Lion Party Debt Ruling Postponed

The Senate Committee on Student Affairs has postponed a ruling that diplomas and transcripts of 13 former Lion Party officers be withheld until a \$150 party debt was paid.

The committee had set Thursday as the deadline for payment of the bill owed to the Nittany Printing Co. for purchases of campaign materials in 1957 by John Godayte, last year's clique chairman.

Dean of Men, Frank J. Simes said the committee met to discuss the ruling with former Lion officers but no conclusions were reached. The matter was referred to a meeting this Thursday.

Jay Feldstein, All-University president, told All-University Cabinet Thursday night he protested the ruling at a meeting of the Senate committee Thursday.

Feldstein said, "I feel in this case it is difficult to draw a direct line of responsibility and it is unfair to present Lion Party officers to be held responsible for the debt."

Feldstein sits on the committee as a representative of Cabinet.

The bill was part of debts totaling \$312.53 owed to the publishing company by Godayte and Gordon Pogal, clique chairman in 1955. Both men have graduated.

The committee ruled previously it would not press Lion officers still enrolled for the debt incurred during Pogal's administration.

Each of the 13 officers elected in 1957 received a letter from the Election Committee stating the ruling and suggesting the debt be divided equally so each individual would pay \$11.93.

William O'Neill, former Lion clique chairman, consented at the request of Peter Fishburn, former Elections Committee chairman, to collect payments.

Warm Weather To Continue

The Lion decided today that he has been too lazy in this warm spring weather so he decided to show off his tennis prowess.

However, when he reached the courts, he forgot about the big sports day that had been scheduled. The varsity tennis team was warming up for their encounter with Bucknell but allowed him to give them a hand in their practice.

After chasing the ball all over the court (and only hitting back a few) he decided to stick to the bench.

The weather for the match will be sunny and warm with the temperature reaching the 70s.

Campus to Choose New Party Officers

Campus Party will elect five All-University clique officers at 7 p.m. tomorrow in 10 Sparks.

Bernard Magdovitz, present clique chairman, said only registered Campus party members may vote. Officers to be elected are clique chairman, vice-clique chairman, recording secretary, executive secretary and clique treasurer.

A meeting was held April 27 but officers were not elected because a quorum was not present. There have been no preliminary nominations prior to election of the clique officers, Magdovitz said.

HAZARDS OF FRISBEE—Elaine Williams, freshman in business administration from St. Leonard, Md., waits patiently for Paul Shaw, sophomore in business administrations from McKeesport, to hand her a frisbee from a ledge on Redifer Hall.

Drastic Power Voted To Stop de Gaulle

PARIS (AP)—The National Assembly overwhelmingly voted Premier Pierre Pflimlin drastic authority yesterday to fight any grab for power by Gen. Charles de Gaulle's backers at home and in Algeria.

The vote was 461-114, the greatest majority any government has received since World War II.

Charging there was a plot against the nation, Pflimlin even got all the Communist vote in his appeal for emergency powers to meet France's gravest postwar crisis.

The rebellious committees of public safety in distant Algiers stood firm in demands for the return of De Gaulle to power. A committee spokesman declared Gen. Raoul Salan, the French commander in Algeria, was on the committee side.

There were these other major developments last night:

• Two French air force generals serving with the French Joint Chiefs of Staff and with the top American command of Allied forces in Europe were reported arrested by national security forces.

There was no official announcement, but French sources said that

two generals presumably were linked with alleged plots against the government.

Reliable sources in the Interior Ministry identified the officers as Lt. Gen. Andre Challe, air deputy to Gen. Paul Ely, head of the Joint Chiefs of Staff, and Brig. Gen. Jacques Martin, Challe's deputy.

• The Defense Ministry ordered all French troops on leave in France back on duty.

• Police rounded up and later released about 300 Parisians on grounds of attempting to stage a public demonstration in defiance of a government ban.

• The government filed a new John Doe complaint, charging conspiracy against the internal security of the state. Officials maintained silence on the action, but it presumably was intended to serve as an open warrant for possible arrests under the government's emergency powers.

Senior Class Gift

Lewellen Calls WDFM Decision Urgent

By DIANE DIECK
Fifth of a Series

Discussing AM facilities for WDFM, one of the five suggestions to appear on the ballot for the \$10,000 senior class gift, Wilbur Lewellen, WDFM station manager said, "It is imperative to have action this year."

"With three stations already applying to the Federal Communications Commission for the limited number of AM frequencies available in the area, our filing for a frequency assignment becomes extremely urgent," explained Lewellen.

The station would broadcast on both AM and FM frequencies, as the expense for maintaining both would be little greater than the cost of present operations (around \$3000 per year.)

According to Richard Schilpp, former station manager, the

\$10,000 class gift and the \$5000 WDFM reserve fund would be adequate for the installation of AM facilities.

A recent survey reveals that a maximum 500 radios in the area receive the WDFM signal. Dr. Harold E. Nelson, faculty adviser to WDFM said, "AM facilities would be a motivation for better programming."

Nelson said an AM station "should be predominantly educational." "A high administration official, who asked that his name be withheld from the statement, said, "We're not in the entertainment business."

Nelson continued, "Utilizing the radio to extend classrooms is a good idea. Broadcasting classes, especially music and straight lecture courses, is a definite possibility. Radio classes have proved extremely popular at the University of Iowa, which broadcasts an introduction to music and an orientation to religious courses.

These courses would be adjunct, not a supplement to the closed circuit TV courses which

The uncertain future of the hotel administration curriculum probably will be resolved into a 2-year program in the College of Home Economics—beginning in the fall of 1959—and a 3-year program in the College of Business Administration, President Eric A. Walker said yesterday.

In addition to implementing the plans on the main campus, Walker said, probable recommendations to the Board of Trustees also will ask eventual establishment of the 2-year program at two University centers where it is hoped industry facilities could be used.

Other probable recommendations listed by Walker are:

• That the 2-year program lead to an associate degree; and that the 3-year program, designed to prepare students for executive and managerial positions, draw its enrollment from the 2-year program.

• That the existing 4-year program be retained for freshmen entering in the fall and for students now in the curriculum.

The recommendations would come from a committee appointed last May to study the curriculum. The group is composed of representatives of the Pennsylvania Hotel Association, with W. A. "Spike" Kelly, an assistant to the President, as executive secretary.

The committee has consulted with the American Hotel Association and officials of several large hotel chains, it was reported.

Although Grace M. Henderson, dean of the Home Economics college, said in October that hotel administration might be transferred to the Business Administration college, uncertainty about the future of the curriculum was not made public until November.

The Home Economics Student Council on Nov. 12 unanimously requested that the administration clarify rumors that the curriculum might be dropped. It was reported to the council that industry was withholding support because the curriculum was in the Home Economics college but that it was not wanted in the Business Administration college.

But James B. Long, president of the Board of Trustees, recently said he believed hotel administration would be strengthened rather than discontinued.

Siders To Head Board Of Control

Ronald Siders, Alpha Chi Sigma, has been appointed chairman of the Interfraternity Council Board of Control and Robert Jubelirer, Beta Sigma Rho, has been named IFC parliamentarian, by the IFC Executive Committee.

Siders, junior in geophysics and geochemistry from York and vice president of Alpha Chi Sigma, will head the judicial body of the IFC. Jubelirer, junior in arts and letters from Hollidaysburg and president of Beta Sigma Rho, will also head the 1-day IFC encampment.

Edward Hintz, IFC president, said additional appointments to the Board of Control and some committee chairmanships will be announced at the IFC meeting at 7:30 p.m. Monday in the Hetzel Union auditorium.

A \$9,690 tentative budget, including nearly \$4300 in IFC-Panhellenic Ball expenses, will be presented for approval at the meeting.

Richard Christian, secretary-treasurer, said the \$4300 in expenses for the IFC-Panhel Ball will be cancelled by expected receipts. Other major expenses include Greek Week—\$1000, workshops—\$600, and the Fraternities Affairs Office—\$450 to \$600.

A motion to prorogue the sale of tickets to the IFC-Panhellenic sponsored dance on a percentage basis of the men living in the fraternities will be presented by James Hammerle, dance chairman.

Hammerle said the tickets would be placed on sale to non-fraternity members 10 days prior to the dance and those tickets remaining a week before the dance will be assessed to the individual houses. This year the fraternities were billed \$14.50 each for the loss incurred.

A tentative date of March 20 has been set for the dance and the orchestra will not be chosen until next semester, he said.

New Post Given To Carpenter

Dr. Clarence R. Carpenter has resigned as head of the Department of Psychology, effective July 1, to devote full time to his position as director of the Division of Academic Research and Services. He will continue as a professor of psychology.

The change was approved at the weekend meeting of the Board of Trustees. The board also approved the promotion of Leslie Greenhill to the position of associate director of the division, also effective July 1.

The division is concerned with research studies relating to the instructional program of the University. It assembles information designed to improve utilization of teaching resources. It also assists in the construction of academic tests and coordinates all phases of the television and audio-visual development program.
