

Diplomatic Issues Change In U.S.-Soviet Relations

WASHINGTON, Feb. 7 (AP)—U.S.-Soviet relations today took a new and possibly significant twist involving the travels of two ambassadors and a once-obscure Polish plan for barring atomic arms in Eastern Europe.

It was a day that saw:
1. U.S. Ambassador Llewellyn Thompson brief President Eisenhower's Cabinet on prospects for an East-West summit conference this year, then head back by air to his post in Moscow.
2. New Soviet Ambassador Mikhail Menshikov, moving almost as fast as the 500 m.p.h. Soviet jet airliner which brought him from Moscow yesterday, swap pleasantries at the State Department with Secretary Dulles.

"No, we didn't settle the disarmament question," Dulles chuckled to newsmen. "Not yet, anyhow," said Menshikov. Their meeting apparently was taken up with diplomatic niceties pledging both sides to work for peace.

3. The State Department spoke kindly of Communist Poland's peaceful intent, but pulling back publicly from a secret critique, cabled its European missions calling the Polish proposal "extremely dangerous."

Thompson plans to fly Monday to West Germany. Next Tuesday he will arrive back in Moscow.

Thompson's Russian counterpart, a blue-eyed blond with a ready smile, lost no time in taking charge of the Soviet Embassy here. With unprecedented speed, he called on Dulles and arranged for a formal presentation of credentials next week with Eisenhower.

The Polish plan for an atom-free zone was the main topic at the daily news conference of State Department press chief Lincoln White.

No Tax Cut Ahead, Says Anderson

WASHINGTON, Feb. 7 (AP)—Secretary of the Treasury Robert B. Anderson said today the current economic situation "does not warrant" a tax cut.

Anderson told the Senate-House Economic Committee that tax changes should be used to stimulate the economy only when "conditions are sufficiently adverse to warrant it," and, he said: "It is our judgment that the present condition of the economy does not warrant such action now."

Although he said he would not be surprised by more "bad news" from the economic front before things get better, Anderson said he was not even prepared to discuss the possibility of enacting a standby tax cut bill, to be used if the recession goes beyond a certain specified point.

Both the Senate and House Appropriations committees approved an administration request for an additional \$43,400,000 for unemployed payments to jobless war veterans and former federal employees out of work. The Senate committee's action represented an unusual speedup, taken after a Labor Department official said the money is "needed immediately."

Cold Wave Strikes As East Shivers

By the Associated Press
Cold rolled across the eastern half of the country yesterday like a wave of ice water.

Temperatures in the Midwest were expected to fall during the night to 25 below zero in northern Minnesota and to drop below the zero mark as far south as Nebraska and Illinois.

Up to two inches of snow made roads hazardous in the Texas Panhandle and figured in at least five traffic deaths.

Town Frosh Coeds to Meet

Freshman women who live in State College will meet from 12:30 to 1 p.m. Tuesday in the Grange recreation room.

Romney Urges Big Three Split

WASHINGTON, Feb. 7 (AP)—American Motors President George Romney urged Congress today to split up the power of the corporate and labor giants in the automobile industry.

Romney, whose company produces the Rambler, recommended legislation requiring General Motors and Ford to break up into smaller companies. He also urged that the United Auto Workers Union be compelled to divide its bargaining forces.

Such concentration of economic power should be limited, Romney told the Senate Antitrust and Monopoly subcommittee investigating pricing policies in the auto industry.

Romney predicted this spring's auto wage bargaining may send another block-buster chain reaction wage-price spiral across the nation unless his proposals are adopted.

Stassen to Air Plans With Ike

WASHINGTON, Feb. 7 (AP)—Harold Stassen discussed his future plans today with President Eisenhower and said afterward he would decide soon whether to seek the governorship of Pennsylvania.

The controversial onetime governor of Minnesota hinted that he would. But, he said, he is continuing for now as White House disarmament specialist despite widely reported differences with Secretary of State Dulles. He met for 45 minutes with Eisenhower at the White House in a meeting heralded in advance as a showdown arranged to hasten his exit from the administration.

Press secretary James Hagarty promptly confirmed this. He added that Stassen's future in the administration was discussed, as well as his work as disarmament specialist.

GE Man to Head Space Projects

WASHINGTON, Feb. 7 (AP)—Secretary of Defense Neil H. McElroy appointed a director of space projects today and tentatively selected the Air Force to man any space ships that might come out of the program.

Roy W. Johnson, a vice president of the General Electric Co., was named to head the new Advanced Research Projects Agency.

SUSPENSION STORY—Chuck Steger, M.E. '52, probing dynamic properties of new Air Spring developed by Von Polhemus (L.). A nationally recognized authority on suspension systems, Mr. Polhemus directs Structure and Suspension Development Group of GM's Engineering Staff, helps guide Chuck in his professional career.

Because engineering is a profession at GM -we offer you a career- not a job

ONE REASON engineering standards at General Motors are so high is that GM recognizes engineering as a profession. And the men who engineer the many different products made by General Motors are respected for the profession they practice.

That is why, when you are invited to join General Motors as an engineer, you don't simply take a job—you start a career.

It is a career that is rewarding both professionally and financially—starting on your first day of association with General Motors at any one of its 35 divisions and 126 plants in 70 cities and 19 states.

During your early days at GM, for example, you work with a senior engineer who guides your career along professional lines.

You are also actively encouraged to pursue your education towards an advanced degree. For we at General Motors recognize that, in doing so, you will become more valuable to us and the engineering profession.

You are given the opportunity to obtain professional recognition through participation in engineering society forums, presentation of technical papers, winning of patents and other recognition of your accomplishments.

And you are also encouraged to take an active role in your community's affairs—because a truly professional man is a good citizen as well as a good engineer.

All this is for a reason—and a good one.

Many of the men who will fill the key positions at GM in the future are the young engineers joining GM today. This is not theory, it is fact. For 14 of our 33 Vice-Presidents are engineers, 23 of our 42 Division General Managers are engineers, too.

Today we are looking for young engineers—such as you—who may fill these positions tomorrow. The rewards—both professional and financial—are substantial. If you feel you have the ability, write us. It could be the most important letter of your life.

June graduates!
A General Motors Representative will be on hand to answer questions about job opportunities with GM.
February 10 thru 14

GM positions now available in these fields:
MECHANICAL ENGINEERING • ELECTRICAL ENGINEERING
INDUSTRIAL ENGINEERING • METALLURGICAL ENGINEERING
AERONAUTICAL ENGINEERING • CHEMICAL ENGINEERING
CERAMIC ENGINEERING • MATHEMATICS
INDUSTRIAL DESIGN • PHYSICS • CHEMISTRY

AFL-CIO Orders Curb on Corruption

MIAMI BEACH, Fla., Feb. 7 (AP)—The AFL-CIO today ordered quick union compliance with anti-corruption curbs to avoid possibly stricter control being legislated by Congress.

President George Meany and the AFL-CIO Executive Council directed the federation's 137 unions to comply fully with the AFL-CIO ethical practices codes by April 15.

It was frankly conceded some unions have been lagging in adopting labor's own set of anti-corruption rules.

CLASSIFIED

ADS MUST BE IN BY 11:00 a.m. THE PRECEDING DAY.
