

England Reports Wonder Missile

LONDON, Feb. 13 (AP) — Britain announced today its scientists are rushing work on a new wonder missile of medium range that can be fired with a nuclear war load from underground bases. The weapon was billed as superior to those in the U.S. arsenal.

The announcement also disclosed that British air fleets are being equipped with hydrogen bombs made in Britain.

Democrats Plan Anti-Recession Undertakings

WASHINGTON, Feb. 13 (AP) — Democratic leaders in Congress went to work on a 10-point anti-recession program today and also planned to review the possibilities of a tax cut this year.

Sen. Lyndon B. Johnson (D-Tex.), the party's chief in the Senate, has asked the chairmen of six key committees there to come up quickly with legislative proposals aimed at relaxing credit, multiplying public works projects and generally creating more jobs.

House Speaker Samuel Rayburn (D-Tex.) disclosed the plan to have another look at the tax structure in the light of Tuesday's report that almost 4 1/2 million Americans are unemployed.

Rayburn told a news conference the Democratic leaders won't review the situation and see where a tax cut, if there is one, will do the most good, and determine whether the budget will stand it.

One measure advocated by Johnson is a post office construction bill. President Eisenhower proposed a two-billion-dollar modernization program for the postal service earlier in the week.

Dilworth Non-Committal

WASHINGTON, Feb. 13 (AP) — Asked today whether he will resign as mayor and run for governor of Pennsylvania, Mayor Richardson Dilworth of Philadelphia replied:

"I honestly don't know."

These were the salient points of a government White Paper prepared by Defense Minister Duncan Sandys. It constituted an interim report on a five-year program initiated last year to streamline the defense forces for the nuclear-missile age.

In blunt language the White Paper warned the Kremlin that any Soviet aggression would force the West to hit back with strategic nuclear weapons from bases which will dominate every target of importance in the Soviet Union.

This would, however, be a mournful prospect, the report said. It emphasized that the only way to change the prospect is for the East and West to agree on comprehensive disarmament by all nations, coupled with comprehensive inspection and control by a world authority. "Nothing less than this makes sense," it said.

Sandys' sweeping review warned that the West's success in avoiding global war by the strategy of nuclear power poses other dangers.

Sandys described the new intermediate-range missiles under development as more advanced than the U.S. IRBM for which four bases soon will be built in the British Isles.

He said Britain had a growing stockpile of atomic weapons and British hydrogen bombs are in production and deliveries to the Royal Air Force have begun.

Like Greeted by Snow On Arrival in Georgia

MOULTRIE, Ga., Feb. 13 (AP) — When President Eisenhower arrived at Spence Air Force Base today an inch of snow which fell during the night had melted for the most part. The thermometer stood at 34 when the presidential plane arrived.

FCC Head Investigated By Rogers

WASHINGTON, Feb. 13 (AP) — Atty. Gen. William B. Rogers today directed the FBI to investigate charges that FCC Commissioner Richard A. Mack received money from a lawyer interested in a case before the Federal Communications Commission.

An aide said Rogers "acts on his own motion" after House investigators heard testimony that Mack admittedly accepted several thousands of dollars from a lawyer active in getting a Miami television license.

Mack was not available to newsmen. He was absent from a full scale session of the FCC assembled to hear final oral arguments in a Toledo TV channel case.

In other developments stemming from the explosive House probe:

● Schwartz said the subcommittee files contain copies of two letters from chief White House aide Sherman Adams relating to a matter under consideration at the time by another federal regulatory agency.

● Sen. Wayne L. Morse (D-Ore) called in the Senate for a separate inquiry by that body into FCC and five other government regulatory agencies. Morse, who briefly had custody of Schwartz's working files, said there was "more than enough" for both the House and Senate to investigate.

Superior Court Judge Sets Aside PUC Order

STROUDSBURG, Pa., Feb. 12 (AP) — President Judge Chester H. Rhodes of Pennsylvania Superior Court today set aside temporarily a Public Utilities Commission order forbidding the Pennsylvania Railroad from curtailing some of its passenger trains engaged in interstate commerce.

The decision by Judge Rhodes means the PRR will be able to curtail service this Sunday on runs affecting Washington, Pittsburgh, Philadelphia and New York.

Leader Pushes Plan On Unemployment

ERIE, Pa., Feb. 13 (AP) — Gov. George M. Leader told a regional conference today that all governmental agencies need to cut red tape in an effort to provide more jobs and reduce mounting unemployment.

Leader spoke at the first in a series of regional meetings he has called to stimulate interest in his plan for a \$200 million "crash" program keyed to construction projects.

Some 400 industrial and labor leaders along with the Chamber of Commerce and other civic groups attended from eight western Pennsylvania counties.

"Help is needed from local and federal governments to create jobs which will reduce mounting unemployment," Leader declared, adding:

"I don't want to oversell or over-estimate... we don't have a magic wand. If we can get 10 per cent of the unemployed back on the job perhaps we can get this thing snowballing."

Leader emphasized that his program is keyed to plans to accelerate construction and other projects already on the drawing boards. As a typical example he said that some schools which have already been approved for construction can be built sooner than planned. He urged that every effort be made to push all construction schedules ahead.

There are now about 435,000 unemployed in Pennsylvania, a 46 per cent increase over the same time last year.

Snow and Cold Plague South

MIAMI, Fla., Feb. 13 (AP) — A bright sun wiped patches of snow off the face of the South today but Florida, plagued by cold all winter, was warned to expect another freeze Friday morning.

Fresh winds pushed cold, drying air into the area and small craft warnings were up from Tampa, on the Florida Gulf Coast, southward through the Florida Keys and north to Cape Hatteras, N. C.

The snow reached as far as Amarillo and other Texas Panhandle points to Savannah, Ga., and Cross City, Fla.

Snow which fell on the Mardi Gras celebration in New Orleans melted rapidly as the mercury climbed from a low of 27 degrees. Shreveport, La., reported 18 degrees.

Two inches of snow — heaviest fall in 70 years — covered some sections of South Georgia. There was a four-hour fall at Thomasville, where President Eisenhower arrived during the afternoon of a vacation.

This sweetheart of a lass is

Miss Marlynn Turbi

—fourth semester physical education major from Canonsburg.

MARLYNN is one of four lovely Penn State coeds who will be featured at the

Charles Shop's

Coke-Fashion Show

Tomorrow, February 15
1:30 to 2:30 p.m.

All coeds are cordially invited to the unveiling of Charles' carefree new fashions for spring!

Free Cokes and lovely Spring Fashions...

Everybody's going! See you there?

THINK... Through Your Faith

THE UNIVERSITY CHRISTIAN ASSOCIATION OFFERS FIVE COURSES IN RELIGION DURING THIS SEMESTER DESIGNED TO SUPPLEMENT THE REGULAR ACADEMIC PROGRAM OF STUDENTS, ON A NON-CREDIT BASIS:

CHRISTIAN CLASSICS

A study of the writings of John Woolman, Kierkegaard, and Francis de Sales. Resources to develop the inner life and clues to life's purpose and meaning.

Monday 4:10 pm

Instructor: Miss Genevieve Dilts, A.B., M.A., B.D.

INTRODUCTION TO THE BIBLE

Understand the Bible by looking at it as a whole; discover its central affirmations in regard to creation, God, man, Jesus Christ, good and evil, and history.

Thursday 4:10 pm

Instructor: Mrs. T. V. Gilpatrick, B.A.

RELIGION AND CONTEMPORARY LITERATURE

An exploration in the relationship between religion and literature. Among the writers to be considered are Sartre, Williams, Camus, Kafka, Dostoyevsky, Eliot, Auden, and Fry.

Thursday 4:10 p.m.

Instructor: Mr. Charles Minneman, A.B., B.D., S.T.M.

OLD TESTAMENT: A STUDY OF GENESIS

A study of the great dramatic events: the Creation, Fall, Flood, Construction of the Tower of Babel, etc., and their contemporary significance.

Tuesday 4:10 pm

Instructor: The Rev. Theodore Braun, B.A., B.D., S.T.M.

NEW TESTAMENT: A STUDY OF JESUS, THE CHRIST

Through the use of the record according to Luke, a survey of the events and sayings in the life of Jesus will be studied.

Monday 4:10 pm

Instructor: The Rev. Hal Leiper, B.A., B.D.

TIME: Ten weeks, one hour per week, beginning week of February 17.

PLACE: Program Center of Helen Eakin Eisenhower Chapel.

COST: \$2.00 for each course. Will apply toward cost of text book.

REGISTER: At U.C.A. office or come to the first meeting of the class.
