

Ike, Advisers to Postpone Proposed Cut in Taxes

WASHINGTON (AP)—President Eisenhower and his economic advisers talked about remedies for the recession Wednesday but decided to wait awhile before proposing any tax cut.

"No decision regarding taxes has been made," Secretary

Summit Meeting Planning Begun

MANILA (AP)—The Western Big Three foreign ministers agreed Wednesday on the diplomatic spadework they insist must precede a summit conference with the Russians.

Secretary of State Dulles, British Foreign Secretary Selwyn Lloyd and French Foreign Minister Christian Pineau got together on a series of procedures which they will recommend to other nations of the North Atlantic Alliance.

If the other Allies go along, the plan for diplomatic preparations will be proposed soon to the Soviet Union.

A U.S. spokesman said Dulles, Lloyd and Pineau reaffirmed in a 90-minute conference that they will continue to insist on an East-West foreign ministers meeting as part of the preliminaries. Other diplomatic negotiations also would be held before the summit conference of heads of government.

British Export Hits High

LONDON (AP)—Britain exported more to the United States in February than in any other month in history, the British Board of Trade reported Wednesday.

Provisional figures, the board said, showed that the record export total was valued at \$63,840,000.

Cuban Cabinet Walks Out

HAVANA (AP)—A government decree suspended civil rights throughout revolt-torn Cuba again Wednesday and set off a Cabinet crisis.

President Fulgencio Batista rode out the storm but saw his peace Cabinet walk out on him en masse.

The 22-member peace Cabinet—named last Thursday for the difficult task of restoring order and conducting elections June 1—resigned after the decree was pushed through at an emergency meeting.

Premier Emilio Nunez Portuondo, the former ambassador to the U.N., led the walkout. He strode from the session and quit.

He had declared only last night there would be no suspension of constitutional guarantee such as

Capture of Oil Center Announced

JAKARTA, Indonesia (AP)—The Jakarta government announced Wednesday night the capture of the American-operated oil center of Pakanburu that had been seized by Sumantran rebels.

But the rebel radio at Padang refused Thursday to concede the loss of the city and said heavy fighting goes on.

Jakarta parachute troopers were dropped early Wednesday around Pakanburu, in the heart of Central Sumatra, in the battle for control of the rich oil lands run by the U.S.-owned Caltex Oil Co. Americans in the area were reported in no danger.

Making a pre-dawn landing under cover of B25 bombers and Mustang fighters, the troopers and crack shock troops seized the jungle-fringed Pakanburu airfield, then swept through the city of 50,000, the Jakarta government's Information Ministry said.

Capture of Pakanburu would give the Jakarta government its first major victory over the Sumantran rebels. It would also put the Jakarta forces on the main road to Padang, the rebel nerve center on the west coast of Sumatra.

Naval forces of the Jakarta government have delivered an ultimatum—expiring today—demanding that the port of Padang be cleared of all ships.

Two navy corvettes have traded salvos with shore batteries, and a naval battle appeared likely within hours.

No Party Fight, Lawrence Says

WASHINGTON (AP)—Mayor David L. Lawrence of Pittsburgh, choice of the Pennsylvania Democratic organization for nomination for governor, said Wednesday he believes there will be no serious primary fight in his party.

Lawrence so commented after talking with Sen. Clark (D-Pa). He said he was encouraged by the pledges of support given him since his slating nine days ago.

Lt. Gov. Roy E. Furman has said he would be a candidate.

1 Killed, 22 Felled by Gas

BUTLER, Pa. (AP)—Carbon monoxide fumes killed one man and felled 22 others today while they worked on an underground mushroom farm in the depths of an old limestone mine.

Boycott of Kohler Admitted

WASHINGTON (AP)—A United Auto Workers official testified Wednesday he offered a contractor financial help if he would refuse to work for the Kohler Co.

The UAW has been on strike against Kohler four years.

Donald Rand told the Senate Rackets Committee he made the offer to Peter Buteyn of Sheboygan, Wis., on July 5, 1955, when Buteyn and his brother, Cornelius, were attempting to unload a vessel carrying clay for the Kohler plant.

A dockside crowd of several thousand prevented the Buteyns from unloading the ship and damaged some of their equipment. The brothers estimated the damage at \$6000 to \$7000.

Rand, an international representative of UAW, testified Buteyn told him he was "heavily in debt" and had financial problems which made it impossible for him to agree not to work for Kohler.

"I said I would be more than happy to give him a hand, within the authority that I had," Rand continued.

Sales Training Program

Home Office Administrative Openings

Our Sales Management Training Program is designed to develop men to head our sales offices throughout the country and for future sales management openings at our Home Office. It starts with a four-month school at Hartford and another eight months are spent as a field service representative before moving into a period of sales work.

Attractive opportunities are also available to men who wish to start directly in well-paid sales work (which may also lead to management) and in a limited number of Home Office jobs.

The Connecticut Mutual is a 112-year-old company with 500,000 policyholder-members and over three billion dollars of life insurance in force. Aggressive expansion plans provide unusual opportunities for a limited number of men accepted each year.

of the Treasury Anderson reported after this latest top-level conference on what to do about the slump in business and jobs.

Anderson added: "Whatever decision regarding taxes is taken will be reached only when the impact of current developments on the future course of the economy has been clarified and after consultation with congressional leaders."

Walter Reuther, addressing an AFL-CIO economic conference here, said that if other antirecession moves fail, the government should halt tax withholding from workers' pay for 90 days.

The president of the United Auto Workers said this would boost the nation's purchasing power by 500 million dollars a week.

Reuther also wants immediate action on a tax cut, expanded public works spending and broadened unemployment compensation benefits.

Reuther told a reporter that the withholding tax could be suspended for a period of less than 90 days, if desired. In any event, he said the forgiven tax should not have to be made up later.

This afternoon the Senate voted 93-1 to put Congress on record as favoring the fastest possible speedup on civil construction projects that have already been appropriated for.

Sen. Lyndon Johnson of Texas, the Democratic leader, said, in apparent reference to the announcement yesterday of 5,173,000 persons being unemployed, that "we can't ignore the shocking news of yesterday."

Batista immediately named a new Cabinet. The premiership went to Gonzalo Guell, former minister of state.

Most of the other ministers—Batista supporters who included business and civic leaders never in Cabinet jobs before—were reappointed.
