By DON CASCIATO

The current wave of flu sickness on campus marred last night's intramural grid action as only six games were played on the local golf course field.

Many of the teams that did field a squad were only able to field a minimum number of players. And the attacks of most of the teams were hampered because of men who played in a weakened condition.

Results of the action were: the Lions beat Fortinsky, 19-0; the Timites swamped College Co-op, 38-6; Daddy O's defeated Fizz Eders, 13-0; Phi Kappa Tau edged Delta Chi, 6-0; Phi Mu Delta won over Alpha Gamma Rho, 9-0; Zeta Beta Tau squeaked by Pi Lambda Phi, 1-0, on first downs and Nittany 29 bested Nittany 24 on a forfeit, 1-0.

The Lions scored their first touchdown with 12 seconds to go in the first half. The touchdown came on a 9-yard pass from Bill Schafee to Chick McCartle.

In the second half the Lions completely dominated play. Billy Graham scored on a 32-yard pass from Chick McCartle, midway in the second half. Ed Strother kicked the extra point. The final tally came on a pass from Ed Strother to Don Underwood. The play had been set up on a Strother-to-Schafee lateral play which went for 11 yards.

Greenberg Fired From Cleveland Post

CLEVELAND, Oct. 16 (AP)—The board of directors of the Cleveland Indians baseball club at a special meeting this afternoon served notice on Hank Greenberg that his contract as general manager would not be renewed. No successor has been discussed.

Explaining the board's action, William Daley, chairman, said, "It was generally felt that we

had to make a change at this time. The attendance has been declining, but no one can say whose fault it is."

Pressed for elaboration, Daley said the board's feeling resulted from criticism of Greenberg in the newspapers and bitter complaints against the general manager by the baseball fans, who have blamed him for everything

from not being able to get a good seat at the stadium to failure to televise more games.

How KEARFOTT'S Training Program Works...

A "learning by doing" philosophy is basic at Kearfott. As an assistant Project Engineer, you are given assignments in several engineering laboratories to determine in which you can make your best contributions and find your greatest satisfaction. Under the guidance of senior engineers and specialists, each man takes his project through from inception to final production, thus acquiring a broad experience background. Success depends on individual initiative and resourcefulness.

KEARFOTT

is interviewing on your campus

Friday, October 18

Make your appointment now with your College Placement Office

Kearfott is one of the country's foremost designers and producers of directional gyro compass systems... a recognized leader in the development of gyros, synchros and servomechanisms for industry and the armed forces, with increasing emphasis on the development of servo systems and components for the automation of industry. And Kearfott's roster of customers reads like a cross-section of American industry.

Young engineers at Kearfott have a bright future before them as the development of engineering talent is an integral part of the company's policy. Small-company flexibility backed by large-company stability and resources... plus decentralization into 7 small autonomous plants provide for the young engineer an atmosphere conducive to rapid advancement. The salaries are high, and the benefit program liberal.

The location, too, provides advantages—in the suburban living in northern New Jersey, within easy reach of the cultural, educational and recreational facilities of New York City.

NOTE: If you cannot attend an interview on this day, please write for more information to Robert J. Sperl, Technical Placement Supervisor, Engineering Personnel Office.
