

12 Midshipmen Receive Awards

Twelve midshipmen were given awards for scholarship and service yesterday in the NROTC award ceremony in front of Old Main.

The Fourth Naval District Award was given to Roger Levin, senior in metallurgy from Glen Richey.

Hugo George, senior in business administration from State College, was awarded a certificate and a one year membership in the U.S. Naval Institute as recognition for graduating with the highest average in Naval Science. Levin received a similar award.

The Reserve Officers Association Medal was awarded to Fred Simpson, senior in business administration from Williamsport.

David Weisel, senior in mechanical engineering from North Wales, received the Navy League Plaque for achieving the highest average in Naval Science subjects. Weisel and John Sopko, junior in electrical

engineering from Aliquippa, were awarded the Society of American Military Engineers Medal and Certificate.

The Convair award, given to a midshipman in Naval Aviation for a high academic average, was awarded to Robert Yeager, senior in metallurgy from Bellefonte.

Tom Turner, senior in electrical engineering from Maywood, Ill., was awarded the Armed Forces Communication and Electronics medal.

The Julius Horowitz Award of a Naval officers cap was given to Clair Heckathorne, senior in industrial engineering from New Wilmington.

Robert Steele, senior in arts and letters from State College, and John L. Witwer, junior in civil engineering from Gordonville, were awarded the Scabbard and Blade certificate and medal.

Clair Garman, sophomore in electrical engineering from Lancaster, was given the Quarterdeck Society Award for highest academic achievement and aptitude.

The Drill Team Commendation was awarded to Gary Hale, junior in business administration from McKeesport.

Will Says Beauty Gives Knowledge

"Experiencing beauty gives knowledge," says Dr. Samuel F. Will, professor of classical languages at the University, who has written a book, "Intelligible Beauty in Aesthetic Thought," to express this thesis.

To explain the idea briefly, Will used the example of a beautiful sky. "One person may look at a beautiful sky and say that the beauty he sees is within himself, not within the sky, for he would say there is nothing but air in the sky," Will said.

However, another person might see that the sky is beautiful and say that the beauty is in the sky itself, that beauty is a real thing that does exist and may be the tangible expression of God, Will said.

It is the latter of the two which Will believes and has set out to prove.

"Because beauty is a real thing that exists in the world, it follows that one gains knowledge of the world by experiencing beauty," Will said.

Approved Fraternities

All fraternities have been approved for tonight and tomorrow night except Alpha Phi Alpha, Alpha Tau Omega, Kappa Alpha Psi, Phi Kappa Psi and Pi Lambda Phi. Pi Sigma Upsilon and Theta Xi have been approved for tomorrow night only.

2 Banking Firms Offer Scholarships

Two banking firms have established scholarships for the University. The Central National Bank of Cleveland, Ohio, has established a \$350 scholarship for a senior in business administration.

The Hazleton National Bank Foundation provided the other scholarship to encourage students of ability from the greater Hazleton area to enroll in the two-year associate degree program offered at the Hazleton Center.

Former Prexy Given Annual 'Father' Award

Milton S. Eisenhower, president of Johns Hopkins University and former president of the University has been named Father of the Year to become the second Eisenhower to win the award.

President Dwight D. Eisenhower received the award in 1943.

The National Father's Day Committee made the presentation this week on the basis of work done in the field of education.

Eisenhower's work has not been restricted to education, however. Besides serving as an adviser to his president brother, the college head has served as a U.S. representative in UNESCO.

He was a special ambassador and personal representative of the President on Latin American affairs.

And during World War II, he was director of the War Relocation Authority and associate director of the Office of War Information.

Eisenhower's role as a father is for the benefit of Milton S. Jr., graduate of Kansas State College, and Ruth, a student at Swarthmore College.

Gemmill Heads Forensic Board

Mary Anne Gemmill, junior in education from New Cumberland, has been elected president of the Board of Dramatics and Forensics.

She replaces Jere Fridy, former president of the board, on All-University Cabinet.

Miss Gemmill is the manager of Women's Debate.

James Ressler, junior in music education from Lebanon and president of the Blue Band, is the new vice president.

Robert Navarra, sophomore in counseling from Hempstead, N.Y. and president of the symphony orchestra, has been elected secretary-treasurer.

Paynter to Receive Memorial Award

Myrna Paynter, senior in education from West Chester, has been chosen as the recipient of the Ralph Dorn Hetzel Memorial Award for 1958.

The award which honors the late Hetzel, tenth president of the University, is made to the senior which the Selections Committee feels has achieved the best balance of high scholastic rank, good citizenship, activities and leadership.

Miss Paynter will receive the award at commencement on June 7 when she will be graduated with honors.

Pepelko Named Alternate

William Pepelko, senior in dairy science from Linesville, has been named as alternate for the Ralston Purina Co. animal husbandry research fellowship.
