

# Pentagon to Have Agency For Advanced Research

WASHINGTON, Dec. 5 (AP)—A new top level "Advance Research Projects Agency" to direct study and eventual creation of such things as space platforms and weapons still undreamed of by the armed forces will be set up in the Pentagon before the end of this month.

This is one of a series of developments or problems arising in the wake of Russia's long, threatening strides in technology.

On the basis of talks in responsible quarters today there are those other points.

A decision must be made soon whether to switch from the current effort to build a high performance, militarily useful nuclear clear powered airplane to a crash

program designed to get an atom driven air-craft aloft before Russia does. It is recognized that the Soviets would reap more propaganda laurels if it got one in the air, even though the craft might be of doubtful military value.

A drive is on to have one squadron of Air Force Thor intermediate range ballistic missiles—IRBM—and one of Army Jupiters in being by the end of 1958. Each squadron would have 15 missiles.

The boast of Russia that she has her IRBMs "zeroed in" to hit every major Allied base in Western Europe on instant notice is challenged. Present missiles, either Soviet or American, aren't that accurate or reliable, it is contended.

Who in the United States government would decide whether conventional or nuclear weapons would be used in event of the sudden outbreak of less-than global war is still uncertain.

# '58 GOP Labor Legislation Aimed at Union Racketeers

ATLANTIC CITY, N.J., Dec. 5 (AP)—The Eisenhower administration today took the wraps off its 1958 labor legislation program aimed at smoking out crooks and racketeers from the labor movement.

It includes provision for full disclosure of union funds, secret ballot election of union officers, tightened bribery restrictions and broad recommendations for revision of the Taft Hartley Act.

The program was outlined in detail by Secretary of Labor Mitchell to the second constitutional convention of the AFL-CIO and was greeted by polite applause from delegates. The federation executive board will take up the program at its meeting Tuesday.

Mitchell said the proposals will leave the basic responsibility for "honest and democratic trade unionism right where it now is—with you."

But, he added, they will correct conditions which appear "to have encouraged abuse and oppression on the part of some people."

He asserted the administration recommendations will be presented to Congress by the President in January.

He said the proposals revealed today will be in addition to the administration's regular labor program calling for such things as a broadened minimum wage.

AFL-CIO President George Meany earlier had emphatically rejected any idea of a deal with the giant Teamsters or any other union in fighting labor corruption.

# Scientist Says Russia Preparing Sputnik III

VIENNA, Austria, Dec. 5 (AP)—An American scientist who has just spent 3½ weeks visiting laboratories and scientific institutes in the Soviet Union said tonight the Russians are preparing to launch Sputnik III. He said it will weigh a ton.

# A Girl Told Me

A girl told me her favorite dance was the Mil Ball because of all the extras . . . uniforms . . . formal invitations. If you want the Mil Ball to be your girl's favorite dance then give her another extra, dinner at Duffy's. It's the extra that counts!

# Dutch Encounter Possible Expulsion From Indonesia

JAKARTA, Indonesia, Dec. 5 (AP)—An Indonesian government official said today Indonesia intends if possible to repatriate the 46,000 Dutch people living in this sprawling island republic. A later government announcement denied that expulsion of Dutch nationals had been ordered or is being considered.

# Hammarskjold Settles Israeli, Jordan Dispute

DAMASCUS, Syria, Dec. 5 (AP)—UN Secretary General Dag Hammarskjold moved on here today after settling an Israeli-Jordan dispute and made a peaceful agreement with Syria. It would reinforce the UN truce supervision organization aiming to ease tension on the Syrian Israeli frontier.

No details of steps to reinforce the truce organization's work were disclosed immediately.

A joint communique said they agreed on the "necessity to bolster the authority of the UN Palestine truce observation organization and of the Mixed Armistice Commission for more effective application of the general armistice agreement" of 1949.

Issuing the denial that expulsion had been ordered, a Foreign Ministry spokesman referred to a statement Wednesday by Premier Djuanda that no pressure was to be applied to force the Dutch to leave the country at present.

The Premier said the "lives and property of all Dutch subjects here is guaranteed by the government. If they wish to leave the country they will be given every assistance."

Earlier today Maj. Gen. Abdul Harris Naustion, chief of staff, made a nationwide radio broadcast calling on the Indonesian people to avoid any individual actions against the Dutch.

The announcements on the future status of Dutch citizens in Indonesia came as the government asked the Netherlands to close all but one of its eight consulates.

The Dutch until 1949 ruled the 3000 East Indies islands now known as Indonesia.
