

# Democrats Cheered By Elections

WASHINGTON, Nov. 6 (AP)—Decisive victories in off-year elections cheered the Democrats today. The results left Republicans concerned over their party prospects in the 1958 fight for control of Congress.

Although there were no party overturns in significant state and municipal contests held Tuesday, the Democrats won by sweeping majorities in retaining the New Jersey and Virginia governorships and the New York City mayoralty.

They gained some mayors' seats from the GOP in Upstate New York and Pennsylvania.

Republicans found some consolation in holding on to two House seats in GOP strongholds in New Jersey and Pennsylvania formerly held by their party. They also upset a couple of Democratic city administrations in Connecticut.

Political observers found little indication that the Negro vote had helped Republican candidates to any extent in Northern races as a result of President Dwight D. Eisenhower's use of federal troops to enforce court-ordered integration of Little Rock's Central High School.

The White House issued a statement saying the election results made it clear that the GOP and its candidates "have a fight on their hands" if they are to win in 1958.

# Khrushchev, Mao 'Attack' U.S. Terrorists Attempt Lebanese Bombing

MOSCOW, Nov. 6 (AP)—Nikita Khrushchev and Mao Tze-tung, the two top men in world communism, made a double-barreled attack today on the United States, gibing at its lag on launching Sputniks and accusing it of plotting trouble all over the world.

Khrushchev, the Soviet party boss, and Mao, the master of Red China, spoke from the same platform before 17,000 delegates here from 60 nations to mark the 40th anniversary of the Bolshevik Revolution.

Both predicted an inevitable victory of communism over capitalism. Both proclaimed a desire for world peace.

Khrushchev proposed a world summit conference to rule out the possibility of another big war. He said the enormous devastation of such a war would be the death of capitalism and he made a plea for an understanding, especially,

with the United States on disarmament.

He predicted the Soviet Union would beat the United States at its own game and surpass it in industrial production in 15 years. He again charged that the United States was inciting Turkey and Israel to attack Syria.

Mao, who received a huge ovation, praised Soviet "firsts," including the earth satellites, and hailed as wise the political measures of the Soviet Communist party from the de-Stalinization program down to the ouster of Marshal Georgi Zhukov.

Khrushchev's 3-hour speech was filled with taunts at the United States.

The launching of Sputnik I and of Sputnik II, he said, "struck fear and confusion into the camp of the enemies of communism."

Now, he added, the Americans are pretending they never were in a race with the Soviet Union.

# UN Disregards Soviet Threat

UNITED NATIONS, N.Y., Nov. 6 (AP)—The United Nations brushed aside today the threat of a Soviet boycott and called for new private talks aimed at breaking the disarmament deadlock.

By a thumping majority of 57-9, the 82-nation Political Committee approved a resolution calling for the United Nations Disarmament subcommittee to resume its negotiations with priority given to proposals by the Western Powers.

The Soviet Union failed to find any support outside its own bloc in opposing the proposal. Among the 15 nations abstaining were Syria, Yugoslavia, India, Egypt and other Arab nations. South Africa was absent.

BEIRUT, Lebanon, Nov. 6 (AP)—Terrorists tried to dynamite Lebanon's Parliament and Government House today. A government official said it was part of a wave of terror led by Communists and an outlawed Syrian political party advocating a Greater Syria.

Reliable reports said the nation's Security Council decided to urge the government to declare a state of emergency and call in the army to back up security forces.

WASHINGTON, Nov. 6 (AP)—Secretary of State John Foster Dulles called in some Truman administration people today in his search for new ideas on how to draw the free world closer together to meet Russia's military-scientific challenge.
