The show will be a parody on the expansion of the university, and will feature more music and dancing than last year's original production, "Hat in the Ring." There will be five or six dances and 14 musical numbers.

A special part of the revue will include a 20-minute night club scene with varied specialty acts ranging from a ventriloquist to a dance duo.

A Campus-to-Career Case History

Bill Tyer discusses features of a training program for operators with Miss Edith Sanders.

"There's always something different"

"In my job, there's always something different coming along—a new problem, a new challenge. When I got out of college I wanted to make sure I didn't settle down to a job of boredom. There's never been a chance of that at Bell."

That's Charles W. (Bill) Tyer talking. Bill graduated from Texas Christian University in 1953 with a B.S. in Commerce. He went right to work with Southwestern Bell in Fort Worth.

How did he make his choice? Here's what he says: "From what I'd seen it was an interesting business with tremendous room for expansion. And a big feature with me was the opportunity to choose my location. I wanted to work in the Fort Worth area."

"I came in under the Staff Assistant Program for college graduates. I spent several weeks in each of the company's five departments. Then I went back for six months of intensive training in our Traffic Department."

"After training, I was promoted. One of my first jobs was setting up and supervising a customer service improvement program."

"In January, 1956, I was again promoted. My present job is assistant to the District Traffic Superintendent. My responsibilities include instruction of PBX operators, employe and public relations, and scheduling operators to handle calls to and from 185,000 telephones."

"No—there's no chance for boredom!"

Bill Tyer is typical of the many young men who are finding their careers in the Bell System. Other interesting careers exist in the Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer has more information about these companies.
