

Thompson Men Ed Courses for Housewives To Be Seated To Interpret News Events On WH Council

The adult homemaking education program has designed a new course this spring for housewives who "want to know what is going on outside the boundaries of their homes."

"Exploring Behind the Headlines" is planned especially for women who have difficulty keeping up with the interpretations of the news and will attempt to broaden their knowledge of world and national news events.

Lee Ranck, graduate student in journalism who received his B.A. in journalism from the University, will lead the discussions. Rather than featuring lectures, the course will encourage informal discussions of news events selected by the group. William Hurrie, who rang the Liberty Bell on the first U.S. Independence Day, is buried in the graveyard of Old Pine Presbyterian Church in Philadelphia.

The West Hills Council last night added a section to the by-laws of its constitution permitting representatives of Units 1 through 7 of Thompson Hall to become members of the council.

The council also voted that a two-thirds vote of the constitutional voting members instead of a majority vote of the council be needed to amend the by-laws.

William Pohts announced his resignation from the chairmanships of the housing committee, the firesides committee and a special committee to investigate the possibility of converting Waring lounge into smaller rooms.

President Carl Smith appointed Robert Gorniak, senior in electrical engineering, temporary housing committee chairman and Edward Frymoyer, junior in engineering science, chairman of the Waring lounge committee.

Michael Saboleik, junior in business administration, was named adviser to the council to succeed Morgan Lewis who graduated in January. Saboleik had been adviser to the recreation committee.

Smith said all committees in the council are open for new members.

The first meeting will be from 7:30 to 9:30 p.m. next Tuesday at the Junior High School. The discussion topic will be "The Demand for Increased Science Education and the Resulting Impact on Our Schools."

No fee will be charged. Interested persons may register from 7 to 8 tonight in the State College Junior High School cafeteria.

Ever meet a trusting soul?

"You can't go wrong looking for a job these days," he assures you. "Opportunities are great all over. All the good companies have about the same to offer."

Do they? A lot of not-so-trusting souls think otherwise. They suspect that some companies have much more to offer than others, and they want to find out which those are.

We'll help. We want to tell you how much the Bell Telephone Companies offer in the way of advancement opportunities, training, pay and benefits, professional associates and working conditions. No matter what your educational background—the arts, the sciences, business or engineering—make a date to talk with a Bell interviewer when he visits your campus. You can also get information about the careers these companies offer by reading the Bell Telephone booklet on file in your Placement Office, or by writing for "Challenge and Opportunity" to:
