

Ike to Discuss Payments To Unemployed Workers

WASHINGTON (AP)—President Eisenhower Monday invited nine governors to meet with him Wednesday to discuss his plan for stretching out the period of payments to jobless workers.

The telegrams went out on a day that produced a report from the Federal Reserve Board saying that in February "industrial production, employment, incomes and retail sales again declined."

Industrial production fell three points to 130 per cent of the 1947-49 average. This was the lowest point since December 1954, and was 11 per cent below the level a year ago.

The report on February business also had some bad news for those who had anticipated an upturn during March. One section said: "In early March auto output was curtailed further and steel production remained near the low February rate."

The Federal Reserve report co-

W & J Increases Tuition For 2nd Straight Year

WASHINGTON, Pa. (AP)—Tuition increases for the second consecutive year at Washington & Jefferson College will go into effect next September to meet "rising costs of operation and overhead." The school said Monday the new rates will be \$300 annually, \$100 more than at present. Last year the fee was increased from \$600 to \$700.

incided with new action in Congress to combat the drop in business and employment.

In one move, Sen. J. Williams Fulbright (D-Ark.) introduced a bill proposing a two-billion-dollar program of low-interest loans by the federal government to help local governments finance public works activities.

In another, Sen. Lyndon B. Johnson (D-Tex.) called for larger Social Security benefits, including more aid to the aged, in any tax bill Congress may consider.

Secretary of Labor Robert Mitchell took formal note of the fact that as far back as last January, President Eisenhower had urged the states to boost the amount and duration of unemployment compensation benefits.

Mitchell wrote governors of all states, recalling that Eisenhower made the suggestion in his 1958 economic message.

'Space Ship Dwellers' Return After Five Days of 'Orbiting'

DAYTON, Ohio (AP)—Five young Air Force officers who stepped out of a "space ship" Monday after five days of "orbiting" the earth submitted to a battery of tests designed to determine their efficiency on the flight.

A spokesman said it will be some time before the tests are evaluated.

For the men, there was no question about their morale on the flight.

"They were congenial as hell," said Maj. Russell D. Brewington, 33, of Houston, flight commander.

"I never spent a more amiable time in my life," added Capt. Dan D. Fulgham, 30, of Pasadena, Tex.

The five men landed at 9 a.m. from their simulated journey 17,650 miles above the earth. The "flight" was conducted by the Wright Air Development Center to determine what effect long confinement in close quarters will have on the morale and efficiency of future space crews.

The men, all volunteers and all

veteran pilots who have logged at least 3,000 hours of flying time, were cooped up in a cabin 17 feet long, 7 feet wide and 6 feet high.

Relaxing in the aero-medical laboratory at WADC after morning-long tests, the crew members dug into a big steak dinner and chatted with newsmen.

Economy Vital--Anderson

Secretary of the Treasury Anderson told the GOP women that the nation's economy is strong and vital. He said there is no simple answer to its economic problems and the government should not proceed on the illusion that any single dramatic action is all that is required.

Ike Not Dependable--IUD

WASHINGTON (AP)—The IUD Bulletin, published by the Industrial Union Department, AFL-CIO, said Monday the nation can't depend on President Eisenhower for leadership to combat the recession.
