FIVE CENTS

Board Gives Foods Post To Proffitt

Robert C. Proffitt has been named director of food service, after serving as its acting director since last October.

President Eric A. Walker announced the appointment which was made at the weekend meeting of the Board of Trustees Executive committee.

Proffitt served as acting director of food service following the resignation of Mildred A. Baker. He had served as manager of food stores and was foods buyer until October.

Before coming to the University, Proffitt was manager of the Altoona district of Libby, McNeill and Libby. He was employed by the Libby firm since 1938 except for six years, when he served with the Army Quartermaster Corps as a foods officer.

A native of Chicago, Ill., Proffitt was previously affiliated with Bowman Dairy Co. in Chicago and with the National Tea Co.

As director of the food service, he will be responsible for service in all campus residence halls and the Hetzel Union Building. This involves centralized buying, storage and preparation of foods for about 16,000 to 18,000 meals a day.

Proffitt has been supervising final work in Redifer Dining Hall in the South Residence Hall area. Only one of the four dining halls is open now but all are expected to be in operation by the fall semester.

Pyrose to Go National, 29 To Be Initiated

Members of Pyrose, local sorority, will be pledged Saturday to Alpha Delta Pi, national sorority, which recently accepted its petition for affiliation.

The group—of 29 members—which will officially be a colony of Alpha Delta Pi, expects to be installed as an officially chartered chapter early in the coming Fall. When affiliated, it will be the Delta Kappa chapter.

Pyrose applied for national affiliation at the end of April after the University had approved the establishment of Alpha Delta Pi on campus. The local sorority was notified of its acceptance by telegram last week.

Pyrose was founded in the spring of 1956 by 12 coeds, and was approved by the University as a local sorority in the spring of 1957. It was also admitted to the Panhellenic Council as a non-voting member in the spring of 1957.

Alpha Delta Pi, the oldest national women's secret organization, has 92 active chapters and 253 active alumnae associations. Pennsylvania chapters include the University of Pittsburgh, Susquehanna University and Waynesburg College.

Students Must Request Selective Service Form

Freshmen or sophomore men who desire to have State Selective Service Form 109 sent to their local board this June must submit their requests before May 21 to the registrar's office, 4 Willard.

These forms will be sent only upon request by the student or his local board.

Graduation Invitations

Announcements and invitations for graduating seniors may be picked up this week at the Hetzel Union desk.

Receipts must be presented.

BAVARIAN HOOFERS whoop it up at the May Day ceremonies Saturday afternoon in Recreation Hall. The men are wearing the traditional lederhosen, or leather pants.

HUB Exhibit Honors Armed Forces Week

The military organizations of the University and of Centre County are observing Armed Forces Week this week with an exhibition in the Hetzel Union Building today, tomorrow and Thursday, and a parade on Thursday.

The exhibition will be open from 10 a.m. to 9 p.m. Besides

exhibits from the ROTC units of the University, several industrial ordnance companies are displaying their products.

The Naval ROTC unit is featuring a one-half scale model of the Navy's air-to-air guided missile, Sparrow I, in the exhibition. Its other displays include a baseline and homing guided missile guidance demonstrator which illustrates a basic system of electronic guidance of a missile to the target, and several Navy films which demonstrate defensive and offensive tactics.

The Army ROTC unit exhibit is made up of pictures and displays of industrial and research development in the Army and a history of uniforms and insignias. It is also showing slides which are narrated by a tape recorder on the subject, "The Challenge of the Space Age." Sometime this week they will add a scale model of the satellite Explorer I to the display.

Radar equipment of the 112th Aircraft Control and Warning Flight, Pennsylvania Air National Guard, is being exhibited in vans located in the parking area south of Grange Hall. Sets to be exhibited include a search

radar set and a height finder. Pieces of UHF air-to-ground communications are also on display.

During the parade on Thursday a flight of four F-86 planes will fly over the parade route and their flight will be controlled from the equipment on display on the campus.

Journ Officers Installed

Bryna Nelson was installed as president of Theta Sigma Phi, women's national journalism fraternity, at a meeting Monday night in the Alumni Lounge of Old Main.

Other newly installed officers are Lillian Cordero, vice president; Patricia O'Neill, secretary and Patricia Evans, treasurer.

All Honor Societies

The Daily Collegian requests that all honor societies and professional fraternities turn in information about themselves to the Gazette box in the Collegian office.

This information will be used in an article for orientation week.

Senior Class Gift

Stone Valley Could Be Gift Choice

By DIANE DIECK

First of a Series

One of the five suggestions for the senior class gift is a \$10,000 contribution to the Stone Valley Recreation Project, to be located in the 6300-acre University owned area 12 miles south of campus and which will boast a 70-acre artificial lake.

The \$10,000 would be given in a lump sum to the project "to be used as is deemed fit," and not for any specific facility, according to Thomas Hollander, former senior class president.

Bernard P. Taylor, executive

director of the Penn State Foundation, said in April that he considered the Stone Valley Area an ideal project for the \$10,000 senior class gift.

To date, \$60,000 of the \$200,000 necessary for the completion of the project has been collected.

Lawrence Perez, assistant dean of the College of Engineering and Architecture and coordinator for the area's construction, sets October, 1958, as the target date for completion of the artificial lake, which will be 30 feet deep, 3250 feet long and 1000 wide at its widest point. It will take approximately two months for the lake to fill after the dam is completed.

Perez mentioned that fraternity owned cabins were a distinct possibility for the area.

Lebanon Rioters Burn U.S. Library

BEIRUT, Lebanon (AP)—Angry mobs shouting for the downfall of Lebanon's pro-Western government burned another U.S. library yesterday. In northern Lebanon, an Iraqi oil pipeline was blown up. Strikes and shootings spread up and down the country.

Rioters smashed through a police guard outside the U.S. Information Agency library in Beirut, hurled books and furniture into the street and set them ablaze. Then they put the torch to the interior.

A general strike brought transportation and business to a standstill yesterday. At least four other buildings were set afire. Automobiles were overturned. Rioters and reinforced security forces exchanged fire several times at different points in the city.

At least five persons—including a woman and a child—were reported killed and 20 wounded in this fighting.

The library fire was the second in Lebanon in three days. A mob supported by demonstrators with stolen guns destroyed a USIA library in Tripoli Saturday.

Eleven persons were killed and 116 wounded in the fighting that day with government security forces.

The blasted pipeline carried oil from Iraq across Lebanon and Syria to the Mediterranean for the Iraq Petroleum Co. It had not been fully restored since being wrecked by the Syrian army during the Suez war in 1956.

Oil circles in New York said a halt in the flow of oil through the line going to Tripoli would have no serious effect on the supply of oil to Europe. They said the Tripoli line was smaller and not as important as the system leading to Banias.

Reasons for the actions against the library and the Iraq firm were not clear. But pro-West Iraq, a member of the anti-Communist Baghdad Pact, is now merged with the Kingdom of Jordan in the Arab Federation. Nationalist Arabs detest the Baghdad Pact.

Venezuelans May Attempt Nixon Killing

WASHINGTON (AP)—Secret Service Chief U. E. Baughman said yesterday he has received what he called an unverified report that an attempt may be made to assassinate Vice President Richard M. Nixon when he reaches Venezuela.

Baughman said no extra agents have been assigned to guard Nixon, but those traveling with him have been informed about the report received at headquarters in Washington.

Nixon arrives today in Caracas, the Venezuelan capital. He plans to remain there until Thursday when he will return to Washington from his Latin-American good will tour.

Baughman said information that an attempt might be made on Nixon's life had been given to the Secret Service by Jack Barry, a former Secret Service agent.

Baughman said he did not know the source of Barry's information. The Secret Service chief said Nixon's security guard has been alerted to possible trouble at a number of stops during the Latin American tour. He said tips on possible disorder have been received from many sources and that many of them proved unfounded.

He said he had no way of verifying the report from Barry and that, in view of this, he felt he had "nothing to alarm anyone."

Davidson Cops Golf Title at New Haven

By LARRY JACOBSON

Junior Bill Davidson, playing golf like Silky Sullivan usually runs races, came from behind yesterday to top Yale's Ted Weiss and bring the Eastern Intercollegiate individual golf crown to the Nittany Valley for the first time in more than 30 years.

The steady Lion golfer, 2 down after 12 holes, pulled even

after the 16th, won the 17th, and iced the match on the 18th hole when Weiss' shot wound up in the woods on the New Haven, Conn., course.

Thus Davidson, who advanced to the semi-finals last year before losing to eventual titlist Warren Simmons of Syracuse, climaxed six superb rounds of golf, leading the Lion squad to a team title runner-up finish for the third straight year.

Yale won the team crown with a 608 total, 17 strokes under the Nittany gross.

But Davidson wasn't the only Nittany linksman to qualify for the individual title. Little Johnny Felus, playing excellent golf all the way, qualified right behind Davidson's 36-hole 153 total with a 154 score. Lion Charlie Decker ended up in a five-way tie for the last qualifying position, and lost a playoff match to Dartmouth's Rod Frates.
