

Russia Objects:

No Council Talk Of Arms Wanted

UNITED NATIONS, N.Y. (P)—Russia formally objected Friday to debating disarmament in the Security Council but did not bar a possible procedural talk.

The Western Powers have proposed the Council approach as a means of bringing the deadlocked East-West talks back to

Moscow Warns West: Hands Off Satellites

MOSCOW (P)—Nikita Khrushchev told the West Friday night any attempt to change the status of Eastern Communist nations by force would bring Soviet intervention.

In an election speech, the Communist party head denounced as "insulting" the proposal of President Eisenhower that a summit conference should include the question of East European states.

Khrushchev said the Soviet Union not only rejected the proposal but declared that, "In the event of any new attempt from abroad to change the status of the Socialist-Communist nations by force, we will not remain ordinary onlookers and we will not leave our friends in the lurch."

"We are true to our responsibilities and to our international duties, and we would not like anyone to test our patience anew," he added.

An audience of 14,000 in Moscow's Sports Palace roared its approval as Khrushchev asserted the Soviet Union has intercontinental ballistic missiles and everything else needed "to crash any aggressor who tries to attack our country."

Honor 'Sir' Oppenheimer

WASHINGTON (P)—The Army's top missile man, Wernher von Braun, said Friday the British probably would have knighted atomic scientist Robert J. Oppenheimer, who was refused security clearance by the U.S. Atomic Energy Commission.

Von Braun voiced the opinion while testifying before a House Labor subcommittee on legislation to strengthen the study and teaching of science.

Military Rule Reigns In Seething Havana

HAVANA, Cuba (P)—Tight gun rule was enforced throughout this island Friday night. An unprecedented wave of violence subsided, at least for the moment.

Only one bomb explosion was reported near Havana—contrasted to the usual daily menu of burnings, train holdups, wrecking communications, kidnappings and killings.

President Fulgencio Batista kept the 7700-strong national police, and the army, navy and air forces in a state of alert.

Police, troops and coastguardsmen patrolled streets in rebellious Santiago de Cuba, in Pinar del Rio, Matanzas, Cienfuegos, Havana and other rebel hot spots. Police and other armed forces, clothed with extraordinary powers, broke up groups of Cubans wherever they attempted to congregate.

Under the suspension of constitutional guarantees, effective until April 26, they could arrest and toss thousands of Cubans into jail if necessary, without charging them, and hold them indefinitely. They also were empowered to raid homes without warrants and disperse public meetings.

Authorities rigidly enforced censorship of the press, radio and television and international telephonic communications.

Censors clipped out all Cuban items from American newspapers before they were allowed on newsstands. They required operators in telephone exchanges to sever connections when anyone tried to relay to the United States news of the situation in Cuba.

Increasing numbers of American citizens inquired at the U.S. Embassy whether the situation

Political Roundup: Staasen's Bid In; Dems Score Gain

HARRISBURG (P)—Harold E. Staasen gave his Pennsylvania address Friday as Philadelphia in filing his nomination petitions for the Republican nomination for governor.

The 50-year-old former Minnesota governor, bucking the Republican organization in his gubernatorial bid in the Keystone State, estimated there were "several thousand" signatures on his petition.

Ten counties were represented in the petitions, including Philadelphia, Delaware, Dauphin, Juniata, Cumberland, Mercer, Beaver, Bedford, Allegheny and Lawrence.

PITTSBURGH (P)—The Allegheny County Registration Commission reports that the Democrats lead in the county and city of Pittsburgh by 5-1 in a drive for new party registrations and party changes.

Since Dec. 5 new registrations and changes show there are 1996 new Democrats, 399 new Republicans, 1163 changes to Democrat and 222 changes to Republican.

Funds Sought For Unemployed

WASHINGTON (P)—A number of Republican senators opened a drive Friday for speedy action on an emergency plan to extend federal payments for thousands of jobless this year.

"This should have top priority over tax cuts, public works and other worthwhile projects," Sen. Clifford P. Case (R-N.J.) said.

"It will provide aid for hundreds of thousands of families whose unemployment compensation has run out or will shortly."

Sens. Payne (R-Maine), Aiken (R-Vt.), Potter (R-Mich.), Javits (R-N.Y.), and Langer (R-N.D.) pledged Case support.

Case said Chairman Byrd (D-Va.) had promised that the jobless payment proposal would have consideration at the next session of the Senate Finance Committee.

New Investigation Hinted by Probers

WASHINGTON (P)—House investigators split sharply Friday on whether their probe of the Federal Communications Commission has done more than scratch the surface of alleged influence on federal agencies.

In a new flareup of long-simmering discord in the House subcommittee on Legislative Oversight, Rep. Bennett (R-Mich.) said he doubted if the inquiry has gone skin deep into the question—a statement which led Chairman Harris (D-Ark.) to invite Bennett to dig as deep as he pleased.

U.S. Oil Center Hit By Indonesian Rebels

SINGAPORE (P)—Indonesian rebels declared Friday night they had resumed the battle for the American oil center of Pekanbaru and had gained support from another province in Sumatra.

The radio at Bukittinggi, mountain refuge of the rebel regime, said Lt. Col. Achmad Hussein's troops again were attacking the Jakarta government's paratroopers and commandos who seized Pekanbaru and its airfield Wednesday.

The broadcast said Tapanuli province in northwestern Sumatra had ousted the pro-Jakarta military commander there, indicating the province had joined the rebels.

Until now the province has been on the fence between joining the rebels and remaining loyal to the government of President Sukarno in Jakarta.

Rebel sources here said it was 99 per cent certain that Atjeh, another province at the extreme northern tip of Sumatra, also would announce shortly it was coming out on the rebel side.

This would bolster the rebels with about 150,000 warlike Moslems who long have been at odds with the Jakarta government.

Pakanbaru, a city of 50,000 almost in the center of Sumatra, is headquarters of the American oil company, Caltex, which has millions of dollars worth of installations in the area.

Two battalions of government paratroopers and commandos attacked the airfield Wednesday, and Jakarta claimed capture of the town.

The government claimed capture of the nearby Minas oilfield the next day; and capture of Dumai, an oil port for the other major field at Duri, Wednesday night.

Senate Rejects Tax Reduction

WASHINGTON (P)—The Senate balked again Friday at immediate income and excise tax cuts to beef up buying power and battle the recession.

Senators rejected the reductions in two separate packages on the way to passing and sending to the White House a bill to save life insurance companies \$124 million on 1957 taxes.

Grace Kelley Has Boy

MONTE CARLO, Monaco (P)—Princess Grace gave birth to a healthy, bawling son Friday.

The mother and Crown Prince Albert were doing fine. She was sleeping and he was crying, as doctors expected.

Russians Set Two A-Blasts: Arctic, Siberia

WASHINGTON (P)—The Russians have conducted two nuclear weapons tests in different locations, the Atomic Energy Commission reported Friday night.

One of the tests took place north of the Arctic Circle, the AEC

WASHINGTON (P)—The Senate-House Atomic Energy Committee said Friday the Eisenhower administration has dropped a controversial plutonium provision from a bill to permit more sharing of weapons information with Allies.

said, and the other was at "the usual Siberian testing site."

Neither test was in the megaton range. A megaton weapon is one having the equivalent of a million tons of TNT.

Japanese seismologists and weather experts in Tokyo reported March 8 that the Soviets had set off two nuclear blasts on or near Novaya Zemlya Island above the Arctic Circle.

The AEC announced Feb. 27 that the Russians had conducted two tests yielding megaton range-explosions north of the Arctic Circle.
