Suppose you had servants instead of electricity...

If you did, it would cost you about \$50,000 more each year!

That's because in the average American home electricity does jobs equal to the manual labor of more than 30 servants working a 40-hour week. Multiply that by 75 cents or \$1.00 an hour, and the figures skyrocket.

Next time you look at your electric bill, think of it as your payroll for 30 servants. Mighty low wages—don't you agree?

They deserve the difference!

Purest natural ingredients make Breyers healthful, wholesome . . . give it a wonderfully different freshness of flavor. Children love it and it's good for them, too! That's why those who want the very best ice cream . . . who want to keep youngsters robust, vigorous and happy . . . insist on Breyers.
