WSGA Enforces Rules For Women Students

The Women's Student Government Association is the top governing body in the coed governmental structure and has as its primary function the enforcement of rules and regulations for women students.

The structure of WSGA is somewhat similar to that of the branches of the Federal government. It consists of a Senate, House of Representatives, Freshman Council, Judicial headquarters in Home Economics Building on the east side Board and Freshman Regulations

Board. Women's student government begins in the residence halls where each living unit elects a president, vice president and secretary-treasurer. The unit hostess and officers conduct meetings where students have a voice in their government.

The Freshman Regulations Board reviews violations of rules by freshmen and the Judicial Board hears cases of rules viola-tions by upperclass women. Both boards are empowered to recommend punishment for violators.

The WSGA president - this year's president is Ellen Donovan, senior in arts and letters from Emporium—is elected by all women students in a general election in which other WSGA officers are chosen.

Miss Donovan presides over the Senate, the highest governing body of WSGA, and represents the women on All-University Cabinet, the top body of the student government.

The Senate is composed of the WSGA president; the vice presi-dent, Jessie Janjieligian; secre-tary, Sandra Shogren, treasurer, Sue First; and eight senators rep-resenting freshman, sophomore junior and senior women.

Representatives of Leonides, independent women's governing body, Panhellenic Council, representing sorority women, Women's Recreation Association, the chairmen of WSGA standing commit tees and ex-officio members also sit on Senate.

The sophomore senator is in charge of the Freshman Council, a body similar to the House of Representatives. The presidents and vice presidents of the freshman living units represent the freshman women on the council. The council confines itself to the problems of freshman women.

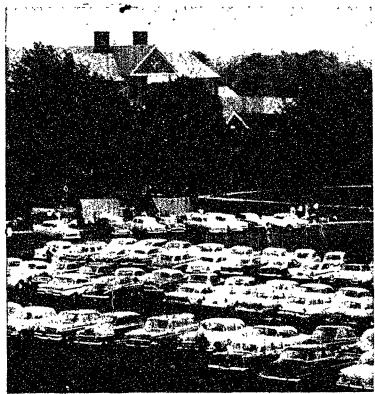

The vice president of WSGA presides over the House of Rep resentatives, composed of the presidents of the sophomore, jun-ior and senior dormitory units. The House of Representatives is a subordinate legislative body to the Senate.

The House also plans and conducts the May Day celebrations and sponsors a clothing drive for overseas distribution.

Nominees for WSGA offices are selected from a list of self-nominated students who do not have a major judicial record and have a 2.5 minimum All-

University average. Those eligible are determined by a screening board on the basis of scholarship, leadership and extra-curricular activities. All women students vote for

Senate officers and their class representatives in the primary and final elections in the spring.

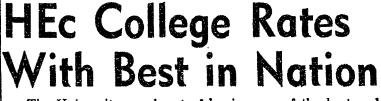

PARKING SPACE WAS AT A PREMIUM when 4500 new students arrived for Orientation Week Sunday morning, Cars were forced to use the HUB lawn since no other space was available. The same conditions prevailed for most of the week as upperclassmen returned, but the HUB lawn was saved after Sunday.

Theodorson, Lowe To Teach in Asia

Two faculty members will spend ma.

the 1958-59 academic year on as-Dr. Mervin R. Lowe, assistant signments in Southeast Asia.

The University can boast of having one of the best and most complete colleges of home economics in the country.

Established as a field of learning at the University in the latter half of the 19th century, the college now has its main of the little mall.
