Assistant to Simes May Be Created For Indie Affairs

By DENNY MALICK

A new position of assistant to the dean of men in charge of independent men affairs may be created next semester, according to Dean of Men Frank J. Simes.

The "hopeful addition" to the dean's staff would deal with independent men, especially those living off campus, Simes said.

The new position would include some of the duties dealing with downtown men which now are handled by William B. Crafts, assistant to the dean in charge of resident counseling, and Harold W. Perkins, associate dean of men.

"We need someone exclusively in this area," Dean Simes said. "We feel we have not been giving as much attention to the independent men's activities as we should," he said.

If the new position is created, the duties, as outlined by Simes, would be:

- "To assist or advise the Association of Independent Men in its activity both on and off campus.

- "To cooperate with the acting coordinator of student activities and the office of the dean of women in developing social and recreational activities among all men students.

- "To assume responsibility in the area by off-campus housing for men and married students by providing information about suitable housing, resolving household-student problems, and raising standards among householders in accordance with University policy.

- "To evaluate requests for release or exemption submitted by men students in reference to University residence halls and to recommend appropriate action.

- "To assume responsibility for counseling of students withdrawing within a semester.

- "To assume a proportionate share of the responsibility for counseling individual students with their problems.

- "To maintain a liaison with the University centers including visiting the centers each year to talk to students coming to campus."

Police Seek Escapee Of Rockview

State Police are combing the area for a convict who made his getaway from the Rockview State Penitentiary at about 3:30 p.m. yesterday.

The convict, Ernest Sandberg, made his escape while working in the penitentiary field to the west of the dairy which is near Route 545. A Rockview official said the direction in which he left is not known.

Sandberg is serving a 1½-3-year term for burglary in Dauphin County.

He is 5 feet 10½ inches tall, weighs 148 pounds, and is of medium build. He has dark blond hair and a medium fair complexion.

When he left the penitentiary, the prisoner was wearing his prison clothes—own shirt and trousers of a covert-type material.

A \$50 reward has been offered for his capture, the Rockview official said.

The troopers have been looking for the convict since his escape was verified at 4:30 p.m. yesterday. No road blocks had been set up as of last night.

Weather Forecast

The Nittany Lion had decided to stay in his den today to finish his term report and perhaps to study ahead of time for his finals. But as he peered outside and discovered that the girls were once again taking sunbaths, he decided to hop into his car and investigate the expanded parking lot at Whipple's Dam. The forecast for today calls for sunny and mild weather with a high of 68 to 75.

Cloverleaf, Overpass Will Be Constructed

A cloverleaf exchange will be built on East College Avenue near Entrance Road.

Plans for the project which includes widening of Route 545, construction of a new road and an overpass are now in Harrisburg awaiting approval.

The new road—University Road—will extend from south of the highway, over the highway to eventually join Park Avenue. The road will pass to the east of the Nittany athletic fields, along the turkey trail.

The new road, which will also pass east of the Wagner Military Science Building on Threemile Road, will continue past Park Avenue across University farmland until it comes to a wood. The road then will make a 90 degree turn to the southwest where it will join Park Avenue.

The road will alleviate traffic congestion on College Avenue by re-routing behind the campus traffic destined for North Ather-ton Street.

At the present time, according to Walter W. Trainer, head of the division of landscaping of the Department of Physical Plant,

Pollock Road will not be cut through to meet University Road.

Trainer said that continuing Pollock Road at the present time would be a mistake since the Nittany area is still heavily populated.

Entrance Road which now joins the highway at the site of the new cloverleaf will end at the Home Management Houses.

As part of the highway project, Route 545 will be widened to four lanes from the cloverleaf to Dale Summit.

Once the project is completed, cars will have access to the campus by taking University Road to Park Avenue and then Shortlidge Road to Pollock Road.

However, Trainer said, once the Nittany Area is vacated Pollock Road will probably be extended to meet the new bypass.

U.S. Troop Aid Sent to Venezuela

WASHINGTON (AP)—Four companies of U.S. airborne troops and Marines are on their way to the Caribbean area as a result of the mob action against Vice President Nixon in Venezuela yesterday.

They are being sent, a Defense Department spokesman said, to "cooperate with the Venezuelan government if requested."

Screaming, jeering mobs of teenagers stoned and spat on Vice President Richard E.

PRESIDENT ERIC A. WALKER presents the Dr. Milton Eisenhower trophy to representative of the Pershing Rifles drill team, winner of the Mothers Day competition at Beaver Field.

Pershing Rifles Wins Tri-Service Trophy

Company B-5 of the Pershing Rifles won the Milton S. Eisenhower Trophy at the annual Mother's Day drill meet Sunday afternoon.

A crowd of approximately 3500 watched the Pershing Rifles drill and basic teams, Air Force drill and basic teams and the Navy drill team compete for the tri-service cup.

The teams were given 3 points for placing first in a competitive match, 2 points for second and 1 point for third. In the basic meet the Navy team received 2 first places and 1 second place, for a total of 8 points. Pershing Rifles received 1 first place and 2 third places for a total of 5 points and the Air Force basic drill team won 2 second places and 1 third place for a total of 5 points.

The Air Force drill team placed second 3 times and the Navy team received third place 3 times. The Pershing Rifles drill team won first place 3 times for a total of 14 points out of a possible 18. Although the Navy and Air Force teams received the same amount of points—11—Navy placed second because it had won 2 first places in the competition.

The Pershing Rifle drill team has received many other honors in the past year. It placed first in the Cherry Blossom Parade and third in the National Drill Competition which took place in Washington, D.C. It won 2 first places in trick drill at the 5th Regimental Drill Meet of Pershing Rifles and placed first in the State College Christmas Parade.

The team will march as a unit in the Armed Forces Day Parade in State College on Thursday night.

Pivot to Remain on Sale

Pivot, the poetry magazine, will remain on sale today.

Copies may be purchased for 25 cents at the bulletin board on the mall, the Corner Room and the Hetzel Union desk.

Nixon, hauled at Mrs. Nixon and beat in the doors and windows of their cars yesterday.

A spokesman said the troops were being sent to "certain U.S. bases in the Caribbean area." But he would not say what bases.

Among the American bases close to Venezuela are those in Puerto Rico and Trinidad.

It was the most furious anti-United States demonstration of their South American tour.

Nixon was lucky to escape unharmed. His limousine was badly dented and its windows broken. A youth dented the door of Mrs. Nixon's car.

The text of the Defense Department statement said:

"As a precautionary measure, two companies of airborne infantry and two companies of Marines are being moved to certain U.S. bases in the Caribbean area.

"The movement is being undertaken so these troops will be in a position to cooperate with the Venezuelan government if assistance is requested. This is purely a precautionary measure and there is no indication that such assistance will be required."

The paratroopers are en route from the 101st Airborne Division at Ft. Campbell, Ky.

The Marine forces left Camp Lejeune, N.C., in Navy aircraft.

Earlier yesterday, President Eisenhower demanded, and promptly received, assurances that Venezuela will take adequate measures to protect Nixon.

The State Department said it has been advised the Venezuelan government moved in infantrymen and tanks to keep order.

The White House said last night reports from Venezuela indicate government security forces there (Continued on page three)

Senior Invitations Ready

Senior announcements and invitations are being distributed at the Hetzel Union desk from 9 a.m. to 12 noon and 1 to 5 p.m. this week.

Receipts must be presented.

Collegian BOAR to Meet

Advance reporters for The Daily Collegian will meet at 6:30 tonight in 1 Carnegie.

Directed Vote Due 2nd Hearing by AIM

Editorial on Page Four

The directed vote amendment to the Association of Independent Men constitution faces a second reading at the AIM Board of Governors meeting tonight.

The amendment, approved 9-5-2 on first reading by the board last week, would prevent the AIM president from voting on All-University Cabinet against a stated policy of the board.

A two-thirds vote will be necessary to make the amendment law.

This is the second time the AIM board has considered a directed voting amendment. A similar motion was defeated 20 to 6 in December.

An amendment to the motion will be made tonight, according to James Goodwin, board alternate. The amendment is meant to clarify the motion and make it clear that it will take a two-thirds vote of the Board of Governors to bind the president's vote.

John Morgan, former AIM president, said last week he believes the directed vote amendment is a sign of a lack of confidence by board members in the president. Morgan also said he "believes that

the AIM president's refusal to take a stand on the issue shows a lack of confidence in himself."

The AIM budget, for the coming year, as well as a discussion of getting additional funds is also scheduled for discussion. The budget is being presented for its second approval as required by the constitution.

The board is scheduled to hear a report on the 1-day independent encampment to be held at the Forestry Cabin in Stone Valley September 13.

Charles Bartholomew, Club Hubanna chairman, will report on the second Club Hubanna held Saturday night. Club Hubanna is being sponsored by AIM on a trial basis.

A report will also be heard by the board from the Orientation Committee.
