

5th Graders Camp At Stone Valley

The 5th grade of the College Township school at Lemont is attending a school camp for elementary school children at the civil engineering camp in Stone Valley this week.

More than 50 6th-grade children from the Buchanan Elementary School and the 7th Ward School in Lewistown will participate in the second encampment which will begin Monday.

The final program, beginning May 19, will bring 6th graders from the Chief Logan School near Burnham to the camp.

The camp idea, now in wide use in some states, was started as an experiment three years ago when school children from Williamsport and Athens spent a week in Stone Valley.

The camp is conducted by Herman C. Kranzer, assistant professor of education and Dr. Fred M. Coombs, professor of physical education and head of the recreation education program, in cooperation with various school officials.

Two hours of activities are arranged for the morning and two for the afternoon. During these periods, experts are on hand to help the children to learn conservation and reforestation by planting trees, to learn about wildlife and fishing in the nearby stream; to learn about astronomy by observing stars through a telescope; and to learn meteorology by handling actual instruments used in forecasting and recording weather conditions.

Another phase of the school camp program is the follow-up when the children draw on their camp experiences in their various school courses.

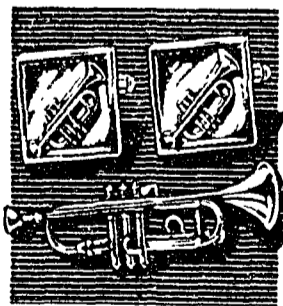

Officers Named For Blue Band

Blue Band officers for 1958-59 have been announced.

They are James Ressler, junior from Lebanon, president; Roger Munnell, sophomore from Washington, secretary-treasurer; John Koshak, sophomore from Portage, manager; Floyd Frisbie, junior from Stroudsburg, assistant manager; James Shugert, sophomore from Huntingdon, librarian; Helen Borek, sophomore from Linesville, assistant librarian; and Sandra Reimer, junior from New Cumberland, historian.

All the new officers are majors in music education except Miss Reimer, who is majoring in elementary education.

NOW...

an entirely NEW WAY to buy Gasoline

Sun's Miracle Pump is Automatic . . . Accurate

It provides 6 great fuels ranging from the highest octane anywhere at regular gas price to the highest octane anywhere at any price.

Yes, Sir. Whatever the make, age or model, there's a blend that's just right for your car . . . and don't forget this, whatever blend you buy, you pay only for the octane your car needs.

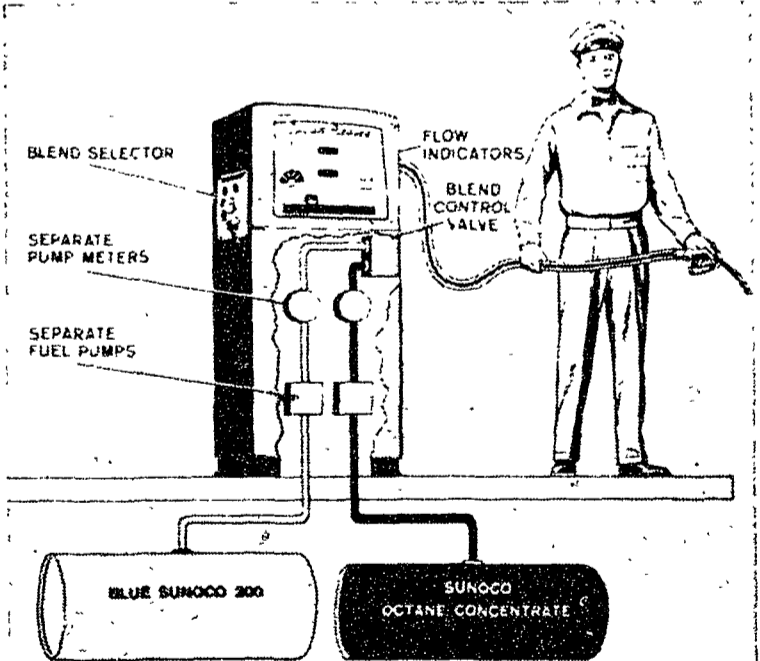

Custom-Blended

BLUE SUNOCO

... Fits the Right Fuel to your car!

... Avoids wasting money for octane your car can't use!

HOW IT WORKS . . .

Sunoco's Automatic Blending Pump draws from two separate underground tanks. One contains Blue Sunoco 200; the other, Sunoco Octane Concentrate. The Blend Selector controls the proportion drawn from each tank. The two fuels are pumped to a double hose (hose-within-a-hose) and blended in the nozzle, just before entering the gas tank of car.

The higher the blend number the higher the octane
 The lower the blend number the lower the price
