

U.S., Britain Deserted On Suez—Mollet

PARIS, May 15 (AP)—Premier Guy Mollet said tonight he felt France had been deserted by the United States and Britain on the Suez issue. He attempted to resign after 16 months in office.

Persuaded by President Rene Coty to stay in office, the Premier and the Cabinet then decided in a stormy session to ask the UN Security Council as soon as possible to order Egypt to observe the six principles approved last October for safeguarding free passage to all nations throughout the Suez Canal.

Mollet indicated he felt he should resign because his leadership failed France on a vital issue.

In a statement to newsmen, the Premier indicated he felt most keenly the decision by Britain—France's partner in the ill-starred invasion last fall.

Doctor Found Guilty of Murder

LEWISTOWN, Pa., May 15 (AP)—A Mifflin County jury today found Dr. Samuel L. Woodhouse Jr., 52, formerly of nearby Milroy, guilty of first degree murder.

After four hours of deliberation the jury of 11 men and one woman recommended life imprisonment. Dr. Woodhouse was convicted of the Aug. 6, 1953 slaying of his foster-daughter, Betsy, 16. The child suffered a fatal rifle wound in the back of the ear while napping.

Dr. Woodhouse was found semi-conscious on the floor of his consulting room several hours after the shooting. He later told police he had drugged himself.

A lunacy commission declared Dr. Woodhouse insane and sent him to Farview State Hospital. About a year ago he was moved to Harrisburg State Hospital where he was eventually declared sane and released to stand trial. The trial lasted eight days.

Book Club Selects Baudelaire Story

"Baudelaire: A Self Portrait," by Lois and Francis Hyslop, has been chosen by the Reader's Selection Book Club for distribution to its members.

Hyslop is an associate professor of history of art and architecture, and Mrs. Hyslop is associate professor of romance languages. The book was recently published by the Oxford University Press.

An earlier joint publication by the Hyslops, "Baudelaire on Poe," published by the Bald Eagle Press of State College, was included by Nation magazine in its list of "Selected Books of 1952."

Three Promoted To BX Sr. Board

Three students have been promoted to the senior board of the Book Exchange and 11 to the junior board.

The new senior board members are Stephan Billstein, Robert Jack and Philip Petter.

Staffers promoted to junior board are Barbara Ehrenkranz, Bryna Nelson, Sally Laine, Jean Kissick, Barbara Simon, Janet Sloves, David Fine, Audrey Jersun, Theodore Wexler, Sheldon DeSatnick and Louis Savadove.

Applications Available For AIM Judicial Board

Application blanks for the Association of Independent Men Judicial Board of Review are now available at the Hetzel Union desk.

The blanks must be returned by 3 p.m. tomorrow.

Independent men with a minimum of 2.0 All-University average may apply.

Ike's Soil Bank Program

WASHINGTON, May 15 (AP)—The House voted today to kill the Eisenhower administration's soil bank farm program at the end of this year. The revolt against the program flared after critics charged it was marked by waste and mismanagement.

The World at a Glance Benson Seeks More Authority

WASHINGTON, May 15 (AP)—Secretary of Agriculture Ezra T. Benson stressed the high cost of federal farm aid in urging an economy-minded Congress today to give him broader authority to set the level of farm price supports.

Under present legislation, Benson told the Senate Agriculture committee, farm aid will continue to be expensive. What's more, he added, there will be little progress toward solving the problems of surplus production.

As present surplus stocks are erased, he said, the law calls for raising price supports which "sets the stage for surplus No. 2" by encouraging farmers to grow more crops at the major change in the Eisenhower administration's farm program—but it wasn't to Benson's liking.

Bill Presented to Up State's Speed Limit

HARRISBURG, May 15 (AP)—The House Motor Vehicles committee today sent to the floor for action a measure boosting the state's general auto speed limit to 55 miles an hour.

The present limit is 50 miles per hour, except on sections of some four-lane divided highways where the limit is 60 m.p.h. They are U.S. 111 south of Harrisburg, U.S. 22 east of Harrisburg and the Schuylkill Expressway.

As originally introduced the measure would have boosted the limit throughout the state to 60 m.p.h.

Mail Clerk Calls Sorter 'False'

WASHINGTON, May 15 (AP)—A mail clerk told congress today that the post office spent \$100,000 turning out a machine that can sort letters only half as efficiently as old fashioned men can do it by hand.

"It's a fake," Paul A. Nagle, president of the National Postal Transport Assn., said of "Transorma," a machine employed in the Silver Spring, Md., post office.

Explosion Injures Four

BROOKHAVEN, N.Y., May 15 (AP)—A chemical explosion today injured four persons at the Brookhaven National Laboratory—one of the nation's principal atomic research centers.

One of the injured was reported in serious condition. Six other persons were exposed to corrosive acid vapors during rescue operations and required medical attention.

House Asked for Million

WASHINGTON, May 15 (AP)—A group of prominent Pennsylvanians asked a House appropriations subcommittee today to allocate one million dollars to begin construction of a large flood control dam at Kinzua, Pa.

Sen. Joseph S. Clark (D-Pa) told the committee it is "incredible" that hearings still are being held on the project, which was inspired some 20 years ago.

to
a young
man

with the world on a string

This June, the graduates of our engineering and scientific schools, pockets stuffed with job offers, have "the world on a string."

But there's another "string" attached to this fabulous situation: *A man can only accept one job offer.*

How can the graduate make up his mind wisely about his vital decision?

We're not going to try to tell you. And we're going to resist the temptation to point out the many advantages of working for IBM—much as our company, like every other, needs top-notch engineering and scientific talent.

We're merely going to leave you with one thought that may help you make your decision:

IBM's President has stated this policy: *"... I want this company to be known as the one which has the greatest respect for the individual."*
