

Spring Building Foretells New Look for Autumn

With the much warmer weather, students will begin taking more leisurely looks at their University.

Undoubtedly, they will see things that went unnoticed before.

The finishing touches on the front of the new Boucke Building, approaching completion of half of the new coed halls, and other work predict the new look the campus will have next fall.

Ag College To Choose 'Top Senior'

The most outstanding senior in agriculture will be named and formally honored on Friday when Mr., Miss, or Mrs. Agriculture will be chosen.

The award is made on the basis of the entry's record in scholarship and activities and will be presented at the agriculture faculty meeting at 4:10 p.m. in 109 Armsby.

The contest is sponsored by the Coaly Society, agriculture activities honorary society.

Point System Used

Scholarship and activities records were rated on a point system and then evaluated to select the winner. Activities were rated from one to ten with the responsibility involved in each activity being heavily considered in the rating.

An All-University average of 4.0 is worth 40 points; a 3.0, 30 points; a 2.0, 20 points.

Judges for the contest are Dr. H. Bruce Byland, acting adviser of the society; Dr. David R. McClay, assistant dean of the College of Agriculture; and Kathryn Simons and David Allison, co-chairmen of the contest.

Last Year's Winners

Last year the award was given to two agriculture seniors, David Morrow and Douglas Moorhead. Both men had high All-University averages, were members of hat societies and had a variety of both campus and agriculture activities.

The contest was initiated in 1953 to give special recognition to student leaders enrolled in the College of Agriculture. The first winner was Boyd Wolf, senior in dairy science.

Ridenour Wins Design Contest

Larry Ridenour, junior in horticulture from Chambersburg, won the national Landscape Exchange Problem competition for his design of an artificial lake for a municipal park.

Landscape architects make up problems and send them to the colleges and universities that have landscape design departments. The contest is judged by architects, landscape architects and civil engineers.

Ridenour worked out his solution to the problem as part of his classwork in a landscape design course, Horticulture 454, which he took during the fall semester.

The judging took place at the Rhode Island School of Landscape Design.

All the solutions entered in the contest were arranged in an exhibit and sent to the colleges who submitted entries.

Astronomy Club to Hold Scheduled Observations

Members of Alpha Nu, astronomical society, will sponsor observations of the planet Jupiter and the comet Arend-Roland, weather permitting, from 7:45 to 10 p.m. tomorrow at the University observatories.

The public may attend the viewings. Members of Alpha Nu will operate the telescopes and answer questions.

Camp Interviews

Interviews for Camp Menatoma, located in Maine, will be held April 26 and 27 at the Student Employment Service, 112 Old Main.

Free X-Rays Available To Students

Free chest X-rays are available to students, faculty members and others until noon Saturday at a mobile unit in front of the University hospital on Pollock Rd.

The unit will be in operation from 9 a.m. to 1 p.m. and 2 p.m. to 6 p.m. daily. The unit is operated by the Bureau of Tuberculosis of the Pennsylvania Department of Health.

Brought for Seniors
The X-ray unit was originally brought to the campus for the benefit of graduating seniors but the facilities have been made available to all persons who wish to have a chest X-ray taken.

A spokesman for the tuberculosis bureau said the X-rays are considered important for all students and faculty members because an unknown case of active tuberculosis may be the origin of other active cases.

X-Rays Urged
Students were urged to receive the X-rays for early detection of any possible tuberculosis. Early treatment of the disease would increase chances of better recovery.

The unit began operations at 2 p.m. yesterday. A large number of students received the test yesterday. The number is expected to increase today, tomorrow and Saturday.

Officers Elected By Outing Club

Alfred Reeves, junior in agriculture from Villanova, has been elected president of the Outing Club.

Other officers are Deborah Dane, vice president; Mary Lou Bieber, corresponding secretary; Margaret Fowler, recording secretary; and Ann O'Toole, treasurer.

New officers of the divisions of the club are:

Cabin and trail: Larry Ridenour, president; Robert Thropp, vice president; Sandra Snowdon, secretary; and Ellen Oosterling, treasurer.

Ski division: Carl Frederick, president; John Losensky, vice president; Susan Blumenthal, secretary; and Virginia Lewis, treasurer.

Field and stream: Edward Klein, president; Charles Sweeny, vice president; Dorothy Lenker, secretary; and Bruce Breneman, treasurer.

Outing Club Forms Ice Skating Group

The Outing Club has announced the formation of the Nittany Skating Club, an ice skating club which will meet on the fourth Tuesday of every month from Thanksgiving to March.

Club officers are Mark Smythe, president; Harry Stack, vice president; Gwendolyn Galusha, secretary; and Barbara-Marcus, treasurer.

The organization is student-administered. However, faculty and non-students who are members have voting, committee and policy-forming privileges.

Pollock Council to Meet

Pollock Council will meet at 6:30 tonight in Room 3, Nittany 20. Election of officers will be held.

54 Colleges Offer Motor Fleet Course

Fifty-four colleges and Universities offer a program in motor fleet supervision instruction that was pioneered by the University in 1939.

The program, begun as a course for the instruction of 12 motor fleet supervisors, is now taught to 2000 persons annually throughout the country.

The first course was the child of Amos E. Neyhart, administrative head of the University's Institute of Public Safety, and its success in following years led to a recommendation by the Automotive Safety Foundation for its adoption by other schools.

As a result of its recommendation, a National Committee for Motor Fleet Supervisor Training was formed to co-ordinate the training program on a country-wide scale, and Neyhart, who became known as the father of driver education courses, became its first secretary.

To Be Clearing House

The purpose of the co-ordinating committee is to serve as a clearing house for promotional and instructional material, to furnish administrators and teachers for lesson units, to develop new materials, to establish minimum standards and to conduct research studies in the field of motor fleet training.

From its small beginning in 1939, the program has grown to vast proportions, now offering seven different courses for the transportation industry from Pennsylvania to Texas and from Alabama to California. Courses are also given in Hawaii and Canada.

Less Than 2000 Instructors
The courses last from two days to one week.

In 1956, 1751 supervisors were trained in the program. These fewer than 2000 persons direct and instruct 167,135 drivers.

A total of 13,311 persons have been trained since the first class in 1939. These supervisors, in turn, have under their jurisdiction 1,850,068 drivers.

Revision of Courses
More than 100 transportation industry leaders serve on several sub-committees whose duty it is to establish and periodically revise the courses.

Secretary Neyhart directs the administration of the national body from his office at the University. He also continues to teach classes.

Joseph Intorre, administrative assistant of the Institute of Public Safety, is assistant secretary of the committee.

Dairy Club Postpones Meeting for Tonight

The meeting of the Dairy Science Club originally scheduled for tonight has been postponed until next Thursday. It will be held at 7 p.m. in 117 Dairy.

At the meeting, the dairy queen, who will reign over the Dairy Exhibition on May 11, will be chosen from five finalists selected next Wednesday.

The Dairy Judging Contest to be held May 4 will also be discussed.

Building, approaching completion of half of the new coed halls, and other work predict the new look the campus will have next fall.

The Boucke Building will stand completed across from the Hetzel Union Building. Most of the exterior is now completed and painters have begun on the front portion.

Painting to Begin
Since plastering on the inside is close to finished, painting will soon begin there. The only plastering work remaining is the fourth floor corridor and the two large lecture rooms.

Two of the four new coed residence halls will also be ready for the fall semester. Original plans called for all four to be ready, but weather and labor difficulties made a rescheduling necessary.

The split-level buildings will house 1064 women residents when all four are completed.

Each of the new buildings will contain two sorority lounges, a large recreation room, a common lounge and four study lounges, in addition to the well-appointed living rooms.

The four-building quadrangle will have a main dining building at its center.

Access to it will be gained through covered walks from each of the four residence halls.

Each building will have two units, making a total of eight. They are to be named Haller, Lyons, Hibbs, Stephen, Ewing, Cross, Cooper and Hoyt.

Strolling students will also be sidetracked at times by spraying operations of the landscape division of the Department of Physical Plant.

But the spraying will mean that students will not be plagued next fall by the odor around Sparks Building and the Pattee Library. By spraying the trees now in that area the landscape division will kill the notorious elm leaf beetles whose larvae are responsible for the smell. The larvae drop to the trunks of the elms where they decay and cause the odor.

Professors Write Poet's Biography

Dr. Lois B. Hyslop, associate professor of Romance languages, and her husband, Francis E. Hyslop Jr., associate professor of history of art and architecture, are the co-authors of "Baudelaire: A Self Portrait."

The book was recently published by the Oxford University Press. This biographical study consists of selected letters of the French poet, translated and edited with a running commentary.

In 1952, the couple published the book, "Baudelaire on Poe."

Student Awarded Prize In Design Competition

James Boodon, junior in architecture from Williamsport, has been awarded the \$60 first prize in the Tile Council of America design competition.

Joseph Teplica, junior in architecture from Johnstown, won the \$40 second prize.

PhysEd College Chooses Six For Council

Six representatives have been elected to the Physical Education and Athletics Student Council. Senior representatives are Grace Briggs, junior from South Williamsport; and Robert Rice, junior from Newport.

Junior representatives are Judith Clancy, sophomore from Drexel Hill; and Calvin Emery, sophomore from Centre Hall.

Sophomore representatives are Elizabeth Corman, freshman from State College; and Earl Kohlhaas, freshman from Shiremantown.

Elections were held in the physical education activities blocks.

Approximately 82 per cent of the students in the college voted in the elections, according to William Hastings, chairman of the council elections committee.

In the freshman class, 54 out of an eligible 56 voted. Fifty-six out of 62 sophomores voted.

In the junior class, showing the poorest representation, only 65 per cent voted. Forty-eight out of 74 eligible juniors voted.

The student council will meet at 6:30 tonight in 218 Hetzel Union Building.

Martin Elected UCA President

Richard Martin, junior in pre-veterinary from Philadelphia, has been elected president of the University Christian Association.

Margaret Leuschner, junior in arts and letters from State College, was elected vice president.

Three members-at-large were also elected. They are Dianne Herold, junior in home economics from Bradford; Arthur Park, junior in art education from Duncansville; and Helen Skade, freshman in home economics from Maplewood, N.J.

The new cabinet, which was elected during the UCA elections held March 29 to April 3, will be installed at a service on April 28 in the Helen Eakin Eisenhower Memorial Chapel.

Promotion Staff to Meet

The Daily Collegian Promotion Staff will meet at 7 tonight in 103 Willard.
