## Israel Requests U.S. to Deter Aggression

WASHINGTON, Sept. 12 (AP)—Israel urged the United States today to make crystal clear that this country will meet any Middle East aggression with "all available deterrents."

The formal appeal was relayed from the Israeli government by Israeli Ambassador Abba Eban in a conference with Secretary of State John Foster Dulles.

Eban said after the meeting that he told Dulles that Israel believes massive arms shipments—such as those sent by the United States to Jordan and by Russia to Egypt and Syria—are the wrong answers to the Middle East problem.

"The Western Powers would be better advised to strengthen the social and economic situation in the Middle East," Eban said.

Eban disclosed officially that Israel is pressing the United States for fulfillment of its standing requests for economic aid. He said the two-year-old Israeli request to buy U.S. arms is shelved for the time being.

Van Zandt noted that since the beginning of the session last Jan. 3 unemployment conditions in distressed areas have become worse each month.

# Judge Bars Interference In Nashville Integration

NASHVILLE, Tenn., Sept. 12 (AP)—Federal Judge William E. Miller issued a strongly worded temporary court order today forbidding interference with officials carrying out his orders to desegregate Nashville schools.

Nashville city and school officials asked for the temporary restraining order to strengthen their hands against violence which has accompanied desegregation of first grades here.

The move in U.S. District Court came during the second day of uneasy calm which has replaced the violence accompanying admission of 15 Negro first-graders

to six formerly all-white schools Monday.

The violence reached its peak early Tuesday with a dynamite blast which ripped open one of the newly integrated schools. Impatient police promptly turned tough and made dozens of arrests as they kept all demonstrators well scattered away from the key schools.

Judge Miller set a hearing for Monday at 1 p.m. on whether an injunction should be issued to replace the restraining order.

He commented, "The facts as presented here literally cry out for issuance of an injunction at this time."
