

IFCPA Sets Caterers' Workshop

Reservations may be made until noon today for a fraternity caterers' workshop Saturday for both members and non-members of the Interfraternity Council Purchasing Association.

The workshop will begin with discussion periods at 1 p.m. on the second floor of the Hetzel Union Building. It will conclude with a spaghetti supper at 6 p.m. Mrs. Ruth H. Arnold, manager of IFCPA, said the workshop is open to caterers, house presidents and house managers. Reservations may be made in the IFCPA office in 203E Hetzel Union or by calling AD 8-8541.

Ronald King of Alpha Chi Rho and Robert Ginns of Sigma Alpha Mu will be in charge of the opening discussion period. Topics to be discussed include menu planning, budgeting, handling of hired help, house management and methods of ordering food and supplies.

A question and answer session will be held after the discussion.

A second phase of the workshop will consist of talks by vendors. Mrs. Arnold said Cold, Inc., State College; Curry Canned, wholesale grocer, Altoona; and Reeves Parvin, wholesale grocer, Huntingdon, will be represented in addition to speakers on rug cleaning and furniture.

John Early, graduate student in rural sociology from State College, will present a demonstration and lecture at a special discussion on party planning and table decorations. Early will speak on table decorations and how to buy and care for flowers.

A general question and answer session at 4 p.m. will conclude the workshop.

Mrs. Arnold said anyone attending the workshop may attend the spaghetti supper in Woodman Hall, East Hamilton Avenue and South Allen Street. Mr. and Mrs. Fred Del Grosso of State College will prepare and serve the meal.

Washington Beat--

(Continued from page four) said, Dulles called Soviet proposals a hoax and a fraud. Well, Eisenhower said, he had read every word of that conference and he didn't recall that Dulles used the word fraud. Dulles did, though. He said, "We do not want to be a party to what would be a fraud or a hoax." Some days even a president just can't win.

Chem-Phys Council to Survey Students on Honor System

The Chemistry-Physics Student Council may adopt an Honor System if results from a survey of juniors and seniors in the college is favorable.

Irving Klein, chairman of the academic honesty program committee for the council reported last night that a letter concerning the proposed honor system is being sent to each junior and senior in the college.

The letter discusses the benefits and proposed charter of such an honor program. It also includes a blank sheet to be returned by the student to the dean's office with his comments and stating whether or not he would be in favor of adopting this system in the Chemistry-Physics college.

Adoption of the plan would mean that during all examinations in courses offered primarily for juniors and seniors in the college, both professors and students would be free to come and go at their discretion.

Examinations would be given in separate rooms for those who had pledged themselves to the honor system and those who had not.

The honor system would not affect quized or regular classroom work.

Members of the committee felt social pressure more effective in curbing dishonesty than classroom policing.

If the majority of students seem to be in favor of such a system and a charter is approved by the faculty, dean of the college and the Senate Committee on Student Affairs, the plan will probably be in effect for seniors during final exams in May, it was reported.

The program may then be expanded next semester to include juniors also, if it proves successful.

The council will hold elections of officers at its next meeting, March 19.

3d Morman Talk Missionary to Talk To Be Presented On Acculturation

The third in a series of ten lectures on Mormonism will be presented at 8 tonight in 208 Boucke on "By Their Fruits They Shall Be Known."

The series is being conducted by graduate students who are members of the Mormon faith. The historical and present day picture of Mormonism as well as the fundamental doctrines and practices of the church will be treated.

The series is designed especially for persons unfamiliar with these subjects. The lecture is open to the public.

Dr. J. Boelaars, a Roman Catholic missionary who has worked among the tribes of the woods and swamps of the Merauke and Mappi River areas of Southwestern New Guinea, will speak at 9 a.m. today in 112 Osmond.

He will speak to students in cultural anthropology and military anthropology on "The Acculturation Process in Southern Netherlands New Guinea." The meeting is open to the public.

Film to Be Discussed At Accounting Meeting

The Accounting Club will meet at 7 tonight in the Mineral Science auditorium.

The film, "Responsibility Accounting for a Small Manufacturing Company," will be presented and discussed by Alvin Pederson, C.P.A. The meeting is open to the public.

Expanded Support Of Research Asked

American engineering colleges, already conducting nearly half of the government-sponsored basic research in engineering now underway in this nation, called yesterday for expanded national support for fundamental research and promised to assume even greater responsibility for its success.

In a summary of the status and needs of research in engineering colleges, the American Society for Engineering Education said that engineering research valued at \$100,000,000 a year is now in progress on college campuses. Another \$10 million could be accommodated immediately with the present staff.

The report also stated that the progress of engineering in future years in the United States requires a greatly expanded program of basic research in all technical fields.

The report called for increased support of research in educational institutions vital for the professional development of the faculties, for the new knowledge which will result, and for the qualified students it will help train.

It said budget uncertainties of late 1957 damaged the "good relationships and the spirit of mutual confidence" built up between the Defense Department and educational institutions.

Of the \$100 million in engineering research now underway in colleges and universities, at least \$63 million is financed by contracts and subcontracts with military agencies, according to compiled figures.

But, according to Robert H. Ramsey, professor of engineering research and director of a major study of engineering college research potential, 549 additional equivalent man-years remain available immediately for research. He said:

"Using \$18,000 per year as the (Continued on page eight)

SALES CAREER PLUS MANAGERIAL OPPORTUNITY FOR TWO MEN

WE OFFER:

1. Guaranteed Income plus bonuses—Pension Age 60.
2. Intensive Training Program—Full Salary.
3. Managerial Opportunity End of 3 Years if you show executive ability.
4. Unlimited opportunity for individual achievement.

QUALIFICATIONS

1. Enough drive and ambition to be dissatisfied if not earning \$10,000.00 end of 3 years.
3. Resident of Western Pennsylvania or West Virginia.

John E. Brownell, C.L.U., Branch Manager of The Manufacturers Life Insurance Company (one of the world's largest international life insurance companies) will be on campus for interviews March 12th.

Contact D. M. Cook, University Placement Service for an appointment, March 12th.

Understand EVERY WORD of that BLUEBOOK MATERIAL! No Doubt About It!

Top-of-the-List Book For Practically Everyone!

FOR PARENTS
The dictionary habit helps children to help themselves. No doubt about it, when they look up words they remember them longer—build vocabularies invaluable in later life.

FOR BUSINESS PEOPLE
Webster's Collegiate is the standard for correct spelling, abbreviations, and word divisions for properly typed letters. No doubt about it, a copy on every desk saves time and mistakes due to guesswork.

FOR STUDENTS
Leading colleges require Webster's New Collegiate Dictionary. No doubt about it, Webster's New Collegiate is a must for correct English—and it helps in other subjects too. Its compactness makes it easy to carry.

INDEXED \$6.00
Unindexed \$5. Special gift bindings to \$12.50
