

## 3 Residence Halls Get Longer Meal Periods

### Time Extended By 35 Minutes

The period of serving meals in McElwain, Simmons and Atherton Halls will be lengthened by as much as 35 minutes to reduce the cafeteria lines made longer by South Halls coeds, according to Robert C. Proffitt, acting head of food service.

Redifer Hall, the dining area for the new residence halls, will not be ready for opening during the spring semester. Preliminary work in Redifer Hall will not begin until March 1, according to Proffitt.

"It will take six to eight weeks to thoroughly clear the area, to complete installation of equipment, to train personnel and develop occupational procedure," he said.

Cross, Cooper and Hoyt Halls will be completely occupied next semester.

"It will be necessary to continue to provide food service for the women students living in the South Halls in other dining halls in the area, including those in McElwain, Simmons and Atherton Halls," Proffitt said.

The period of lengthened service in the dining halls will continue until all dining units are in full operation. A notice describing the new meal periods will be posted in the units affected.

Coeds living in Haller, Lyons and Cross Halls will eat in McElwain dining hall; those in Hibbs, Stephens and Ewing Halls will eat in Simmons and those in Cooper and Hoyt Halls will eat in Atherton.

Additional coat racks have been supplied in McElwain and Simmons Halls for the convenience of the students eating outside their residence halls. Racks also are being built for use in Atherton Hall. New entrances to the serving lines of the dining halls in McElwain and Simmons Halls also have been provided.

The dining period for men students living in the Nittany dormitories will be extended because one of the three serving lines will be eliminated, Proffitt said. The number of serving lines will be reduced because the number of students who will be living in the Nittany-Pollock area also will be reduced next semester.

A number of Pollock area halls will be vacated as men students move to fill up the rooms in Thompson Hall. Thompson Hall will be vacated by coeds who have lived there for the past several years.

## Lion Proposes Weather Party

The Nittany Lion announced this morning he will form a fifth campus political party.

He said, "My new party is sure to appeal to all students as I propose the end of compulsory winter. We have had enough of these cold and snowy Nittany Valley winters."

The first clique meeting of the new Anti-Winter Party will be held next week in the Lion's own steam-heated den.

Compulsory winter will continue tomorrow with cold, windy weather and snow flurries. The high will be 18-23 degrees.

**FUTURE PARKING LOT**—The State College Parking Authority is paying \$50,000 for this property at 112 W. Beaver Ave. to convert it into one of a series of downtown parking lots. Borough Council on Monday approved a \$15,000 loan to the authority to be used as a down payment on the property.

## Schilling Says ROTC Can Aid General Ed

By RALPH MANNA

Dean Harold K. Schilling of the Graduate School, chairman of the Senate Committee on Educational Policy which drafted the original CD-ROTC proposal, last night told the Liberal Arts Student Council that ROTC can be geared to meet the objectives of general education, especially readying the student for his duties as a citizen.

Schilling said the first two years of compulsory basic ROTC are excellent as tools of general education while the two final years of the advanced program are for special education or making officers.

Schilling said the proposals made by the Senate committee were just that—proposals. They had nothing to do with the present ROTC program.

He said ROTC should be compulsory but organized differently than it now is. The ROTC staff, he said, should be much more completely integrated with the other faculty members. In fact, he added, the staff should belong to some faculty group.

Schilling proposed that the ROTC staff have a civilian coordinator who would be their chairman and spokesman. He also proposed the exchange of civilian and military instructors in teaching courses.

The University, not the government, should determine what should go into an ROTC program, he said, ROTC should be treated as any normal University subject.

If the University takes over the ROTC responsibility from the government, Schilling said, then the line between civil defense and ROTC will be very thin so that the two could be fused.

The College of the Liberal Arts should be the home of ROTC because it should be the heart of the University, he said. He called it closest to the arts and sciences college which is unique and distinguished from those colleges.

# Extra \$1.3 Billion Requested by Ike For Air, Missiles

WASHINGTON, Jan. 7 (AP)—Plans to channel an extra \$1,370,000,000 into missiles and air defenses, starting immediately, were presented to Congress today by President Eisenhower.

The chief executive asked for \$1,260,000,000 in new money.

About 119 million of it is to be spent before June 30, pushing defense expenditures into the neighborhood of \$38,900,000,000 for this fiscal year.

Eisenhower also asked Congress to approve the transfer of 110 million dollars, in Defense Department funds already appropriated, to the missile and related programs as an additional shot in the arm.

He proposed to use 10 million of transfer funds to start the wheels turning in the government's newly created space agency, which will deal with satellites, anti-missile missiles and space vehicles.

All these emergency measures went in the direction of meeting congressional criticism of the way in which the administration has responded to Russia's space challenge.

Here is what the administration intends to do with the supplemental appropriation of \$1,260,000,000 requested today.

Spend 683 million of it for the development and procurement of long range ballistic missiles, including construction of launching sites on land and aboard submarines.

Invest 329 million in a detection system for defense against enemy ballistic missiles. This includes work on anti-missile missiles.

Put 219 million into accelerating and expanding the construction of dispersal and alert facilities for the Strategic Air Command, the nation's main aerial striking force.

Spend 29 million to extend the Semi-Automatic Ground Environment System for air defense.

## Reds Deny Knowing Of 'Space Man'

MOSCOW, Jan. 7 (AP)—Soviet officials in a position to know said tonight they have no information about a Russian rocket carrying a man into space.

A spokesman for the Soviet Academy of Sciences and the Committee for Cultural Relations with Foreign Countries made this response to questions about yesterday's unofficial reports that a Soviet rocket shot 186 miles up shortly after Jan. 1 and that the man aboard parachuted successfully.

A Soviet Foreign Office spokesman, questioned along similar lines by Western correspondents, said he was unable to say anything about the accounts published abroad. Asked if the Soviet government would have an announcement on the subject, the spokesman said so far as he knew there was no communique in sight.

A Moscow radio broadcast heard in London quoted the official Soviet news agency Tass as saying it knew nothing of a manned rocket flight. It quoted the agency's deputy director as saying it was "completely incomprehensible" to him why Western news agencies had obtained such a report. In Washington, the White House said it is not known there if the story is true or not.

A Moscow radio broadcast monitored in the West Sunday said, "There is no actual flight by a man in a cosmic ship today." The home service broadcast was a fictional account of the launching of a manned satellite into orbit and a radio conversation between the passenger and ground station.

# Spring Registration Schedule Revised

A corrected registration schedule is now being distributed by the scheduling office according to Ray V. Watkins, University scheduling officer.

Due to a clerical error in the scheduling office, students whose name began with the letters Has and who registered in the last period at the beginning of this semester were moved to the top of the list for spring semester registration.

Watkins said this was against the normal procedure of moving slowly back to the top.

The original schedule has already been distributed and was printed on the back of the spring orientation booklet which has been sent out.

The mistake was first realized by a few students who brought the matter to the attention of All-University President Robert Steele. Steele then went to see Watkins, who acknowledged the mistake.

Steps were then taken by Watkins to correct the schedule. The correct schedule will be printed on the Timetables which will be available on Jan. 15 and will also be sent to all prospective students who received the orientation booklet.

The corrected schedule appears to the right.

## Registration Schedule

WEDNESDAY MORNING January 29	THURSDAY MORNING January 30	FRIDAY MORNING January 31
8:00 Rif-Rol	8:00 Bri-Buc	8:00 Joz-Kea
8:15 Rom-Rou	8:15 Bud-Cal	8:15 Keb-Kil
8:30 Rov-Say	8:30 Cam-Cat	8:30 Kim-Koc
8:45 Saz-Sch	8:45 Cau-Civ	8:45 Kod-Kre
9:00 Sci-Sek	9:00 Ciw-Col	9:00 Krf-Lam
9:15 Sel-Sha	9:15 Com-Coy	9:15 Lan-Lea
9:30 Shb-Sid	9:30 Coz-Czz	9:30 Leb-Lov
9:45 Sia-Sme	9:45 Daz-Dee	9:45 Lew-Loc
10:00 Smf-Sny	10:00 Def-Din	10:00 Closed Period
10:15 Snz-Sta	10:15 Dio-Dra	10:15 Lod-Lyt
10:30 Stb-Sto	10:30 Drb-Eco	10:30 Lyu-Map
10:45 Stp-Svz	10:45 Ecp-Eps	10:45 Maq-Mas
11:00 Swa-Tha	11:00 Ept-Far	11:00 Mat-McM
11:15 Thb-Tod	11:15 Fas-Fis	11:15 McE-McM
11:30 Tos-Urb	11:30 Fit-Foz	

  

WEDNESDAY AFTERNOON January 29	THURSDAY AFTERNOON January 30	FRIDAY AFTERNOON January 31
1:00 Urc-Wap	1:00 Epa-Ful	1:00 McN-Met
1:15 Waq-Wat	1:15 Fum-Gen	1:15 Meu-Mio
1:30 Wau-Wen	1:30 Geo-Goj	1:30 Mip-Moo
1:45 Weo-Wil	1:45 Goj-Gra	1:45 Mop-Mun
2:00 Wim-Wol	2:00 Grb-Gro	2:00 Muo-Nic
2:15 Wom-Yoc	2:15 Grp-Ham	2:15 Nid-Ope
2:30 Yod-Z	2:30 Han-Har	2:30 Closed Period
2:45 A-Ana	2:45 Has-Heg	2:45 Opf-Pal
3:00 Anb-Aus	3:00 Heb-Hic	3:00 Pam-Pel
3:15 Aut-Ban	3:15 Hid-Hok	3:15 Pem-Pob
3:30 Bao-Bec	3:30 Hol-How	3:30 Poc-Pot
3:45 Bed-Ber	3:45 Hox-Irw	3:45 Closed Period
4:00 Bes-Biz	4:00 Irx-Jod	4:00 Pou-Reh
4:15 Bja-Bor	4:15 Joe-Joy	4:15 Rei-Rie
4:30 Bos-Bri
