

Eisenhower Invites Reds on Arctic Plan

WASHINGTON (AP)—President Dwight D. Eisenhower called on Soviet Premier Nikita Khrushchev Monday to join in creating a military inspection zone in the arctic as a significant first step in reducing world tensions.

He also appealed to Khrushchev to reconsider Russia's opposition to East-West technical studies which would consider concrete moves to police a broader disarmament agreement, including a halt to atomic-hydrogen tests.

Eisenhower set forth this double appeal in a new message released at his vacation headquarters, Georgia, a few hours before he flew back to the White House.

The 500-word Eisenhower letter went to the Kremlin only six days after Khrushchev had fired off a letter 10 times as long to the White House demanding agreement on Soviet disarmament proposals.

The swift Eisenhower reply, the latest move in their continuing public letter writing campaign, reflected the White House decision to answer more quickly to blunt Russian propaganda. Moscow advisers said there was no immediate reaction from the Kremlin.

In his message last Tuesday, Khrushchev had urged Eisenhower to halt all atomic-hydrogen tests immediately without dividing any specific East-West inspection plan. He also denounced flights of American atomic bombers in the north on the ground they might trigger off a world catastrophe.

Negro School, Temple Damaged in Explosion

JACKSONVILLE, Fla. (AP)—Dynamite explosions damaged a Negro school and a Jewish synagogue early Monday.

Mayor Haydon Burns said "It is quite obvious this is the work of an outsider" and asked the FBI to investigate.

The FBI, however, said it had no jurisdiction, adding it found no evidence federal law had been violated.
