Stroudsburg-Sharon proposal. Includes Alternate Route

The secretary said the additional data was ordered to include an alternate route which would begin at Lock Haven, Pa., going eastward above Williamsport and stretching to Port Jervis, N.Y. From there it could be extended to connect with northern New England.

Lawler said Leader and the Highways Department were remaining firm, however, in their request for the original straight-line Stroudsburg-Sharon route—known as the Keystone Shortway—to be followed under the federal aid program.

President Urges Budget Scrutiny

WASHINGTON, April 3 (AP)—President Dwight D. Eisenhower today invited the American people to be "watchful" of their government leaders to make sure there is "no looseness, no squandering, no racketeering, no lining of pockets" in big spending for peace.

Eisenhower made another defense of his budget and its high cost to insure "a more peaceful world" in an informal speech to the 5th annual Republican Women's Conference at the Statler Hotel.
