3-Member APhiA Is Inactivated

Alpha Phi Alpha fraternity has been placed on inactive status by the Senate committee on student affairs.

The action was taken since the fraternity, with only three members, is below the minimum of 12.

The fraternity was below minimum membership last year but was not inactivated immediately by the committee.

The committee usually allows an organization a considerable grace period.

The ruling will not prevent the fraternity from rushing, so it still has a chance to bring its membership up to 12.

The fraternity is, however, not permitted to hold any social functions with women students nor is it permitted to enter intramural athletics.

Last year, while having only 10 members, the fraternity was able to win an intramural track trophy, with victories in the 100-yard dash, the broad jump and the high jump. The high jump win set a new intramural record of 5'10 1/2".

Despite the lack of a fraternity house, the members were able to maintain a unified organization. They were active in Interfraternity Council, one of the members holding the chairmanship of IFC's cultural committee.

The national fraternity was founded at Cornell University in 1907 and it has 196 chapters.

Concert Group Joined by 900

Nearly 900 memberships for the 1957-58 State College Concert Association were reported sold as this year's campaign came to a close at noon Saturday.

Sale of the memberships to non-students exceeded the figures of recent years; in addition, sales were down. Directors of the association attributed the drop to the newly organized Artists' Series.

At a meeting Saturday with musical consultant Harold Welch of New York City the directors of the association discussed possible programs to round out this year's series. It is expected that final bookings will be completed this week.
