

Brown Dominates Play In 13-4 Win Over Lions

By MATT PODBESEK

It took Jimmy Brown just one and a half periods to pile up a 6-2 lead over the Lion lacrosse men and prove that he is "better at lacrosse than at football." His coach, Roy Simmons, made this statement earlier this season, and Brown proved it in Saturday's 13-4 win on Beaver Field.

The unstoppable 220-pound football and lacrosse All-American played an important part in five of those first six scores, and finished a boring day with a total of four goals and five assists.

For the Lions, All-American candidate Bill Hess continued to lead the attack, although playing with a broken right thumb. Hess had the Lions only two scores in the second half.

On the defense, goalie Jim Houck had another busy day making 21 saves in the losing record. Houck now has 172 stops with five games remaining on the schedule.

Syracuse's All-American mention goalie, Oren Lyons, had 12 saves. He took the top honors in saves among the nation's goalies last year with a total of 274. Houck is in a good position to equal that mark.

Sophomore Johnny Behne sent Coach Earnie Baer's Lions into the lead with his second 18-second goal of the year. But that big Orange midfielder named Brown came up with the ball at 3:15 and evened the score.

Captain Lou Girard caught a beautiful pass from Glenn Fiscus at 9:40 and put the Lions into their second and last short-lived lead of the day. A minute later another "AA" candidate, Paul O'Donahue, slipped the second tying marker past Houck.

From then on, it was Brown and his Orange crew. Rudy Mendez scored at 11:41 to give the visitors a 3-2 first quarter lead. Brown made it 4-2 at 8:58; Roy Simmons took an assist from Brown at 9:06; Bob Coyne took another assist from Brown at 9:45, and Mendez and O'Donahue left out "Jimmy the Kid" in the final

score of the first half. Simmons had another, Brown had two more and O'Donahue had three in the final two periods.

A STITCH IN TIME

the **ATHERTON**
no excess padding

IT'S FOR REAL! by Chester Field

OUR LAWLESS LANGUAGE*

The laws that govern plural words I think are strictly for the birds.
If goose in plural comes out geese
Why are not two of moose then meese?
If two of mouse comes out as mice
Should not the plural house be hiee?
If we say he, and his, and him
Then why not she, and shis, and shim?
No wonder kids flunk out of schools
... English doesn't follow rules!

MORAL: The singularly plural pleasures of Chesterfield King make a man feel tall as a hiee. So don't be a geese! Take your pleasure BIG. Take Chesterfield King. Big length... big flavor... the smoothest natural tobacco filter. Try 'em.

Chesterfield King gives you more of what you're smoking for!

*\$50 goes to Paul R. Salomone, City College of N. Y., for his Chester Field poem.
\$50 for every philosophical verse accepted for publication. Chesterfield, P. O. Box 21, New York 46, N. Y.

"Yes, you'll start in the thick of things as a Burroughs engineer."

(Put yourself in this student engineer's shoes for a minute as he asks a Burroughs representative some important questions.)

Q. What do you mean I'll start "in the thick of things"?

A. I mean you'll start on the work you're trained for; you won't be a man who gets lost in a shuffle.

Q. What kind of work would be open to me at Burroughs?

A. Research and development in ballistic missiles, electronics, computation, data processing, optics, magnetics, communications and electro-mechanics—to mention a few.

Q. Will all my work be in defense?

A. No. Burroughs is a worldwide leader in the business machines and data processing fields. Of course, we've many defense contracts too. And that involves fascinating work in mechanics, electro-mechanics and electronics.

Q. Are all your plants in Detroit?

A. No. We're really on a global scale. Detroit's the home office, of course. Our big research center's in Pennsylvania. We have plants in New York, Michigan, New Jersey, California and Pennsylvania in the U. S., and in Canada, Great Britain, France and Brazil.

Q. What about my future at Burroughs?

A. We at Burroughs feel that young engineers are the key to Burroughs' future expansion. Though our engineering staff has increased seven times since the end of World War II, we are just on the threshold of our biggest expansion. This, plus our promotion-from-within policy, assures an outstanding future for engineers joining Burroughs now!

Q. What about retirement plans, hospitalization, vacations—you know, the fringe benefits, I think they're called?

A. Burroughs is noted for these! In fact, Burroughs pioneered many of them. You'll have hospitalization insurance for both you and your dependents, secure retirement, and educational aid programs, paid vacations and sick benefits, to mention a few.

Send for free booklet today. Why not get more information on the opportunities Burroughs offers engineering students. Find out how you, too, can get in on the ground floor of Burroughs' great expansion. Send for our new career booklet today. Write in care of:
