

Dickson Seeks Data On Barnard's Life

New facts and data about the life of George Grey Barnard, sculptor of the controversial statues formerly on display in Schwab Auditorium, are being sought by Dr. Harold E. Dickson, professor of history of art and architecture, from a wealth of material loaned to the University by the sculptor's son, Monroe, of Stamford, Conn.

The collection, which contains a variety of memorabilia, ranging from journals, account books and plans for sculpture projects to newspaper clippings, photographs and old glass negatives, should be a source of valuable information on the life and work of Barnard, Dickson believes.

He is planning to write a monograph on the sculptor who was born in Bellefonte in 1833 and who had many ties in central Pennsylvania. To date, no complete account of Barnard's life and work has been written.

"All his life Barnard retained a special fondness for his native region," Dickson said, expressing the hope that somewhere in this area a suitable site can be found for the extensive collection of works of art which Monroe Barnard would like to see installed in the region his father loved so much.

Of particular interest to Dickson is a tiny notebook entitled, "A History of Primitive Woman" which traces the early stages in the carving of a statue known as "Rising Woman," commissioned by John D. Rockefeller.

This was intended as a companion piece to "The Hower," Barnard's primitive man, the marble of which Mr. Rockefeller had purchased. A plaster of the "Rising Woman" was then given to the University to go with that of "The Hower" which had been presented in 1904.

"I think it is important to know that these plasters owned by the University are original artist's studio plasters," Dickson said. "Thus they are of considerable documentary value and should be preserved."

Shoeless Coed--

(Continued from page four) a frisbee is a victrola record. One must realize, however, that unbreakable records are better for sailing than are the old 8 rpm jobs; they can't be used more than one time.

For those street urchins who can't afford even old records, there is always the neighbor's garbage can lid. This even adds flavor for the guy catching it. This method, however, cannot be played after sensible people have gone to bed. The sound of the lid hitting the pavement after a miss can wake the dead. Yo Rinny!

Cramming for Exams?

Fight "Book Fatigue" Safely

Your doctor will tell you—a NoDoz Awakener is safe as an average cup of hot, black coffee. Take a NoDoz Awakener when you cram for that exam... or when mid-afternoon brings on those "3 o'clock cobwebs." You'll find NoDoz gives you a lift without a letdown... helps you snap back to normal and fight fatigue safely!

Journ Society Honors Manna

Ralph Manna, senior in journalism from Altoona, has been named the outstanding male graduate in journalism by Sigma Delta Chi, national professional journalism society.

Manna is a recent initiate of Kappa Tau Alpha, honorary journalism scholarship society.

The Sigma Delta Chi committee which selected Manna also awarded four senior prizes for the maintenance of high scholastic standing and a ranking in the upper five percent of their graduating classes.

Honored were Pauline Metzger from Ambler, an August 1957 graduate; Paul Nelson from Palmerton, a January graduate; and Marion Beatty from Towanda and Jean Hartley from Pittsburgh, both of whom will graduate in June.

Police Report 120 Arrested During April

A total of 120 arrests were made by State College Police last month according to a report presented to the borough council Monday night by Police Chief John R. Juba.

Police also answered 99 complaints and investigated 11 auto accidents in which one person was injured and damages amounted to \$2893.

Violations of the motor code accounted for 54 arrests—10 for speeding, six for failure to stop at a stop sign, five for going against traffic and five for failure to yield the right of way.

Police made 66 arrests for violation of borough ordinances. Meter violations accounted for 30; no parking zone violations, 15; and one-way street violations, 13.

Fines and costs collected last month totalled \$3868.50. A total of \$334.25 of this amount was collected for bicycle licensing and inspection and \$2534 from parking meters.

The balance was received from parking and traffic violations.

Eng Council Shingles

Members of the Engineering and Architecture Student Council may pick up their shingles this week at the Associated Student Activities office, 202 Hetzel Union.

Eng Students Win College Recognition

The College of Engineering and Architecture gave recognition to 162 students at its Honors Day program yesterday. The following fellowships for graduate study were presented:

Curtiss-Wright Fellowship, Carlton Bates; National

Science Foundation Fellowships—Honorable Mention, Charles Agnew, Robert Bone, William Griffin, Edward Headington, Daniel Patyk, Paul Steranka and Lawrence Veselovsky.

DuPont Fellowship, Richard Lorens; Walter N. Brown, Jr. Memorial Fellowship, Francis Yonker; Hamilton Standard Division Fellowship, John Patrick; Tau Beta Pi Fellowship, Lee Strawbridge; Schlumberger Foundation Fellowship, Albert Niessner.

Standard Oil Company Fellowship, Richard Strand; Hughes Fellowships, Armand Sanders and John Bolen; Atomic Energy Commission Fellowships, Armand Sanders and Paul Steranka.

University Scholarships were presented as follows: the John W. White Scholarship, Frederick Young; the Louise Carnegie Scholarship, Paul Canick; the Class of 1922 Scholarship, James Robbins; the Class of 1921 Scholarship, Robert Horst and Walter Thrush; the Class of 1921 Scholarships, David Brewer, Edward Frymoyer, John Kelley and Daniel Patyk; the Lawrence Ostermayer Memorial Scholarships, Harold Hughes and Hans Huth; the Ethel and Bayard D. Kunkle Scholarships, Mahlon Artz and Lawrence Veselovsky.

The Lieutenant Harry Edward Wagner Scholarship, Robert Moyer; the Alpha Phi Omega Scholarship, Gary Gentzler; General Scholarships, Charles Adomshiek, Clarence

Haugh, Edward Irzinski and George Ripson.

These scholarships from the College of Engineering and Architecture were presented: the Allegheny Ludlum Steel Corporation Scholarship, Robert Moyer; the Aluminum Company of America Scholarships, David Valentine and Joseph Willard; the American Die Casting Institute Scholarship, David Wood.

The American Die Casting Institute—Eastern Regional Group Scholarship, James McLaughlin; the Bakelite Company Scholarship, James Mattavi; the Michael Baker Jr. Scholarships, Joseph Oyler and Robert Wismer; the Cincinnati Milling Machine Company Scholarships, Frank Elliot, Donovan Garee, Ronald Glenn and Hart Langer.

The George H. Deike Scholarship, Michael Bem; the Douglas Aircraft Scholarship, Alfonso Linhares; the Foundry Educational Foundation Scholarships, James Cline, Michael Eleftherion, Donald Godfrey, William Kilpatrick, Michael Mitchell, Bryson Ocker, Daniel Preska, Samuel Rise, Thomas Schneider, Samuel Sleight and Eugene Strum.

Draft Form Deadline

Freshman and sophomore men who desire to have Selective Service form 109 sent to their local boards this June must submit their requests today at the Registrar's office, 4 Willard.
