

Hoffa Barred As Union Head

WASHINGTON, Oct. 14 (AP)—James R. Hoffa, battling a barrage of federal court charges threatening to loosen his tight grip over the Teamsters, was barred today from taking over as the union's president.

U.S. District Judge F. Dickinson Letts granted a New York Teamsters member group a 10-day restraining order

Yugoslavia To Endorse E. Germany

BONN, Germany, Oct. 14 (AP)—Yugoslavia called the West's hand on the German unity issue today. The Foreign Office announced President Tito's Red regime plans to recognize Communist East Germany tomorrow.

It was a slap in the face for the Bonn Republic and a challenge to the solid front of Western powers have built up outside the Soviet bloc against the diplomatic ties with Premier Otto Grotewohl's Moscow-allied government.

A formal break threatened in relations between Belgrade and Bonn. Chancellor Konrad Adenauer's West German government has declared it will cut diplomatic links with any nation exchanging envoys with the Red rulers of the 18 million East Germans.

Adenauer's government, which recently granted a 300-million dollar, 99-year loan to Yugoslavia and agreed to pay 60 million dollars in war reparations, recognizes only the Soviet Union among nations having diplomatic ties with East Germany.

The Foreign Office announcement came after a four-hour meeting between Dusan Kveder, Belgrade's ambassador to Bonn, and Deputy Foreign Minister Walter Hallstein.

Leader Will Open Work On New Superhighway

ERIE, Pa., Oct. 14 (AP)—A few minutes after Gov. Leader turns the first spare of dirt tomorrow construction crews will begin work on the new 45-million-dollar superhighway linking the New York State Turnpike and the proposed Ohio Turnpike near Platea.

The new highway crosses Route 18 just north of Platea in Erie County.

Nobel Peace Prize Given to Pearson

OSLO, Norway, Oct. 14 (AP)—The 1957 Nobel Peace Prize was awarded today to Canada's Lester Bowles Pearson, who helped stop the fighting in Korea and the Middle East.

It was voted by a committee of the Norwegian Parliament, acting under the will of Alfred Nobel, inventor of dynamite.

The \$40,275 prize money will be handed to Pearson Dec. 10, anniversary of Nobel's death in 1896.

Ironically, the award comes to him four months after he lost his job as Canadian foreign secretary. He was a victim of June elections which ended the Liberal party's hold on the Canadian government.

The new foreign secretary is Sidney E. Smith, a Conservative.

The Awards Committee made no statement of its reasons for honoring Pearson, but it must have had in mind the work he did in the United Nations last fall after Britain and France joined Israel in attacking Egypt.

Peace was brought about there by formation of a UN Emergency Force to separate the belligerents, and Pearson is known as the father of that force.

He proposed it "keep the Palestine border at peace while a Pacific settlement is being worked

Britain To Back U.S. Space Plan

UNITED NATIONS, N.Y., Oct. 14 (AP)—Britain threw its support today behind a U.S. proposal to begin talks on control of outer space objects without waiting for an over-all agreement on partial disarmament.

Minister of State Allan Noble gave his country's endorsement in a speech before the 82-nation UN Political Committee.

He also declared Britain is unwilling to "gamble" its security by agreeing to an unconditional suspension of tests of nuclear weapons.

The British spokesman accused the Soviet Union of cynicism in "contemptuously dismissing" Western disarmament proposals.

Noble spoke in behalf of a 23-nation resolution calling on the UN to endorse in principle the Western disarmament proposals, including joint study of an inspection system designed to guarantee that objects sent through outer space are used for peaceful purposes.

Ambassador Henry Cabot Lodge told the UN last week the United States is prepared to enter into multination talks on control of outer space objects without waiting for agreement on other partial disarmament measures.

Noble said he welcomed the "evident sincerity" behind the moves by Japan and India to obtain suspension of nuclear weapons tests as a start toward disarmament.

But he declared Britain intended to go on testing "until we have a clear assurance of the security to be expected from real disarmament."

Faubus to Call Special Session

LITTLE ROCK, Ark., Oct. 14 (AP)—Gov. Orval Faubus today announced that he expects to call a special session of the Arkansas Legislature for the purpose of seeking a solution to the racial integration crisis at Little Rock Central High School.

However, after making the statement at a press conference, the governor later said that any session would not be called "for at least three weeks," and still was not an absolute certainty.

Only seven Negroes went to classes at Central High, where U.S. Army and National Guard troops have been on guard to enforce court-ordered racial integration since Sept. 24.

Queen Opens Parliament

OTTAWA, Oct. 14 (AP)—Queen Elizabeth II, resplendent in the gown she wore when crowned, opened Canada's Parliament today amid pageantry over-awed only by her own coronation.

against Hoffa, 44, the union's president-elect, from taking the reins from retiring Dave Beck.

Hoffa, due to face federal wire-tap conspiracy and perjury charges in New York tomorrow, said in Detroit he had "no comment whatsoever" on Letts' order, adding:

"It's a legal matter and will be handled by the lawyers."

Letts acted on the plea of a 13-man group of New York Teamsters that Hoffa was elected at the Teamsters convention at Miami Beach, Fla., 10 days ago by delegates seated to rig the voting for him.

Godfrey P. Schmidt, an attorney for the rank-and-file group, claimed more than 80 per cent of the convention delegates were shown by the convention proceedings to have been illegally chosen under terms of the union's constitution to represent their locals at the convention.

Martin O'Donoghue, representing Hoffa and the union in the proceedings, indicated he planned to go to the federal appeals court in an effort to get Letts' order cancelled.

O'Donoghue had succeeded before the convention started, in getting the appeals court and the Supreme Court to block an earlier order of Judge Letts to ban the convention from taking place—also on charges that convention delegates were handpicked.

In his new order, Judge Letts directed a hearing next Monday for the Teamsters Union to show cause why a preliminary injunction should not be issued to bar installing Hoffa and other newly elected Teamsters' officials.

The union also will be required Monday to show cause why Teamsters' funds should not be tied up and a court master put in charge with veto power over any union actions.

Hoffa, Detroit labor boss shoved into the union's helm by a well-gear organization at the Miami Beach convention—has figured along with Beck in mounting scandals dug up by the Senate Rackets Investigating Committee.

out," and pledged Canada's backing of it.

The United States supported the proposal and the UN Assembly approved it. The force, known as UNEF, is still operating.

Pearson in his nine years as foreign secretary engaged in many behind-the-scenes conferences on world problems.

He was a member of a UN committee which tried vainly to win a cease-fire in Korea in 1950. Later he was president of the UN General Assembly when an agreement was reached for the Korean armistice.

Turks Seem Undisturbed By Movement on Syria

ANKARA, Turkey, Oct. 14 (AP)—Turkish political circles spoke with marked restraint today about the surprise arrival of Egyptian soldiers in Syria. The Turks appeared undisturbed.

There were strong indications that Turkey—recently engaged in bitter exchanges with its leftist Arab neighbor—will study the troop movement long and seriously before saying anything publicly.

The news of the plane-guarded landing yesterday at the Mediterranean port of Latakia, 40 miles south of the Turkish border, apparently caught the government by surprise.

One Turkish source said about 5000 Egyptians may have been involved. Estimates in Washington and London were lower, ranging from 1000 to 1600.

Reports indicated most of the men are in armored units.

Political circles said the Foreign Ministry's reluctance to comment is due primarily to the fact it has as yet received no reports from its own representatives on the situation.

Secondly, these circles said, Turkey has recently established good relations with Egypt and is aware that Syria, Egypt and Saudi Arabia have a military treaty.

Thus, in this moderate An-

kara view "some military expeditions" between these countries might be normal.

There also is evidence here that Turkey might consider the Egyptian arrival as aimed not at Turkey but at Israel. The whole Arab bloc considers Israel an enemy with aggressive aims.

Pittsburgh Crippled By Transit Strike

PITTSBURGH, Oct. 14 (AP)—A strike of trolley and bus operators, the second in little more than three years, today paralyzed this steel center's main mass transit system.

An estimated 350,000 daily riders—workers, school children and shoppers—were forced to seek other means of transportation as 2200 operators struck against Pittsburgh Railways Co. in a contract dispute.
