

# High School 'Fair' Will Begin Today

Between 800 and 900 central Pennsylvania high school and junior high school students will arrive today with projects for entry in the 4th annual Science Fair to be held tomorrow at the University.

The students will exhibit scientific projects they have built to show original research or to demonstrate scientific principles.

## Rec Conference Exhibit to End At Noon Today

Three commercial, one community and a physical education exhibition are on display until noon today in the Temporary Union Building as a part of the Pennsylvania Recreation Conference.

The Butler recreation project exhibition is the work of University students who were required to plan a municipal park for all age groups for a one hundred acre site owned by the city of Butler.

Eleven problems were submitted as a part of the course in art design and administration of the landscape section of the Department of Horticulture.

The four students whose solutions were chosen are Gerald Carlisle, first prize; Charles Brown, second prize; Ronald Hartman, third prize; and Joseph Kondis, fourth prize.

Other highlights of the closing day of the 3-day conference are workshops, a luncheon meeting and general session.

Fred M. Coombs, assistant to the state secretary of state administration, will speak at the session on "Research Study Reveals Need for State Recreation Administration."

Coombs will discuss the basis for a statewide recreation program.

The projects must be registered and set up in Whitmore laboratory before 10 tonight and preliminary judging will be held at 8 a.m. tomorrow.

**\$1,000 Scholarship Prize**  
The first prize winner in the competition will receive a \$1,000 scholarship to the University provided by Sylvania Electric Products, Inc., and \$100 Savings Bonds will be awarded to other high school winners.

In the junior high competition, a \$50 bond will be awarded, and other prizes—pen and pencil sets, pencils and medals—are planned. The high school of the first prize winner will receive a plaque.

**Judging in Categories**  
Exhibits will be judged in the high school and junior high school categories and in the subdivisions of biological sciences, physical sciences, mathematics, and engineering.

From 9 a.m. to noon, judges will complete their work, talking with the student exhibitors about their projects.

Last year Leo Blumle, Emporium, won first prize. William Winter, State College, was awarded \$100.

Blumle is now a freshman in electrical engineering at the University, and Winter is a freshman in agricultural and biological chemistry.

**Luncheon to Be Given**  
Students and their teachers will be guests at a luncheon at the Hetzel Union Building at 11:30 a.m. The luncheon is sponsored by Haller, Raymond, and Brown, Inc., Herbert R. Imbt, Inc. and West Penn Power Co., all of State College.

At 12:45 p.m., Dr. George G. M'noy, of the U.S. Atomic Energy Commission, will speak in 119 Osmond on "Careers in Science—Why?", and awards will be presented.

The exhibits will be open to the public from 1:45 to 5 p.m.

## Students Enter Final Reading Festival Day

Students from 12 colleges and universities will participate in the final day of sessions for the 2-day ninth annual Pennsylvania Reading Festival here.

The prose session will begin at 9:45 a.m. in the Mineral Science auditorium with eight readings, conducted by Bernard Robbins, junior in arts and letters from Scranton.

**'Mystery' Prose**  
"The Macbeth Murder Mystery" will be read by Joyce Basch, freshman in arts and letters from Scranton, and Gerald Denisof, senior in theater arts from Philadelphia.

The drama reading session is scheduled to start at 1:30 p.m. in the Mineral Science auditorium, with James Gould, sophomore in education from Johnstown as chairman. There will be seven readings.

**Wilde, Thurber Readings**  
Included in the prose readings will be selections by Oscar Wilde, James Thurber, Dorothy Parker and William Saroyan.

Drama readings will be from such writers as Noel Coward, John Steinbeck, Tennessee Williams and George Bernard Shaw.

The reading sessions are open to the public.

## Cabinet OK's--

(Continued from page two)  
Sopko asked that Cabinet continue to have a parking committee. But he said there is no practical solution to the parking problem new because of the planned construction and because the University has not announced a course of action in solving the problems.

He reminded Cabinet that the University is conducting its own survey of the situation before announcing plans for the future.

Work on the excavation for the Carnegie Library was begun Tuesday, June 2, 1903.

## New Matric Cards Needed in Summer

Planning to go to summer school? If you are, that old matriculation card won't do you a bit of good. And your old student number isn't any good either.

If you have a card and number issued before Jan. 30, 1957, you can not use them to register for the summer sessions. They are void and will not be accepted for registration.

New matriculation cards and student numbers will be given the advance and new registrants when they register for summer course work.

**Given at Registration**  
The advance registrants will receive their new cards and numbers in the advance registration envelopes given at the time of registration.

The new registrants, however, must report to the balcony of Recreation Hall at the time of registration to obtain their cards and numbers. This will be the first step for them in the registration process.

Students will register for the inter-session of summer school on the morning of June 10; for the main session, all day, July 1; and for the post-session, the morning of Aug. 12.

**Register in Rec Hall**  
Registration for all three sessions will be held in Recreation Hall.

The inter-session will run from June 10 to 28, the main session from July 1 to Aug. 10, and the post session from Aug. 12 to 30.

**Advanced Work Given**  
The summer sessions have been planned especially to serve the needs of graduate students working toward advanced degrees; school supervisors, administra-

tors and in-service teachers who want additional subject-matter fields added to their present teaching certificates or who want refresher courses in the fields in which they are now certified.

Adult special students who are qualified to pursue with profit advanced academic, professional or vocational courses; and regular undergraduate students, veterans and recent high school graduates will also attend the sessions.

## Marine Officer Training

Marine Officer procurement teams will enroll students interested in the summer officer training at Quantico, Va., Monday, Tuesday and Wednesday in the Hetzel Union Building.
