

Egypt Plans to Clamp Full Control on Suez

CAIRO, April 24 (AP)—Egypt made public here today its plan to clamp complete Egyptian control on Suez Canal operations and toll money.

In New York the United Nations Security Council scheduled a meeting on the Suez issue Friday at the request of the United States.

The announced Egyptian plan provides some latitude in arbitration disputes that may arise in operating the 103-mile waterway the Egyptians nationalized last July 26.

Ike, Dulles Discuss Fall Of Hussein

AUGUSTA, Ga., April 24 (AP)—President Dwight D. Eisenhower and Secretary of State John Foster Dulles today discussed the crisis in Jordan as the eight-day-old government of Premier Hussein Khalidi resigned.

They declared they regard that nation's "independence and integrity as vital."

Warning to Communists

Their view of the situation seemed to amount to a warning against any Communist aggression in that Mideast area, and came after mobs rioted in Amman, Jordan, and drove Khalidi's Cabinet into urgent session.

Resignation of Khalidi's government and acceptance by King Hussein was announced by two Cabinet ministers.

Jordan's young King Hussein blamed his country's troubles on "international communism and its followers" in an interview with American newsmen.

Talks by Phone

Eisenhower, mixing work and vacation here, talked by telephone to Dulles, who was in Washington.

Their view that the independence and integrity of Jordan is vital was reported to newsmen by White House press secretary James C. Hagerty.

And Hagerty took pains to point out that part of the language they used was taken from the Mideast resolution which Congress recently approved.

Hagerty replied "Not to my knowledge" when asked whether Jordan has requested U.S. aid.

Asked then whether Eisenhower or Dulles have detected "signs of Communist activities in connection with the Jordan dispute, Hagerty said "no, I think that would be unfair to say."

Finn War Leader Makes Comeback In Socialist Party

HELSINKI, Finland, April 24 (AP)—Vaino Tanner, Finland's wartime strong man made a sensational political comeback today nosing out Premier K. A. Fagerholm for leadership of the powerful Socialist party.

The Russians had made it clear in advance they would be out of sympathy with the choice. In spite of such warnings, a party caucus elected the strong-willed elder statesman by a 95-94 vote.

Tanner, 76, often has been described as the Finnish leader most hated by the Russians. In a trial staged on Russia's insistence, he was sentenced after the end of World War II to 5½ years at hard labor as being "corresponsible" for Finland's participation on Germany's side in the war.

Finnish official sources said that according to Finnish practice it would be "logical" if Tanner assumed a key position in the Finnish Cabinet. Finland is now ruled by a Socialist-Agrarian coalition Cabinet headed by Fagerholm.

Tanner was premier in 1926-27.

Senate Body Hears Story Of Blonde

WASHINGTON, April 24 (AP)—With the reliability of a star witness at stake, the Senate Rackets Committee drew completely contradictory stories today from a blonde prostitute and a nervous, indicted Portland, Ore., deputy sheriff.

Mrs. Kathleen Lucille Cooper Weeks, a 25-year-old honey blonde in a clinging white dress, swore she signed a false affidavit hurling dope and prostitution charges at Portland racketeer James B. (Big Jim) Elkins because Deputy Sheriff George Minielly threatened her.

Minielly loudly denounced this turnaround testimony as "the greatest hoax ever pushed onto the American public."

A third witness, Mrs. Mary Childress, supported Mrs. Weeks' story.

Chairman John L. McClellan (D-Ark.) referred the conflicting testimony—some of it obviously perjured—to the Justice Department for "appropriate action."

"I'm getting a little tired of this committee being imposed upon by liars," he declared.

Elkins gave key testimony in the committee's public study of allegations that high officials of the Teamsters Union in Seattle, Wash., tried to muscle in on vice and gambling in Portland, with the help of city and county officials in Portland. As the chief accuser, Elkins' credibility is important.

Minielly said he believes Mrs. Weeks and Mrs. Childress, switched stories because Oregon's Dept. Atty. Gen. Arthur Kaplan threatened them with perjury charges unless they did. Minielly called Kaplan "a mental case."

Immediate Approval Urged for Shortway

HAZLETON, Pa., April 24 (AP)—Federal and state leaders have been urged by the Northeast Pennsylvania Industrial Development Commission to approve immediately the proposed Sharon-Stroudsburg Expressway.

Victor H. Diehm, PIDC president, said a resolution had been forwarded to federal and state authorities demanding that the proposed Keystone Shortway be placed on the federal interstate and national defense highway system.

However, the Post added, are two major reasons why Clark's name will be considered for the Democratic presidential nod—he is a proven vote getter and there are few other candidates of top caliber.

WASHINGTON, April 24 (AP)—Pennsylvania's junior U.S. Senator, Joseph S. Clark, might as well get used to the idea that his name will be discussed for the 1960 Democratic presidential nomination, the Saturday Evening Post said today.

The magazine said Clark still insists that he has no ambition of rising higher in the political world.

New Pressures Mount For Big 4 Arms Talks

LONDON, April 24 (AP)—Pressures were building up tonight for a new Big Four summit conference on ways to halt the nuclear arms race and try to set the world on the path toward peace.

Soviet Premier Nikolai Bulganin's Easter letter to Prime Minister Harold Macmillan was seen as a possible prelude to a Soviet proposal for a meeting of Bulganin, Macmillan, President Dwight D. Eisenhower and French Premier Guy Mollet.

The letter appeared also as a lever to move the British leader to visit Moscow soon.

The pressures, which flowed primarily out of the perils of the Middle East situation, came from some Asian members of the British Commonwealth and had the backing of influential groups in the ruling Conservative and the opposition Socialist parties in Britain.

Powers Favor Idea

Several world powers were known to favor the idea because of their concern about the unremitting East-West nuclear arms race.

Bulganin appealed to Macmillan to join in patching up British-Soviet relations and building peace between East and West.

Letter Perhaps Serious

After a preliminary study, the Macmillan government viewed Bulganin's letter as being partly propagandist in motive and perhaps partly a serious approach for a world settlement.

Some Western experts believe that the Soviets—despite their test-blasting of five nuclear weapons in 20 days—may be genuinely alarmed at the mounting pace of the nuclear race. The Soviets are fearful of H-bomb war, Bulganin frankly confessed.

Speed Record Set By Guided Missile

WASHINGTON, April 24 (AP)—A missile launched from the Patrick Air Force Base in Florida was reported today to have reached a speed of 9240 miles an hour, the fastest ever.

It was an X17 missile, made by Lockheed, strictly a research item and not designed as a weapon in itself. The Pentagon would not confirm the reports.

The highest speed heretofore reported for a test missile was 8000 miles an hour.

Speed tests of the 3-stage X17 have been conducted as a part of research into the heat problem encountered when the nose cone of a ballistic missile re-enters the earth's atmosphere after arching into space.
