In order to effectively utilize the opportunities provided by this university, to promote the general welfare of the students, and to provide more representative student government, we, of the University Party, if elected, will carry out the following program.

1. Referendum Vote to insure student views on cabinet.

The purpose of this is to insure the student body's views on cabinet. It will be implemented by majority vote of 25% of the members of the respective class whether pro or con, on important questions which will be presented before cabinet. The vote of student views would be taken by open ballot in the H.U.B. The class president would be required to abide by this vote.

2. For better informed student body.

Students to take an avid interest, must be informed of the facts. This would be done through a prepared report consisting of the previous Thursday night's cabinet report and a possible agenda of next week's cabinet meeting. This report could be distributed throughout the student body with the co-operation of such organizations as IFC, AIM. Leonides, Panhellenic, etc.

3. A definite plan to establish better public opinion for and within the University.

A system whereby outstanding students would work with the University's Department of Public Information. The students would visit various high schools within the Commonwealth to speak on college in general, and Penn State in particular. This would promote good will and give the high school student contemplating college a deeper understanding of the academic and social potentialities offered by the University.
